

Zero Carbon Communities and their role post Covid-19

Virtual event 5 November 2020 16:30-17:30

The first half of this session will look at how the Suffolk Climate Change Partnership is helping communities to reduce their carbon footprint, including a brand-new pilot to help one East Suffolk community create its very own Zero Carbon Plan.

The second half of the session will feature a Q&A session with expert panelists, looking at how communities can support the green recovery.

This session is being delivered by Groundwork East on behalf of the Suffolk Climate Change Partnership and is being promoted by the Greenprint Forum.

Free tickets can be booked via <https://www.eventbrite.co.uk/e/zero-carbon-communities-and-their-role-post-cv-19-tickets-124570217875>

It is being held as a fringe event to the East Suffolk Council's Communities Partnerships Virtual Forum: <https://www.eelga.gov.uk/events/east-suffolk-community-partnership-annual-forum-2020-5-day-virtual-programme-overview/>
