RECITALS

- (1) SZC Co submitted the Application to the Secretary of State for development consent to construct and operate the Project.

ANNEX AC

ANNEX AC
B1122 VIBRATION SCHEME

B1122 VIBRATION SCHEME

1. INTRODUCTION

- 1.1 This document sets out the Vibration Scheme that SZC Co must implement and apply in respect of the use of the B1122 by Sizewell C construction traffic prior to the opening of the Sizewell Link Road.
- 1.2 This Vibration Scheme is a Level 1 compliance document that is secured by Schedule 12 of the Deed of Obligation (as varied from time to time). It is secured and legally enforceable.
- 1.3 For the purposes of this document the term SZC Co refers to NNB Nuclear Generation (SZC) Limited (or any other undertaker as defined by the draft DCO (Doc Ref. 3.1(I))), its appointed representatives and the appointed construction contractors.
- 1.4 In this document, the word "Owner" means a person with a freehold interest in the B1122 Property and/or a person with a leasehold interest in the B1122 Property (as relevant).

2. INITIAL STRUCTURAL CONDITION SURVEY

- 2.1 On or before Commencement, SZC Co must issue an offer letter to each of the B1122 Properties for the attention of the Owner inviting the Owner to participate in the Vibration Scheme.
- 2.2 This offer letter will be conditional upon the Owner of the relevant B1122 Property:
 - a. confirming that they wish to proceed; and
 - b. agreeing to allow survey access to their B1122 Property by SZC Co's appointed surveyors.
- 2.3 The offer letter must include details of reasonable proposed alternative timings for this survey from which the Owner may choose.
- 2.4 The Owner shall be required to sign and return a copy of the offer letter within a period of 28 days of the date of the offer letter.
- 2.5 If the Owner of the B1122 Property declines the offer letter or does not provide its written acceptance to SZC Co in accordance with any notification requirements contained in the offer letter within 28 days of the date of the offer letter, there will be no further obligation on SZC Co in respect of that B1122 Property in connection with this Vibration Scheme.
- 2.6 Following receipt of written acceptance of the offer letter, SZC Co must procure that the appointed surveyor visits the B1122 Property and, subject to access being granted, carries out a structural condition survey to assess the B1122 Property.
- 2.7 Where the Owner does not grant access to the surveyor, there will be no further obligation on SZC Co in respect of that B1122 Property in connection with this Vibration Scheme.
- 2.8 SZC Co must instruct the surveyor to provide SZC Co and the Owner of the relevant B1122 Property with a copy of the findings of the survey.
- 2.9 The surveyor must act reasonably at all times and in accordance with the requirements of their professional body. All relevant records pertaining to the survey must be retained for audit purposes and made available for review if required by written request from ESC or SCC or SZC Co.

3. SECOND STRUCTURAL CONDITION SURVEY

- 3.1 Within six months of the opening of the Sizewell Link Road to the public, SZC Co must issue the Owners of each of the B1122 Properties for which an initial survey was undertaken (pursuant to paragraph 2.6 of this document) with a second offer letter inviting the Owners to continue to participate in the Vibration Scheme.
- 3.2 This offer letter will be conditional upon the Owner of the relevant B1122 Property:
 - a. confirming that they wish to proceed; and
 - b. agreeing to allow survey access to their B1122 Property by SZC Co's appointed surveyors.

- 3.3 The offer letter must include details of proposed alternative timings for this survey from which the Owner may choose.
- 3.4 The Owner shall be required to sign and return a copy of the offer letter within a period of 28 days of the date of the offer letter.
- 3.5 If the Owner of the B1122 Property declines the offer letter or does not provide its written acceptance to SZC Co in accordance with any notification requirements contained in the offer letter within 28 days of the date of the offer letter, there will be no further obligation on SZC Co in respect of that B1122 Property in connection with this Vibration Scheme.
- 3.6 Following receipt of written acceptance of the offer letter, SZC Co must procure that the appointed surveyor visits the B1122 Property and, subject to access being granted, carries out a second structural condition survey to assess the B1122 Property.
- 3.7 Where the Owner does not grant access to the surveyor, there will be no further obligation on SZC Co in respect of that B1122 Property in connection with this Vibration Scheme.
- 3.8 SZC Co must instruct the surveyor to provide SZC Co and the Owner of the relevant B1122 Property with a copy of the findings of the second survey.
- 3.9 The surveyor must act reasonably at all times and in accordance with the requirements of their professional body. All relevant records pertaining to this survey must be retained for audit purposes and made available for review if required by written request from ESC or SCC or SZC Co.

4. STRUCTURAL REMEDIATION WORKS

- 4.1 Where the second structural condition survey (undertaken pursuant to paragraph 3.6 of this document) does not identify any defects that were not apparent in the initial survey (as undertaken pursuant to paragraph 2.6 of this document), there will be no further obligation on SZC Co in respect of that B1122 Property in connection with this Vibration Scheme.
- 4.2 In the event that the second structural condition survey (undertaken pursuant to paragraph 3.6 of this document) identifies defects that were not apparent in the initial survey (as undertaken pursuant to paragraph 2.6 of this document), SZC Co must investigate the cause of such defects as soon as reasonably practicable and in any event within 2 (two) months of the relevant second structural condition survey being provided to SZC Co and the Owner of the relevant B1122 Property (subject to the Owner agreeing to allow access to the relevant B1122 Property).
- 4.3 Unless the investigation carried out pursuant to paragraph 4.1 demonstrates that the defects are not reasonably likely to have arisen as a result of the vibration effects of traffic on the B1122 since the first survey (as undertaken pursuant to paragraph 2.6 of this document), SZC Co must provide the Owner with a specification for the works required to remedy the identified defects and a list of approved contractors to carry out the proposed remedial works.
- 4.4 The Owner will be entitled, at their discretion, to accept or decline the specification, in whole or in part, and SZC Co will be under no obligation in respect of those declined elements for that B1122 Property in connection with this Vibration Scheme.
- 4.5 The Owner of the B1122 Property will be required to seek at least two quotations from approved contractors for the proposed works and will be required to provide copies of these to SZC Co within three months of receipt of the specification from SZC Co. SZC Co must select one of the quotations provided by the Owner of the B1122 Property as soon as reasonably practicable and in any event within 1 (one) month of the relevant quotations being provided to SZC Co by the Owner of the relevant B1122 Property, unless SZC Co agrees otherwise with the Owner of the B1122 Property.
- 4.6 If the Owner of the B1122 Property does not provide copies of two quotations from approved contractors for the proposed works pursuant to paragraph 4.5, there will be no further obligation on SZC Co in respect of that B1122 Property in connection with this Vibration Scheme.
- 4.7 SZC Co must review the quotations received from the Owner to confirm that these relate only to the agreed specification of remedial works. Following this review, SZC Co must confirm a sufficient sum that it will provide to fund the delivery of the proposed remedial works. SZC Co will not provide funding towards any cosmetic or aesthetic enhancements or remedial works

required in respect of any structural defects identified in the initial structural condition survey or any other works requested by the Owner to be carried out in addition to the specification.

- 4.8 SZC Co must provide the Owner with an agreement containing confirmation of the works to be undertaken and SZC Co's obligations (as detailed in paragraphs 4.9 to 4.12 below) to fund the works and the Owner's costs in applying for listed building consent or planning permission (a "Works Agreement") as soon as reasonably practicable after the date that SZC Co selects a quotation under paragraph 4.5 of this document and in any event within six weeks of the date of such selection. The Works Agreement must set out the Owner's responsibilities in respect of the works, including:
- obtaining any necessary consents such as: planning permission, Listed Building Consent, or building regulations approval etc; and
 - arranging for any remedial works in respect of any structural defects identified in the initial structural condition survey as may be required.
- 4.9 SZC Co will not make applications for Listed Building Consent or planning permission on behalf of Owners but must offer Owners reasonable support and assistance upon request. The form of assistance provided by SZC Co may vary but is likely to include identification of documentation to support applications for planning permission or listed building consents, pro forma examples of completed applications and liaison with the relevant authorities. SZC Co must meet all reasonable costs of the Owners in respect of making an application for listed building consent or planning permission, which must be agreed by SZC Co in advance and must be paid within four weeks of the Owner providing evidence to SZC Co that such costs have been incurred.
- 4.10 Within 14 days of receipt of the signed Works Agreement from the Owner, SZC Co must confirm to the Owner that the Owner can instruct the contractor selected by SZC Co pursuant to paragraph 4.4 above (or any other contractor agreed between SZC Co and the Owner of the B1122 Property) to carry out the works. The date of the works will be a matter to be agreed between the Owner and the contractor.
- 4.11 The financial responsibility for the funding of all works covered by the Works Agreement will remain with SZC Co and the Owner will not be liable for any costs associated with the works covered by the Works Agreement.
- 4.12 Responsibility for obtaining and complying with any necessary consents in respect of the works will remain with the Owner, unless the Owner has agreed with the contractor that the contractor will have responsibility. The Owner will also remain responsible for any costs relating to asbestos.
