

Topic Paper:

Settlement Hierarchy

First Draft Local Plan | July 2018

www.eastsuffolk.gov.uk/suffolkcoastallocalplanreview

1. Introduction

- 1.1 This topic paper has been produced to support the Suffolk Coastal First Draft Local Plan, specifically the settlement hierarchy policy.
- 1.2 The purpose is to identify and justify a settlement hierarchy and strategy for the distribution of new housing development during the next plan period. This topic paper sets out the methodology used to assess settlements and determine where they should sit within the new settlement hierarchy.

2. Settlement Hierarchy Methodology

- 2.1 The basis of the hierarchy is an assessment of the key services and facilities within each settlement. This assessment was undertaken in Spring 2018.
- 2.2 The primary focus of the assessment was those services and facilities required to support the day to day needs of residents. Broadly these were determined to fall into the following categories:
- Access to retail and leisure/ social uses;
 - Education provision;
 - Employment opportunities;
 - Community and recreation facilities;
 - Access to medical services;
 - Availability of public transport.
- 2.3 Within each of these categories there were a number of sub-categories, against which points were allocated. These are set out in the table below.
- 2.4 The assessment of the settlements sought to take account of the relative importance of certain facilities. With the more essential day to day services and facilities being given 2 points and other facilities such as a village hall or a recreation ground scoring 1 point. Further explanation of this is set out in the table below.

| Retail | |
|-------------------------------|--|
| Town Centre | Town and District Centres are the focus of retail type uses and associated leisure facilities. If there was a defined Town Centre within the settlement, then 2 points were given. If there was a defined District Centre, then 1 point was given. |
| Convenience Store | A convenience store provides an essential service to a community and reduces the need to travel. If a convenience store is within the settlement then a score of 2 points was given. |
| Public House/ Café etc | Food and drink outlets and public houses are often considered to be a hub of a community, especially in rural settlements. They are also considered to |

| | |
|--|--|
| | contribute to the economy by providing local employment opportunities. However, as they are not considered to be an essential day to day facility, they were given a score of 1 point. Where there was more than one of these facilities they are awarded 2 points. |
| Other retail facility | These are relatively important services that would be used regularly by the community. However, as they are not considered to be an essential day to day facility, they were given a score of 1 point. Where there is more than one of these facilities they are awarded 2 points. |
| Bank/ATM | These provide a useful local service, but are not generally used on a daily basis and were therefore given 1 point. |
| Post Office | Post offices are also an important local service; however it is not generally used on a daily basis and were therefore given 1 point. |
| Education | |
| Early Years Provision | The availability of pre-school places is an important factor for parents. All children are entitled to 15 hours of funded childcare in a pre-school setting from the term after their third birthday. Local provision is seen as beneficial to encourage a sense of community for families with young children, and was therefore given a score of 1 point. |
| Primary School | Primary schools provide for children from reception through to year 6. In rural communities especially, primary schools also contribute to promoting a sense of place and community, as they often act as a local community hub, with fundraising events such as summer fetes, Christmas fairs, as well as vital links with the local village halls, libraries and places of worship. Primary schools are also a regular day to day service and facility used by families with children under the age of 12 years old. Primary schools were therefore given a score of 2 points. |
| Secondary School | Secondary schools provide for children from Year 7 through to Year 11. Secondary schools are often located in larger settlements and serve a wider community. They were given a score of 1 point. |
| Further Education | As with secondary schools, such provision is usually found in larger settlements and serve a wider community. These facilities were given a score of 1 point. |
| Employment | |
| Employment Opportunities within or adjacent to Settlement | Having opportunities for employment close to where people live can reduce the need to travel or the distance travelled. Designated employment land within or immediately adjacent to the settlement scored 2 points, the availability of small scale employment opportunities or opportunities on undesignated sites within the settlement scored 1 point. |
| Community and recreation | |
| Community Hall | Community halls provide a space for clubs, groups and community/social events which can form an integral part of the community. They are a valuable facility and contribute to the vitality of communities. They are not considered to be an essential day to day facility, and were therefore given a score of 2 points. |
| Place of Worship | Places of worship were also given a score of 2 points, as they act as a hub for the community. |
| Library | Permanent libraries provide a benefit to the community. Similarly to village halls, some permanent libraries also offer additional activities and clubs |

| | |
|--|--|
| | which strongly contribute to the vitality of a community. Permanent libraries were given a score of 2 points and the availability of a mobile library was given a score of 1 point. |
| Leisure Centre | Sport and Leisure centres often provide a wide range of activities and classes that are available to all; from small children, to classes specifically aimed at the elderly/disabled. They also contribute towards the economy of a settlement providing opportunity for employment and training. A score of 2 points is given to these facilities. |
| Children's Play Area | Play areas are considered as important in ensuring that children have a safe area to play in and enjoy the outdoors, and some larger settlements may have more than one play area. Play areas were given 1 point. |
| Playing Field | Playing fields are also considered important and offer essential recreational opportunities and outside spaces for all to enjoy. A score of 1 point was given to these facilities. |
| Allotment | Allotments are community gardens primarily used by local residents for growing fruits and vegetables. In some communities they also play an important role as a hub for meeting neighbours. They have grown in popularity over recent years and, due to their contribution towards the vitality of a community, they are included within this assessment and given a score of 1 point. |
| Medical | |
| Doctors Surgery | Access to a doctors' surgery is often a concern within communities and this is considered to be a key service. Permanent, fully staffed GP surgeries were given a score of 2 points and branch surgeries (with part-time opening hours) were given a score of 1 point. |
| Chemist / pharmacy | The provision of a chemist/pharmacy plays an integral role in maintaining the health of the community and can provide valuable health care advice and services in the absence of a doctors surgery. This facility was therefore given a score of 2 points. |
| Dentist | As with a chemist/pharmacy, a dentist is a service beneficial to the overall healthcare provision that a settlement can offer. However dentists are usually used less frequently than doctors. A score of 1 point was given for this service. |
| Public Transport | |
| Bus stop with peak time service to main centre/ Railway service | The availability of a bus service providing daily peak-time services to and from a main centre and or Railway Station allows residents to access services further afield. This was given 2 points as it reduces the need to travel by car and provides an important connection to other settlements and associated facilities. |
| Railway Station | Railway Stations with daily peak-time services to and from a higher order settlements, were also given 2 points due to the benefit they bring to the community in terms of providing access to further education and employment opportunities, while also reducing reliance on private cars. |
| Proximity to other settlements | |
| Within approximately 5k of Major Centre or Town | This seeks to account for the situation where a smaller settlement neighbours a larger settlement and is as such largely reliant on the services and facilities contained within that neighbouring settlement. In addition, larger settlements are more likely to provide a greater level of services and facilities, with smaller neighbouring settlements often only looking to complement this offering. Those within 1km of a larger settlement scored 2 |

| | |
|--|---|
| | points and those within 1-5km scored 1 point. |
|--|---|

- 2.5 In addition to the above services and facilities, population figures (taken from the 2011 Census) were also recorded for each settlement. This was provided for information only (to provide an indicator of the scale of the settlement) and did not affect the overall score of the settlement.

3. Assessment Results

- 3.1 The full results of this assessment are set out in Appendix 1.
- 3.2 The Major Centres and Market Towns all have a good range of established services and facilities and scored over 30 points. These have not changed from the settlement hierarchy set out in the 2013 Core Strategy and Development Management Policies.
- 3.3 The Large Villages are those settlements that scored between 16 and 30 points and have a primary school, a village hall/ community centre, and a convenience store. These are considered to be essential day-to-day facilities that help define our larger villages.
- 3.4 The Small Villages scored between 10 and 15 points and have at least one of the essential day-to-day facilities of a primary school a village hall/ community centre, or a convenience store. Settlements that scored 16 or more points, but that didn't have all three facilities to be defined as a Large Village (see paragraph 3.3 above) have been defined Small Villages.
- 3.5 All other settlements, scoring below 10 points have been categorised as Countryside. This reflects the limited availability of services and facilities in these settlements.
- 3.6 The results of the assessment result in the following Settlement Hierarchy:

| Settlement Type | Communities | | | | | | | | | | | | | | | | |
|----------------------|---|-----------|-------|------------|------------|--------------|-------|-----------|-------------------|------------|-----------------|----------------------|-----------|------------------|----------------|--------|---------|
| Major Centre | Felixstowe East of Ipswich - Kesgrave, Martlesham Heath, Brightwell Lakes, Purdis Farm, Rushmere St Andrew (excluding village) | | | | | | | | | | | | | | | | |
| Market Towns | Aldeburgh Framlingham Leiston Saxmundham Woodbridge | | | | | | | | | | | | | | | | |
| Large Villages | <table border="0"> <tr> <td>Bramfield</td> <td>Otley</td> </tr> <tr> <td>Earl Soham</td> <td>Rendlesham</td> </tr> <tr> <td>Grundisburgh</td> <td>Snape</td> </tr> <tr> <td>Hollesley</td> <td>Trimley St Martin</td> </tr> <tr> <td>Knodishall</td> <td>Trimley St Mary</td> </tr> <tr> <td>Martlesham (village)</td> <td>Wenhaston</td> </tr> <tr> <td>Melton (village)</td> <td>Wickham Market</td> </tr> <tr> <td>Nacton</td> <td>Yoxford</td> </tr> </table> | Bramfield | Otley | Earl Soham | Rendlesham | Grundisburgh | Snape | Hollesley | Trimley St Martin | Knodishall | Trimley St Mary | Martlesham (village) | Wenhaston | Melton (village) | Wickham Market | Nacton | Yoxford |
