Please note – the figures in the Upfront Playsapce columns are repeated as these figures are received prior to the granting of an application and are therefore relevant in calculations for both totals agreed and totals received. Figures for Upfront Playspace may be subject to refund in light of the Ministerial Statement published on 28 November 2014 regarding tariff based charges. The figures provided in the table above are taken from the Council's internal monitoring. The level of contribution received may be different because the Council is not always notified when a service provider or statutory stakeholders receive contributions directly from developers.
