Biodiversity Decline

The Watchlist Indicator

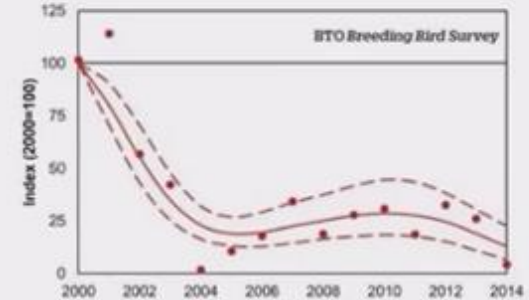

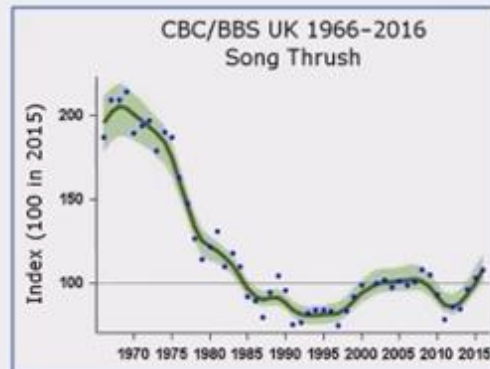

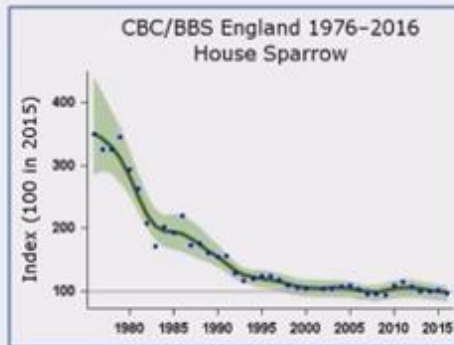

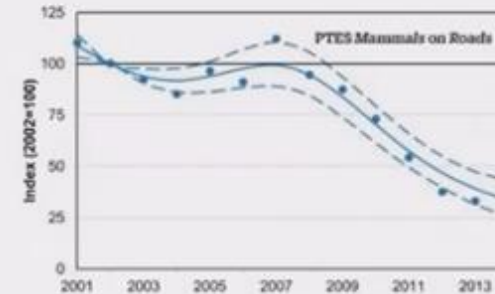

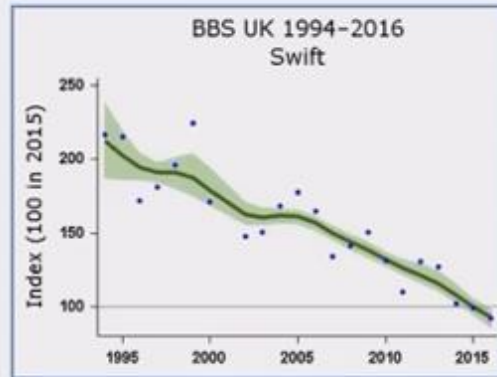

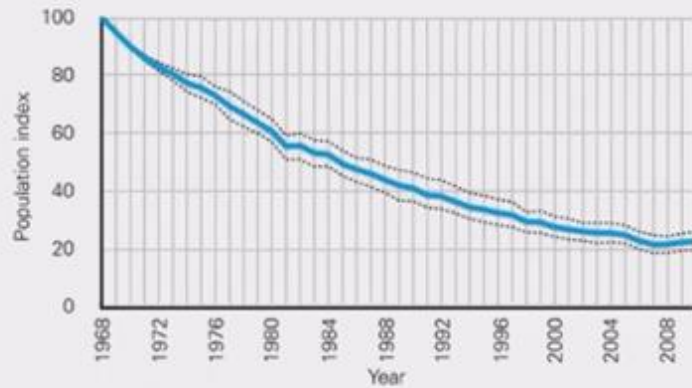

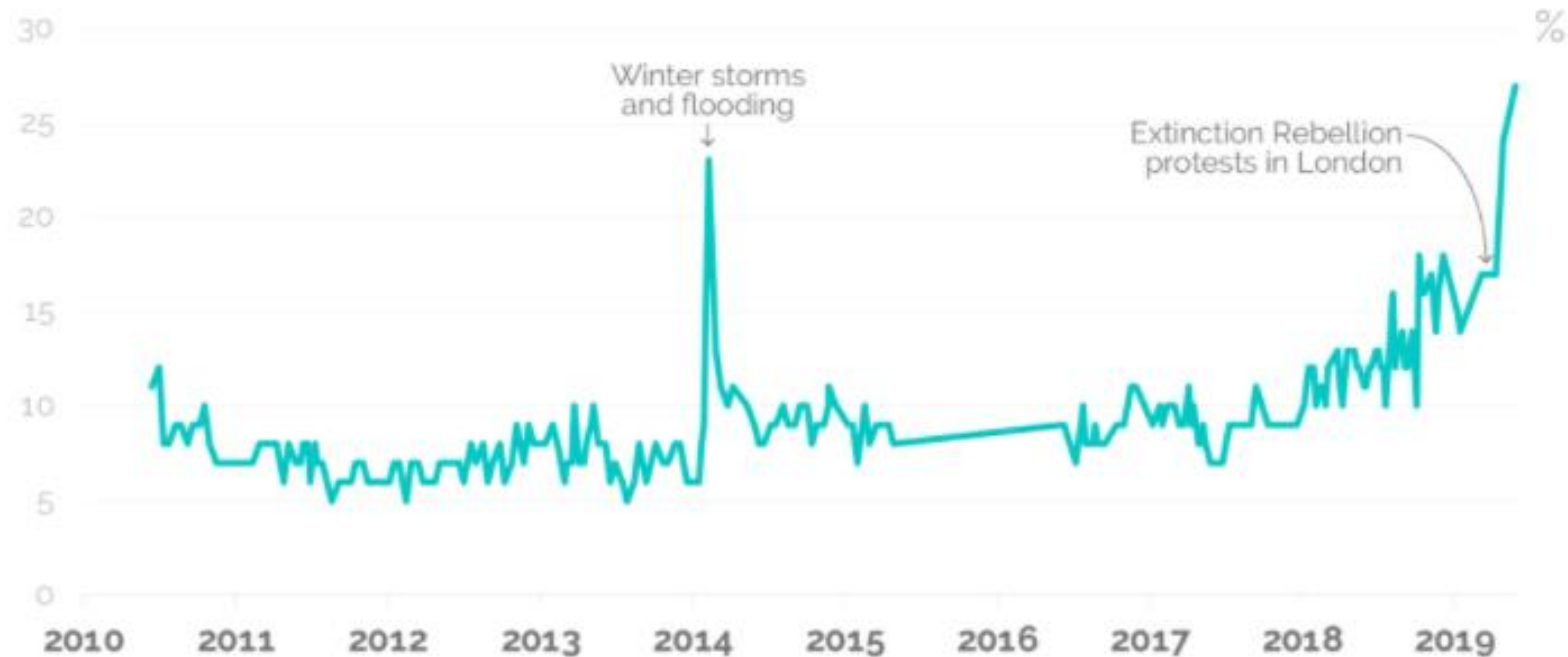

Figure 1 Surveys recording hedgehogs in rural areas: solid lines show smoothed trends; dashed lines show 95% confidence limits. Estimates for each year (circles) are calculated as an index relative to the 'base year', either 2002 (Mammals on Roads) or 2000 (Breeding Bird Survey).

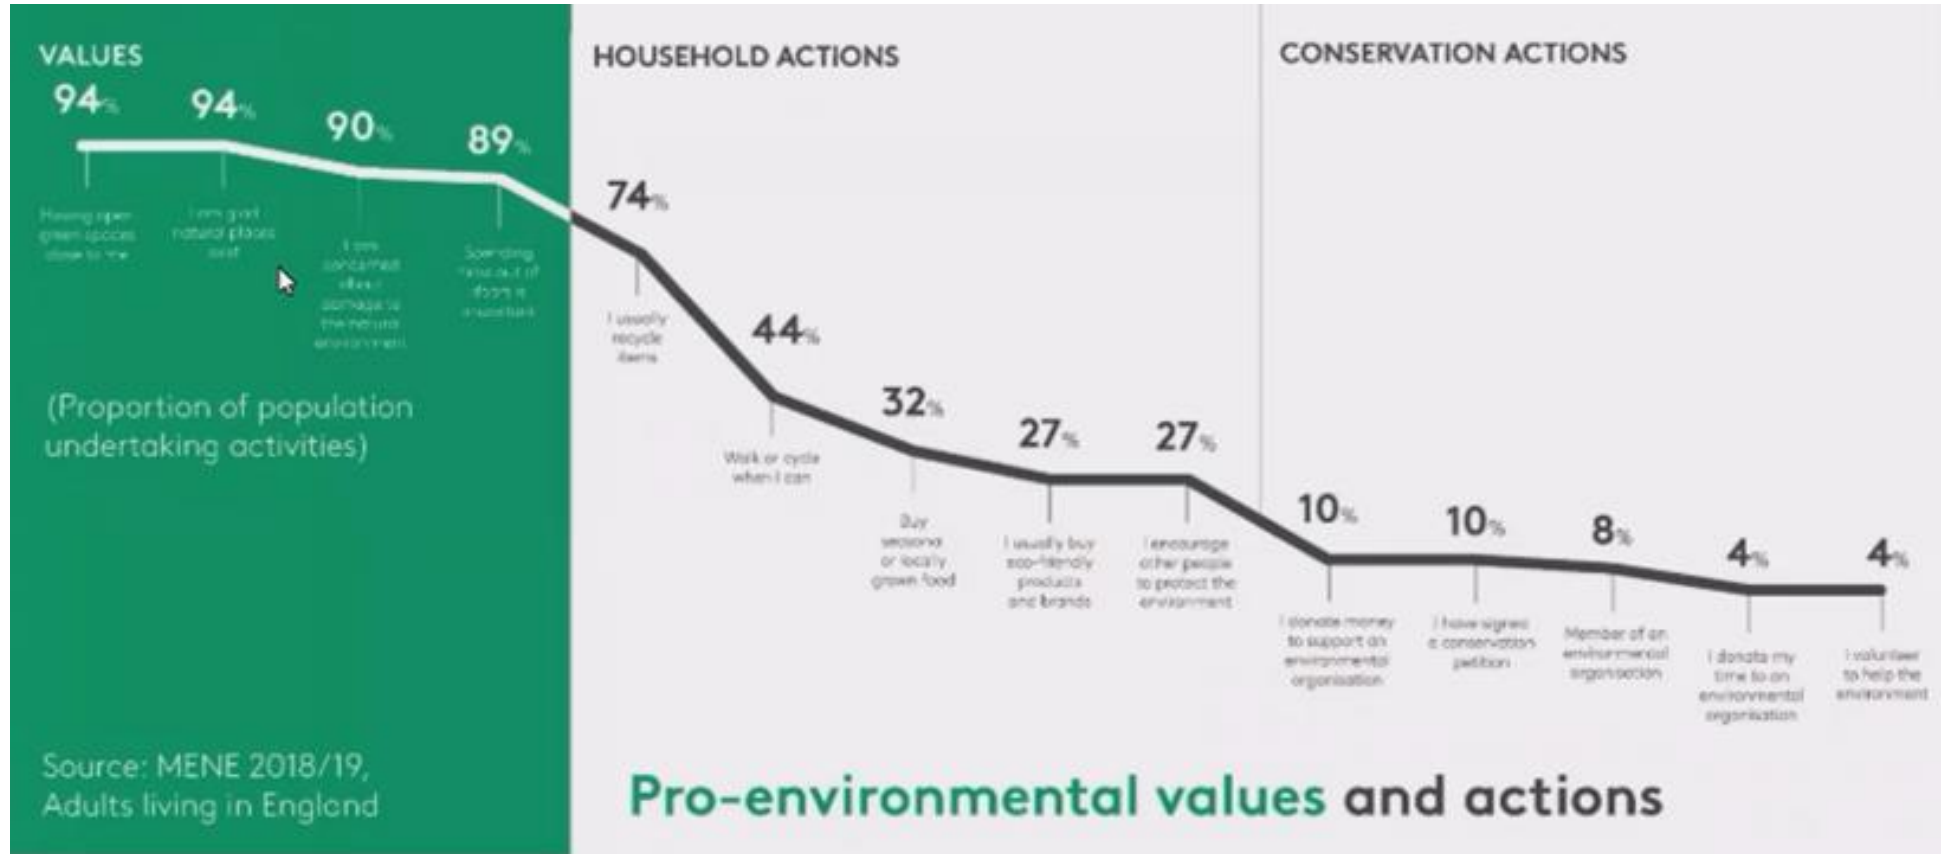

Environmental Concern at record highs

Concern about the environment at highest levels on record

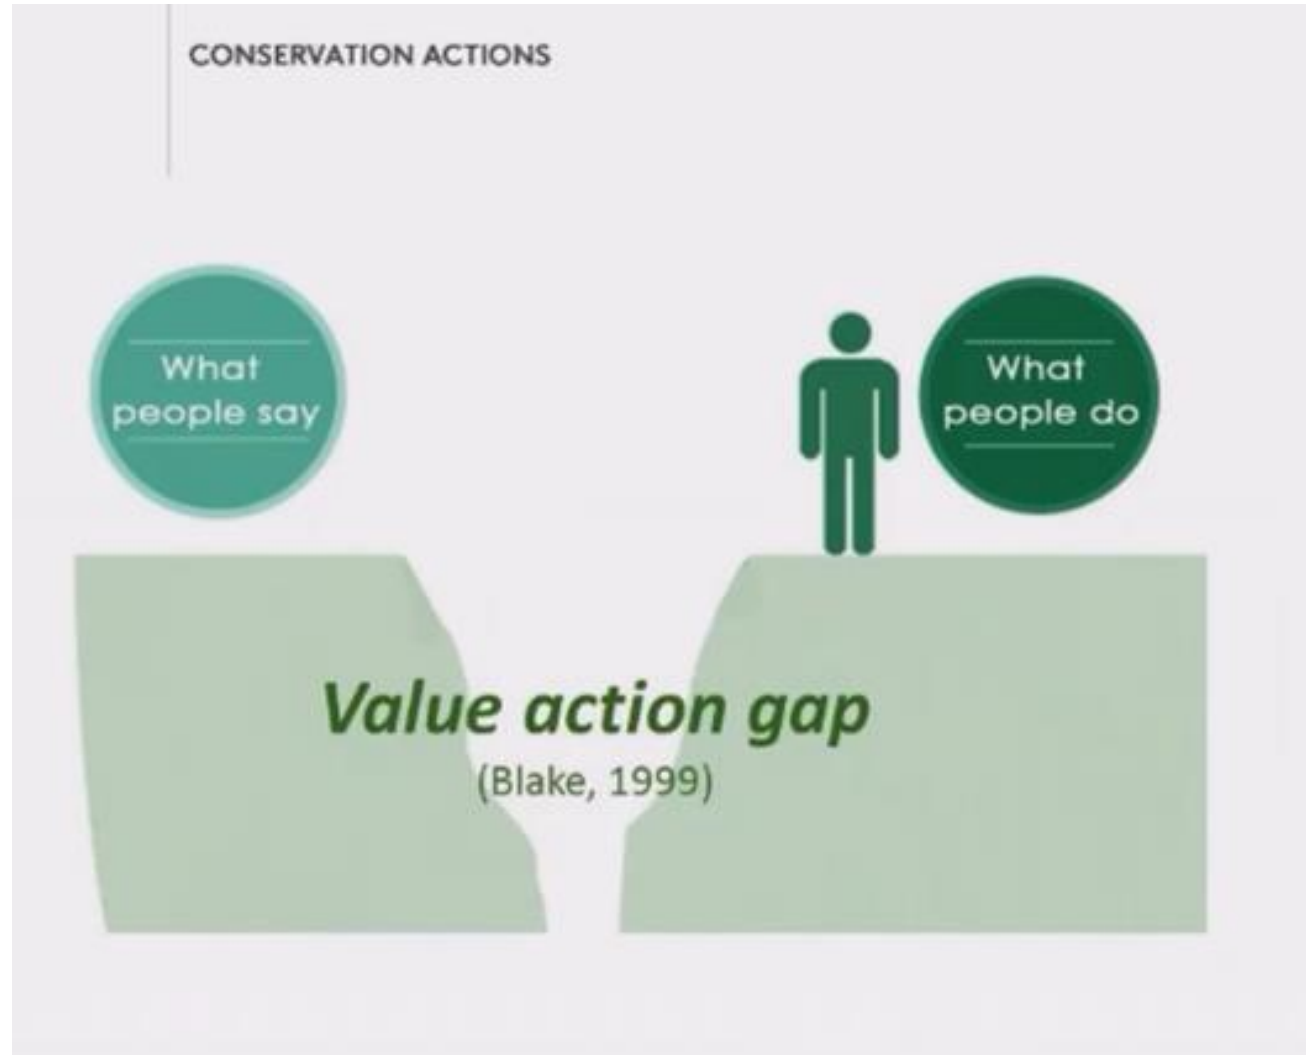

Which do you think are the most important issues facing the country at this time?
Please tick up to three. % saying "the environment"

Pro-environmental Values vs Actions

Value-Action Gap
