

Visit to Energy from Waste Facility, Great Blakenham

14:00-16:00, Wednesday 15 November 2023

The Energy from Waste plant deals with what's left over after everyone in Suffolk has done what they can to minimise, reuse, recycle and compost everything else.

The Greenprint Forum have been invited on a guided tour of the facility and an explanation of how our residual waste is dealt with at the end of its journey, led by the Community Liaison Manager for Suez Recycling and Recovery UK, who operate the facility on behalf of the Waste Disposal Authority, Suffolk County Council.

During our visit, we will also hear from FCC's Information and Education Manager about the recycling centres that FCC operate at locations around Suffolk, to which residents bring a variety of waste streams for recycling.

So join us if you can for what promises to be an insightful and informative visit to this key component of the waste infrastructure of our county.

Booking is essential – to secure your place please register here: [Greenprint Forum event registration](#)
