

Suffolk Coastal District Council

Neighbourhood Development Plan – Designation of a Neighbourhood Area – Consultation

RENDLESHAM NEIGHBOURHOOD AREA

Representation Form:

Use this form to give us your comments on the suitability of the submitted area.

Do you think the submitted area is suitable for a Neighbourhood Development Plan?

(Please select one answer)

Yes

No

If no, please tell us why not and suggest an alternative boundary:

The area does not include the whole area of the former Bentwaters air base. The former Bentwaters air base forms a coherent economic whole which is related to the potential population expansion of the Rendlesham area in terms of local job creation, and provision of services to serve the local area. I suggest that the whole of the former airbase area be included

Do you have any further comments that you would like to make?

The rural elements of the area in question are quite fragile and any development should be considered carefully in terms of impact on rural enterprises and existing residential development.

Consultation exercises should explain all aspects of proposed development, both economic and social. Current consultation exercises by the Parish could be considered biased to one viewpoint.

Your details:

Name: Nina Robinson Dip TP BSc (Est Man)
FRICS...MBA.....

Organisation/Business (if applicable): ...Chiltern Associates
Chartered Surveyors.....

Address: ... [REDACTED]
