20:50-21:00 Summary

21:00-CLOSE

# GREENPRINT FORUM VISION

**GREEN  
PRINT**

- a. What is your organisation/community doing or trying to do in answer to the climate emergency?
- b. What barriers to progress are you encountering?
- c. What further help do you need to overcome these barriers?
- d. What are your suggestions for balancing the impacts of development with the need for action?
- e. what actions would you like to see taken forward by the District, County, Parish Councils, or Government?
- f. The Greenprint Forum already has a successful network of Plastic Action Champions who support the movement reducing dependence on single use plastic and we see potential in using this model to tackle other climate related issues. Would you welcome this and what specific climate topics would you like it to tackle?

**Please submit your thoughts on a post-it  
and stick to the corresponding panel on the  
wall during the break**
