Subject: Melton neighbour plan

We have just received a letter telling us about future plans for the Carter/Warburgh proposal site(CWPS). To say that we are furious is putting it mildly, to think that OUR parish council has given the go ahead to build houses etc on GREENFIELD land is unbelievable!

Tell me, where is all the traffic going? Station Road/ Wilford Bridge Road is already a nightmare - which you, our parish council STILL has not done anything to ease!

Colour blind people sometimes have a problem telling the difference between brown and green, but on paper, surely you can read what it says on plans?

We have enough problems in this area with traffic, and what with Woods Lane and Yarmouth Road developments going ahead - yes, Yarmouth Road will eventually be approved - you haven't the foresight to see what's going to happen! But then maybe none of you live in this area?

I've read this letter we received again and again and still can't believe MPC could be so short-sighted!

Yours disgustedly
S. Sawyer
