If no, please tell us why not and suggest an alternative boundary:

I agree that the inclusion of the Seckford Heights area within the Woodbridge plan is a sensible idea and is logical to propose this.

As a resident of the Seckford Heights area I look to Woodbridge for all my local services and consider myself as living in Woodbridge. Indeed when we first moved to the area we used a Martlesham designation when providing our address which proved to be a significant mistake. With little exception deliveries of goods, services and social visits to our property were impacted as it was thought we were based around the BT site rather than in Woodbridge. Within a short period of time we ceased using the Martlesham designation and all confusion ceased immediately.

The key point here is that people logically believe Seckford Heights to be a part of Woodbridge. Therefore I would strongly support Seckford Heights being included in the Woodbridge Plan. Please approve this application.
