

# Transitioning to Agroecology

Converting a conventional farm to  
one with nature at its heart

# What is Agroecology

- Farming with Nature
- Circular Farming
- Food Sovereignty

Dealing with the wet...

...and dealing with the dry.

Something needs to change.  
Time for some diversification!

## Introduction of herbal leys

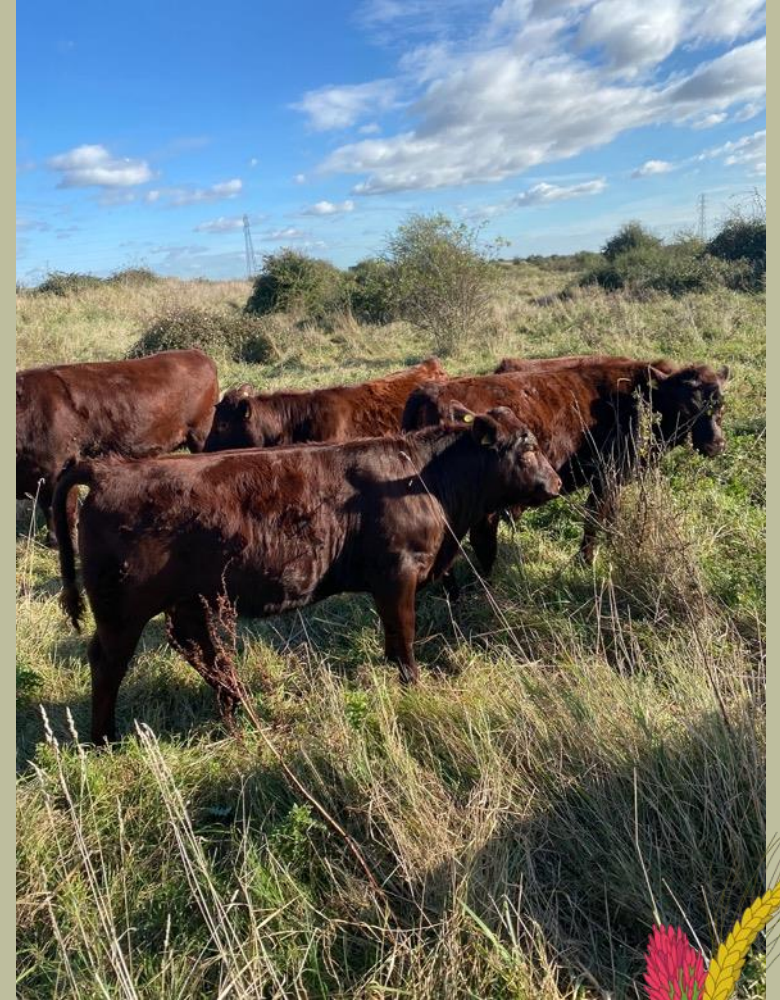

And welcoming these beauties!

The herd had grown from 11 to 43 within one year

Time to analyse the farm around me:

On a year when arable yields were down 20-30%, my hedgerows were busting with fruit.

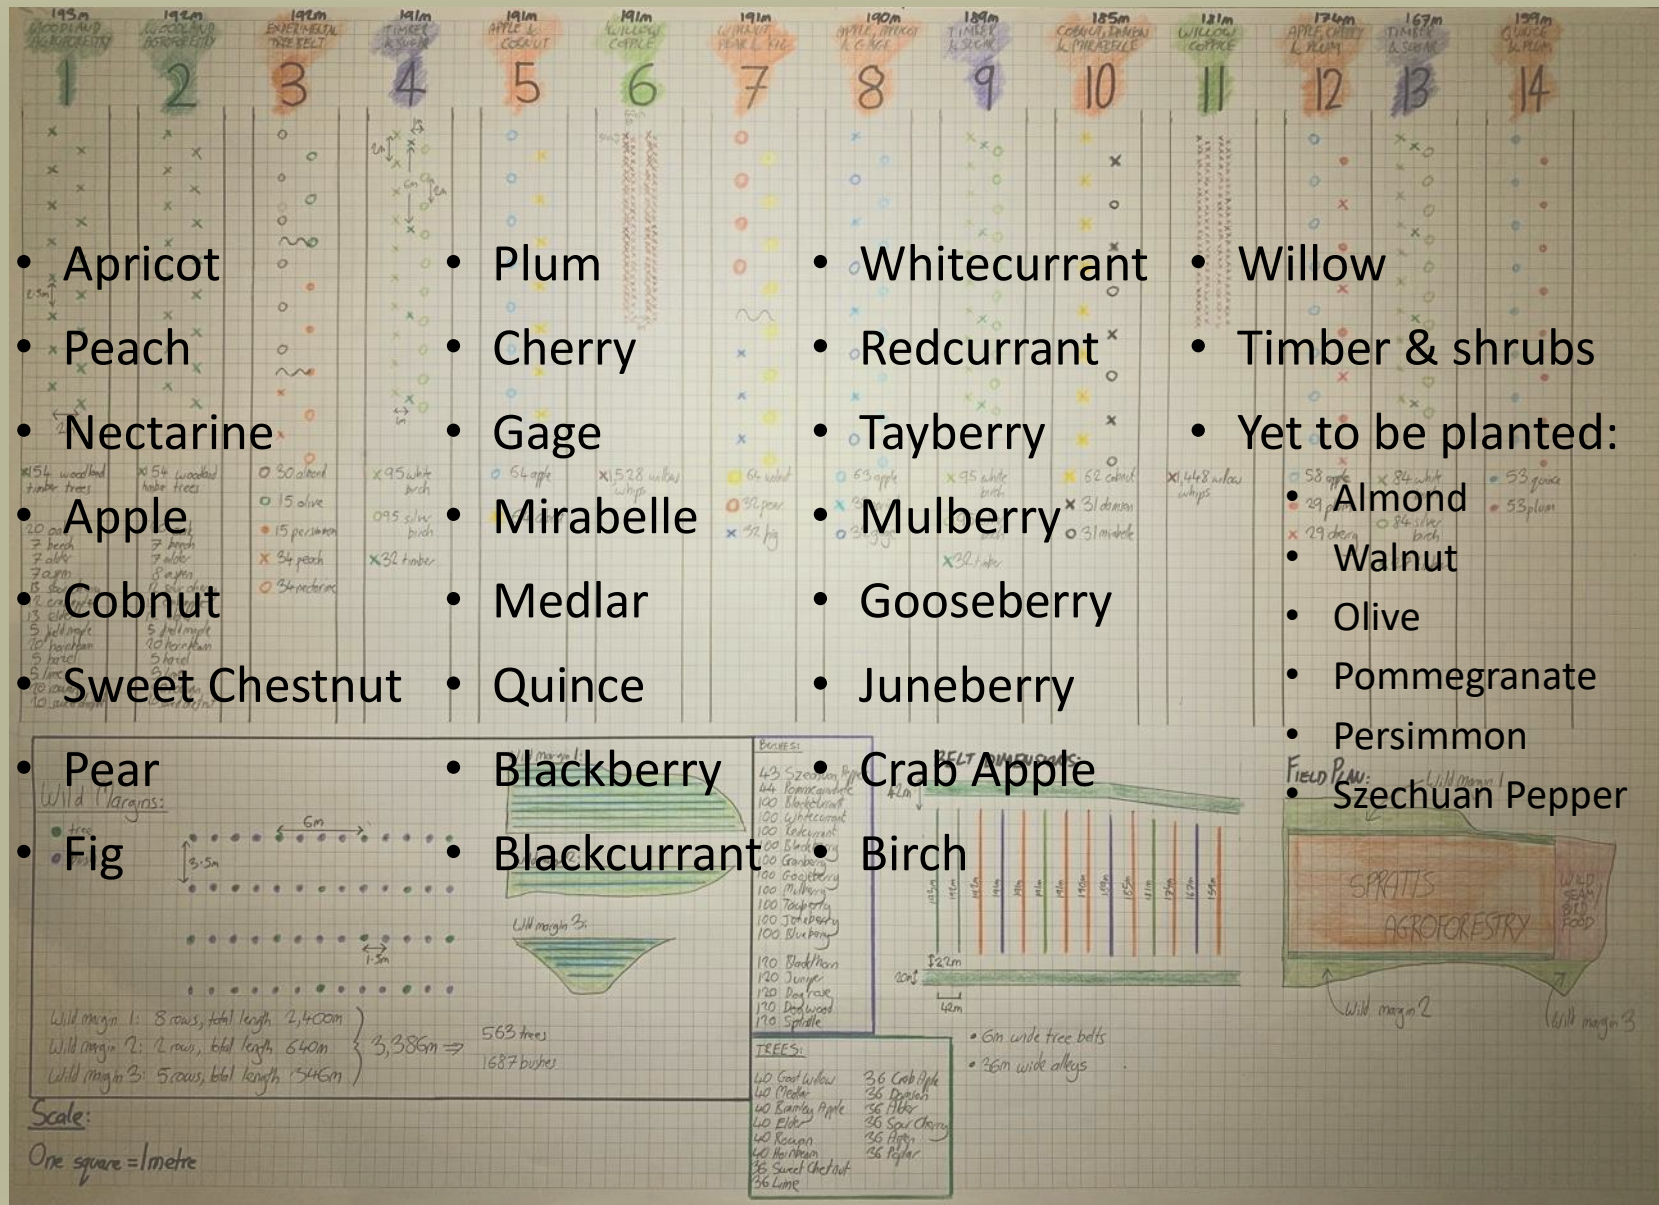

I think it might be time for some trees.

# Full list of trees and bushes...

# Cows in trees

Time for some finished products

# Time for some wild and some water

farmGeorge  
GROWING FOR OUR FUTURE

Thanks so much for  
listening!
