

## FRAMLINGHAM NP- Summary of Representations sent to Examiner

Name	Summary of Representation
1. Historic England	<p>Disappointed that requirement in para 126 of NPPF to set out positive strategy for conservation and enjoyment of historic environment is not reflected in vision statement and objectives. Would have expected it given challenges facing plan. Disappointed at reliance on local plan policies.</p> <p>Notes no proposed replacement policy for AP1 conservation area.            Welcomes Fram4;            Fram5 questions why no reference to the consideration for alterations to listed buildings;            Welcome Fram6 &amp; 7.            Welcome Fram14 but want text as per Fram6 – relevant also to Fram24;28;29.            Requests consideration be given to the inclusion of map from conservation area appraisal.</p>
2. Anglian Water	<p>Notes capacity at Framlingham Water ReCycling Centre is limited and creation of further capacity would be required to accommodate growth. References recommendation to SCDC policies which require confirmation of adequate foul drainage capacity both in treatment facility and network before development connects to sewerage system</p>
3. Natural England	<p>Happy that earlier comments have been fed into plan.</p>
4. UK Power Networks	<p>Acknowledges receipt and provides updated contact details. No further comment received.</p>
