

The East Suffolk Communities Team aims to ensure that individuals, local groups and charities have the opportunity to access the help and support they need to make positive changes within their community and feel proud of where they live.

We can help YOU with...

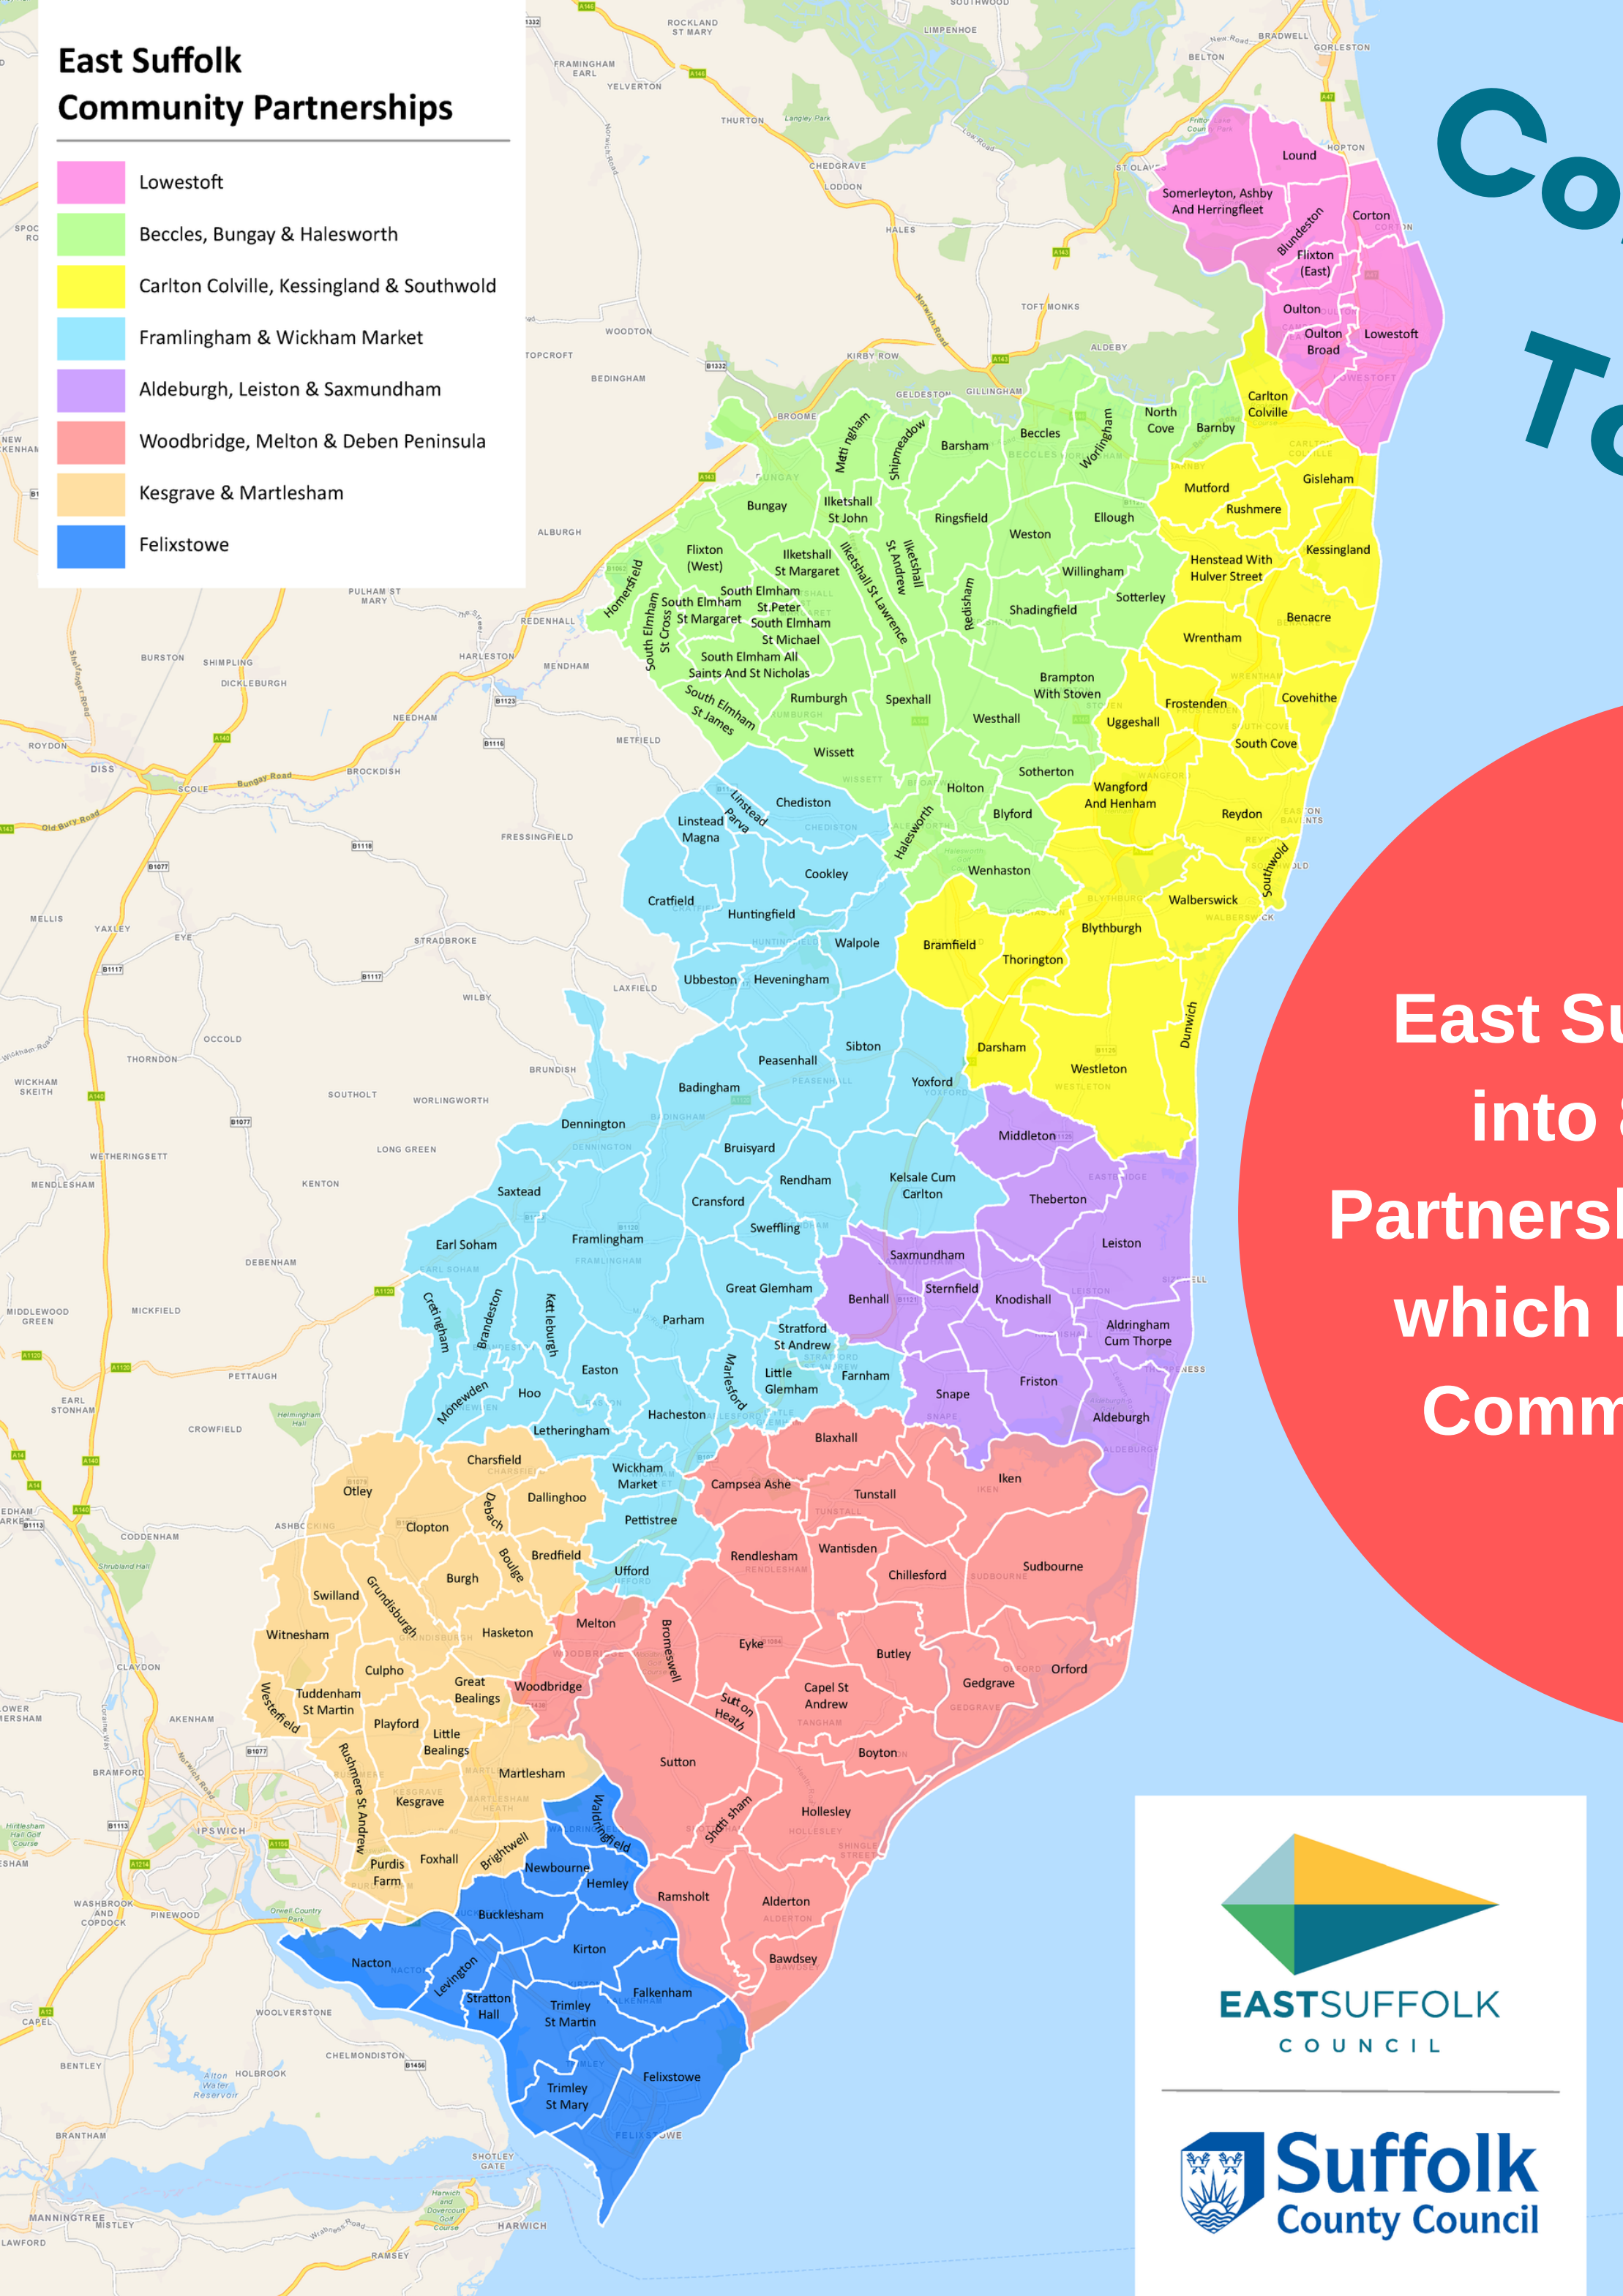

- Community projects, activities, events, consultations and engagement.
- Development of new community groups.
- Access to funding advice.
- Community safety including anti-social behaviour reduction advice and related projects.
- Community health and wellbeing projects.
- Community led planning/Neighbourhood planning
- Linking local residents, councillors, new and existing groups and organisations.
- Sharing success between community groups and individuals.
- Directing local issues, concerns and questions to the relevant district or county council department or partner organisation.

As your initial point of contact, your Communities Officer will work with you directly or, if more appropriate, will point you in the right direction so that you can access the assistance you are searching for from other individuals, groups or organisations in your local area. Communities Officers work closely with partners such as Health, Police and the Voluntary and Community Sector (including Community Action Suffolk).
