

## Open visit to Power 4 KcC (KcCE)

A community energy cooperative in Kelsale in the county of Suffolk

**15:00, Monday 17 June 2024**

**Organised on behalf of the Greenprint Forum and the SCCP Community Network**

**All are welcome!**

Power 4 KcC is a community-owned energy cooperative, (registered as Kelsale-cum-Carlton Community Energy Ltd.), and committed to growing the local area's green energy supply and making the benefits open to all. Established in Kelsale-cum-Carlton near Saxmundham in 2014, they were winners of the Greenest Country Award in the Renewable Energy category in 2015, and have recently marked their tenth anniversary of producing renewable energy in the community, for the community.

They are kindly hosting this free visit to share with us their experience and knowledge. We hope this visit will be of particular interest to those with aspirations of generating energy at the level of their own community and are open to learning from, and taking back to their own communities, the key lessons of this local example of community energy in practice.

Registration essential due to limited number of spaces
