

Leiston Shovel it Yourself Day – FREE soil improver!

Friday 6th May 2022 09:30-15:00

Sizewell Sports & Social Club

King Georges Avenue, Leiston, IP16 4JX

Bring a shovel, gloves & container and help yourself! (Subject to availability – when it's gone it's gone!)

Small trailers are permitted but if you are within walking distance and are able to take your soil improver away in your wheelbarrow please consider leaving the car at home.

You are welcome to take some for members of your family or neighbours who would otherwise find it difficult to access the event.

Whilst visiting why not stop for a chat with a Master Composter volunteer and if you're not already in the composting habit, ask about the subsidised home composting systems available to residents of Suffolk.

This event has been organised by East Suffolk Council on behalf of Leiston Town Council, Net Zero Leiston and the Greenprint Forum, with the help of local volunteers, and ten tonnes of soil improver kindly donated by Biogen (UK) Ltd – completing the circle travelled by the garden waste collected from the green bins.

Subject to availability.
