Subject: Framlingham Neighbourhood Plan Submission Stage Consultation

Thank you for the opportunity to comment on this stage of the plan.

It should be noted that capacity at Framlingham Water Recycling Centre is limited and the creation of further capacity would be required to accommodate growth. It has been recommended to Suffolk Coastal District Council that their policies include the requirement for confirmation of adequate foul drainage capacity both in the treatment facility and the network before development connects to the sewerage system.

We have no issues or concerns to raise or further comment to make in regard to the Neighbourhood plan.

Regards

Sue Bull
Planning Liaison Manager
