

Plastic Action Pakefield

Saturday 04 October 2025, 10:00-11:00

There is now an estimated average of 70 kg of plastic litter on every square kilometre of the floor of the ocean (Eunomia)

Help us stem the tide of plastic pollution and join our beach clean combined with a survey of the marine litter we find.

Please register so that we know who and how many to expect:

<https://www.eastsuffolk.gov.uk/environment/east-suffolk-greenprint-forum/events/forthcoming-events/>

We will meet in the car park at **All Saints Road, Pakefield**: what3words: ///bandage.shuttered.fallen

Bags, sticks and hoops will be available. You are welcome to bring your own equipment if you prefer, and please wear clothes that you don't mind getting a bit grubby.

This is a joint activity between **Suffolk Beach Cleans** and the **Greenprint Forum**, combining **direct action** with **citizen science**, as part of our ongoing campaign **#PlasticAction**
