17 May 2017

Dear Mr Crowther

Ref: Playford Neighbourhood Area Designation

Thank you for email of 17 March 2017 notifying Historic England of the decision to approve the Playford Neighbourhood Area designation application. Unfortunately, we do not appear to have been consulted on this application. Therefore, please find below our retrospective advice on this application.

Historic England has no objection to this designation, but we would like to take this opportunity to provide some initial advice on the matter and will send a copy to Playford Parish Council for their use.

The Neighbourhood Area incorporates a number of designated heritage assets including:

- The Scheduled Monument, Playford Hall moated site
- The Grade II* listed Church of St Mary
- The Grade II* listed Playford Hall
- 5 Grade II listed buildings

It will be important that the strategy put together for this area safeguards those elements which contribute to the importance of these historic assets. This will assist in ensuring they can be enjoyed by future generations of the area and make sure it is in line with national planning policy.

The Design and Conservation team at the Suffolk Coastal District Council are best placed to assist the Parish Council in the development of their Neighbourhood Plan and advising them to consider how the strategy might address the area's heritage assets.

We would also recommend that the Parish Council speak to the staff at Suffolk County Council Archaeology and Historic Environment Service who look after the Historic Environment Record and give advice on archaeological matters. They should be able

Historic England is subject to the Freedom of Information Act, 2000 (FOIA) and Environmental Information Regulations 2004 (EIR). All information held by the organisation will be accessible in response to an information request, unless one of the exemptions in the FOIA or EIR applies.

Historic England

EAST OF ENGLAND OFFICE

to provide details of not only any designated heritage assets but also locally-important buildings, archaeological remains and landscapes. Some Historic Environment Records may also be available on-line via the Heritage Gateway (www.heritagegateway.org.uk). It may also be useful for the Parish Councils to involve local voluntary groups such as the local Civic Society, local history groups, building preservation trusts, etc. in the production of their Neighbourhood Plan.

Neighbourhood Plans need to include enough information about local heritage to guide planning decisions and to put broader strategic heritage policies from the local authority's local plan into action at a neighbourhood scale. If appropriate this should include enough information about local non-designated heritage assets including sites of archaeological interest to guide decisions.

Further information and guidance on how heritage can best be incorporated into Neighbourhood Plans has been produced by Historic England. This signposts a number of other documents which the Parish Council might find useful in helping to identify what it is about their area which makes it distinctive and how they might go about ensuring that the character of the area is retained. These can be found at:-

Dear Mr Crowther,

Playford Neighbourhood Area Designation

Thank you for your consultation on the above dated 28/04/2017.

Natural England does not wish to make comment on the suitability of the proposed plan area or the proposed neighbourhood planning body.

However we would like to take this opportunity to provide you with information sources the neighbourhood planning body may wish to use in developing the plan, and to highlight some of the potential environmental risks and opportunities that neighbourhood plans may present. We have set this out in the annex to this letter.

Natural England's role

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development. The local planning authority will be aware and should advise the neighbourhood planning body when Natural England should be consulted further on the neighbourhood plan.

Planning policy for the natural environment

Neighbourhood plans and orders present significant opportunities, but also potential risks, for the natural environment. Proposals should be in line with the National Planning Policy Framework. The key principles are set out in paragraph 109:

The planning system should contribute to and enhance the natural and local environment by:

- protecting and enhancing valued landscapes, geological conservation interests and soils;
- recognising the wider benefits of ecosystem services;
- minimising impacts on biodiversity and providing net gains in biodiversity where possible, contributing to the Government's commitment to halt the overall decline in biodiversity, including by establishing coherent ecological networks that are more resilient to current and future pressures;

The neighbourhood planning body should also consider the natural environment policies in the area's Local Plan. The neighbourhood plan or order should be consistent with these, and the neighbourhood planning body may decide that the emerging Neighbourhood Plan should provide more detail as to how some of these policies apply or are interpreted locally.

The attached annex sets out sources of environmental information and some natural environment

issues you may wish to consider as the neighbourhood plan or order is developed.

We really value your feedback to help us improve the service we offer. We have attached a feedback form to this letter and welcome any comments you might have about our service.

Yours sincerely,

Rachel Bowden
Consultations Team

Annex 1 - Neighbourhood planning and the natural environment: information, issues and opportunities

Natural environment information sources

The [Magic](http://magic.defra.gov.uk/)¹ website will provide you with much of the nationally held natural environment data for your plan area. The most relevant layers for you to consider are: **Agricultural Land Classification, Ancient Woodland, Areas of Outstanding Natural Beauty, Local Nature Reserves, National Parks (England), National Trails, Priority Habitat Inventory, public rights of way (on the Ordnance Survey base map) and Sites of Special Scientific Interest (including their impact risk zones)**. Local environmental record centres may hold a range of additional information on the natural environment. A list of local record centres is available [here](#)².

Priority habitats are those habitats of particular importance for nature conservation, and the list of them can be found [here](#)³. Most of these will be mapped either as **Sites of Special Scientific Interest**, on the Magic website or as **Local Wildlife Sites**. Your local planning authority should be able to supply you with the locations of Local Wildlife Sites.

National Character Areas (NCAs) divide England into 159 distinct natural areas. Each character area is defined by a unique combination of landscape, biodiversity, geodiversity and cultural and economic activity. NCA profiles contain descriptions of the area and statements of environmental opportunity, which may be useful to inform proposals in your plan. NCA information can be found [here](#)⁴.

There may also be a local **landscape character assessment** covering your area. This is a tool to help understand the character and local distinctiveness of the landscape and identify the features that give it a sense of place. It can help to inform, plan and manage change in the area. Your local planning authority should be able to help you access these if you can't find them online.

If your neighbourhood planning area is within or adjacent to a **National Park** or **Area of Outstanding Natural Beauty (AONB)**, the relevant National Park/AONB Management Plan for the area will set out useful information about the protected landscape. You can access the plans on from the relevant National Park Authority or Area of Outstanding Natural Beauty website.

General mapped information on **soil types** and **Agricultural Land Classification** is available (under 'landscape') on the [Magic](http://magic.defra.gov.uk/)⁵ website and also from the [LandIS website](http://www.landis.org.uk/)⁶, which contains more information about obtaining soil data.

Natural environment issues to consider

The [National Planning Policy Framework](https://www.gov.uk/government/publications/national-planning-policy-framework--2)⁷ sets out national planning policy on protecting and enhancing the natural environment. [Planning Practice Guidance](http://planningguidance.planningportal.gov.uk/blog/guidance/natural-environment/)⁸ sets out supporting guidance.

Your local planning authority should be able to provide you with further advice on the potential impacts of your plan or order on the natural environment and the need for any environmental assessments.

Landscape

¹ <http://magic.defra.gov.uk/>

² <http://www.nbn-nfbr.org.uk/nfbr.php>

³ <http://webarchive.nationalarchives.gov.uk/20140711133551/http://www.naturalengland.org.uk/ourwork/conservation/biodiversity/protectandmanage/habsandspeciesimportance.aspx>

⁴ <https://www.gov.uk/government/publications/national-character-area-profiles-data-for-local-decision-making>

⁵ <http://magic.defra.gov.uk/>

⁶ <http://www.landis.org.uk/index.cfm>

⁷ <https://www.gov.uk/government/publications/national-planning-policy-framework--2>

⁸ <http://planningguidance.planningportal.gov.uk/blog/guidance/natural-environment/>

Your plans or orders may present opportunities to protect and enhance locally valued landscapes. You may want to consider identifying distinctive local landscape features or characteristics such as ponds, woodland or dry stone walls and think about how any new development proposals can respect and enhance local landscape character and distinctiveness.

If you are proposing development within or close to a protected landscape (National Park or Area of Outstanding Natural Beauty) or other sensitive location, we recommend that you carry out a landscape assessment of the proposal. Landscape assessments can help you to choose the most appropriate sites for development and help to avoid or minimise impacts of development on the landscape through careful siting, design and landscaping.

Wildlife habitats

Some proposals can have adverse impacts on designated wildlife sites or other priority habitats (listed [here](#)⁹), such as Sites of Special Scientific Interest or [Ancient woodland](#)¹⁰. If there are likely to be any adverse impacts you'll need to think about how such impacts can be avoided, mitigated or, as a last resort, compensated for.

Priority and protected species

You'll also want to consider whether any proposals might affect priority species (listed [here](#)¹¹) or protected species. To help you do this, Natural England has produced advice [here](#)¹² to help understand the impact of particular developments on protected species.

Best and Most Versatile Agricultural Land

Soil is a finite resource that fulfils many important functions and services for society. It is a growing medium for food, timber and other crops, a store for carbon and water, a reservoir of biodiversity and a buffer against pollution. If you are proposing development, you should seek to use areas of poorer quality agricultural land in preference to that of a higher quality in line with National Planning Policy Framework para 112. For more information, see our publication [Agricultural Land Classification: protecting the best and most versatile agricultural land](#)¹³.

Improving your natural environment

Your plan or order can offer exciting opportunities to enhance your local environment. If you are setting out policies on new development or proposing sites for development, you may wish to consider identifying what environmental features you want to be retained or enhanced or new features you would like to see created as part of any new development. Examples might include:

- Providing a new footpath through the new development to link into existing rights of way.
- Restoring a neglected hedgerow.
- Creating a new pond as an attractive feature on the site.
- Planting trees characteristic to the local area to make a positive contribution to the local landscape.
- Using native plants in landscaping schemes for better nectar and seed sources for bees and birds.
- Incorporating swift boxes or bat boxes into the design of new buildings.
- Think about how lighting can be best managed to encourage wildlife.
- Adding a green roof to new buildings.

You may also want to consider enhancing your local area in other ways, for example by:

⁹<http://webarchive.nationalarchives.gov.uk/20140711133551/http://www.naturalengland.org.uk/ourwork/conservation/biodiversity/protectandmanage/habsandspeciesimportance.aspx>

¹¹ <http://webarchive.nationalarchives.gov.uk/20140711133551/http://www.naturalengland.org.uk/ourwork/conservation/biodiversity/protectandmanage/habsandspeciesimportance.aspx>

¹² <https://www.gov.uk/protected-species-and-sites-how-to-review-planning-proposals>

¹³ <http://publications.naturalengland.org.uk/publication/35012>

- Setting out in your plan how you would like to implement elements of a wider Green Infrastructure Strategy (if one exists) in your community.
- Assessing needs for accessible greenspace and setting out proposals to address any deficiencies or enhance provision.
- Identifying green areas of particular importance for special protection through Local Green Space designation (see [Planning Practice Guidance on this](#)¹⁴).
- Managing existing (and new) public spaces to be more wildlife friendly (e.g. by sowing wild flower strips in less used parts of parks, changing hedge cutting timings and frequency).
- Planting additional street trees.
- Identifying any improvements to the existing public right of way network, e.g. cutting back hedges, improving the surface, clearing litter or installing kissing gates) or extending the network to create missing links.
- Restoring neglected environmental features (e.g. coppicing a prominent hedge that is in poor condition, or clearing away an eyesore).

Suffolk Coastal District Council,
East Suffolk House,
Station Road,
Melton,
Woodbridge,
IP12 1RT

Dear Sir or Madam,

Playford Neighbourhood Plan Area Designation

Thank you for consulting Suffolk County Council on the matter of designating an area for the future Playford Neighbourhood Plan. The county council has no objection to the area as proposed in your email dated 28th April 2017. However, as the plan is developed, appropriate consideration will need to be given to the impacts of proposals on other parishes in the locality.

The plan may or may not impact on Suffolk County Council service responsibilities, depending on what the Parish Council is seeking to achieve. If the plan is likely to impact on any of the county council's services, such as transport or education (in particular), we would welcome the opportunity to discuss the Parish Council's proposals at an early stage in the plan's preparation.

Potentially relevant county council services include:

- Archaeology
- Education
- Fire and Rescue
- Flooding
- Health and Wellbeing
- Libraries
- Minerals and Waste
- Natural Environment
- Public Rights of Way
- Transport

Please contact me via the details above if I or my colleagues can be of any assistance.

Yours sincerely,

Barbara Adamski
Planning Officer (Policy)
Resource Management
Suffolk County Council
