EASTSUFFOLK
COUNCIL

Over the next year, millions of households will be moved over to Universal Credit. You'll be moved over if you're currently receiving things like Housing Benefit or Tax Credits.

You don't need to do anything just yet. We'd advise you to start to build up some credit on your rent account. Universal Credit is paid in arrears and most tenants choose to pay a little bit extra towards their rent account now so it's in a healthy position when the move to Universal Credit happens. We're here to help. So, if you want to speak to someone, call us. Or you can visit our website.
