Introduction to the 2020/21 Statement of Accounts

As Cabinet member for Resources, I am delighted to present the Council's Statement of Accounts for the financial year ended 31 March 2021. These are the second set of Accounts for East Suffolk Council, following the merger on 1 April 2019 of Suffolk Coastal District Council and Waveney District Council.

Covid-19

With three lockdowns and a year of homeworking, 2020/21 has challenged the way we have delivered services across East Suffolk. Service areas have worked hard to refocus resources to ensure uninterrupted support to residents, businesses, and other organisations in greatest need. A hardship fund was set up to offer community funding to new and existing groups who are working to support vulnerable people during the crisis, and a range of grants were paid out to businesses and individuals because of lockdown restrictions and self-isolation. Business Support Grant funding received, processed, and paid by the Council amounted to over £115m to date.

Although extensive financial support has been forthcoming from the Government, Covid-19 also had a direct financial impact on the Council itself, including reduced income on services such as car parking, and expenditure pressures in areas such as community support and supporting closed leisure

facilities. The Council has continually monitored and reported on these impacts, liaising closely with Central Government and multiple agencies and authorities across Suffolk.

Strategic Plan

Following approval of the East Suffolk Strategic Plan by Full Council in February 2020, work has continued on the five key themes:

- Growing our Economy
- Enabling our Communities
- Remaining Financially Sustainable
- Delivering Digital Transformation
- Caring for our Environment

Although Covid-19 has delayed the completion of some of these objectives, the Council has continued to ensure that it maintains a robust financial position. A balanced budget was presented and agreed at Full Council on 24 February 2021 for the 2021/22 financial year, which included a freeze on Council Tax for 2021/22. This will be seen as a welcome relief by many residents during these challenging financial times.

Work has continued throughout the year to ensure the Council is compliant with the principles and standards of the Financial Management Code which further demonstrates the financial sustainability of the Council.

Chief Finance Officer

This year, sadly, saw the passing of Section 151 and Chief Finance Officer, Simon Taylor-Buglione following a prolonged and difficult period of illness. Simon was, in no small part, responsible for the robust financial position of the Council. Myself and many of our colleagues have benefited from his acumen and expertise and Simon will be sorely missed.

I am delighted that Simon's successor as Section 151 and Chief Finance Officer is Mr Brian Mew and that equally robust and prudent financial management will continue.

Councillor Maurice Cook

Cabinet Member for Resources

Foreword by the Chief Finance Officer

The Council's Statement of Accounts (the Accounts) for the financial year ended 31 March 2020 are the second set of Accounts for East Suffolk Council, following the merger on 1 April 2019 of Suffolk Coastal District Council and Waveney District Council. The Accounts inform readers as to the financial performance of the Council during the financial year and are an important element of demonstrating sound financial stewardship of taxpayers' money.

The deadlines for the preparation of the Accounts have once again been changed for 2020/21 and 2021/22. The Accounts and Audit (Amendment) Regulations 2021 have amended the Accounts and Audit Regulations 2015. The draft Accounts must now be published and

available for inspection on or before 1 August 2021 and the timeline for the conclusion of the audit is now 30 September 2021.

Prior to approval, the draft Accounts are subject to a single period of 30 working days for the exercise of public rights, where any objection, inspection and questioning of the local auditor must be undertaken. The unaudited Accounts were available to the public on the Council's website from 2 July 2021, so the inspection period will commence on 5 July 2021 and finish on 13 August 2021.

The principles adopted in compiling the Accounts are those recommended by The Chartered Institute of Public Finance and Accountancy (CIPFA) namely:

- The Code of Practice on Local Authority Accounting in the United Kingdom (the Code); and
- International Financial Reporting Standards (IFRS).

Brian Mew

Chief Finance Officer and Section 151 Officer

Narrative Report

1. Introduction

This document presents the statutory financial statements (the “Statement of Accounts”) for East Suffolk Council for the period 1 April 2020 to 31 March 2021 and provides a comprehensive summary of the overall financial position of the Council.

The Statement of Accounts is presented in the format recommended by the Chartered Institute of Public Finance and Accountancy (CIPFA), as set out in the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 (the Code).

The Narrative Report, which is not formally part of the Statement of Accounts, follows the reporting principles established by the International Integrated Reporting Council (IIRC) and provides information on the Council, its main objectives and strategies and the principal risks that it faces, as well as providing a commentary on how the Council has used its resources to achieve its desired outcomes in line with its objectives and strategies.

2. Introducing East Suffolk Council

Suffolk has a two-tier system of local government, comprising Suffolk County Council and five district councils. The County Council administers services such as education, waste disposal and social services across the whole of Suffolk, whereas locally, East Suffolk Council operates a range of services including building regulation, burials/cremations, community safety, the administration of council tax and business rates, environmental health, electoral administration, licensing, sports facilities, housing, street cleaning and refuse collection.

East Suffolk has a population of 249,461 (ONS, 2019) and covers an area of 125,979 hectares (1,260km²), has 79km of coastline and comprises a mix of urban and rural areas with Lowestoft and Felixstowe being the largest towns. There are also a number of historic towns and a large number of villages. In total, the district has 175 town and parish councils.

East Suffolk is an attractive place to live and work, attracting tourism and visitors and combining a strong economy with a natural and built environment. However, nine neighbourhoods in Lowestoft are within the 10% most deprived in the country and unemployment levels in two wards are double the regional average.

The district also includes the Port of Felixstowe, which is a major gateway for Britain to Europe and the world and increasingly important post Brexit. The district is also increasingly becoming a major energy supplier to the whole of Britain. The expansion of the long-established Sizewell Nuclear Power Station, which sits within the district boundary, continues and is being joined by major offshore developments (driving onshore infrastructure developments) in the fields of energy generation from wind, wave and gas.

Political Leadership

The Council was governed by 55 councillors, covering 29 wards. The makeup of the Council for 2020/21 was:

Conservative Party	Labour Party	Green Party	Liberal Democrat Party	Independent
40	7	4	3	1

Executive Leadership

The senior management team work closely with Councillors to ensure that the Council delivers its corporate priorities, and comprises a Chief Executive, two Strategic Directors and eleven Heads of Service, collectively known as the “Corporate Management Team” (CMT). Separately, the Chief Executive and Strategic Directors make up the Strategic Management Team (SMT). SMT is led by the Chief Executive and takes responsibility for the whole workforce, providing strategic direction and leadership. Heads of Service support SMT in the overall management of both councils and individually they provide direct management of their individual service areas.

East Suffolk Strategic Plan

In 2020 the Council launched the first East Suffolk Strategic Plan. Our aim is to deliver the highest quality of life possible for everyone who lives in, works in and visits East Suffolk. To help us achieve this, we will use this strategic plan as a compass to guide all our decision making. Within the compass, our five key themes show the direction we will take. All themes are interconnected and complement each other. Our achievements over the last 12 months are presented in the Council’s Annual Report (Section 4).

GROWING OUR ECONOMY - Let's build a strong sustainable economy for our future; we want our district to achieve its maximum potential, for the good of everyone in the area.

ENABLING OUR COMMUNITIES - Working together, we will enable our communities to identify opportunities and challenges, we will empower them to make a difference; we will support our communities to enhance the places we live and work for the well-being of all.

REMAINING FINANCIALLY SUSTAINABLE - We will grow and prosper as a council; we will ensure we are well-run; provide value for money and strive for excellence.

DELIVERING DIGITAL TRANSFORMATION - Digital technology can transform the way we work and live; we will use technology to make services efficient and easily accessible to all and assist our communities to embrace and access new technologies.

CARING FOR OUR ENVIRONMENT - We know you are concerned about our environment; we are too, so we will put the environment at the heart of everything we do.

Service Delivery

A tailored approach is adopted with directly delivered services operating alongside services delivered through third parties and joint arrangements. Examples include:

- **Direct Services** – Community Development, Customer and Support Services, Economic Development, Environmental Services, Housing, Licensing and Planning.
- **Third Party Services** – Car Parks, Facilities Management, Refuse Collection, Grounds Maintenance (all through Suffolk Coastal Norse Limited and Waveney Norse Limited) and Leisure (through Everyone Active and Places Leisure); and
- **Joint Arrangements** – Building Control and Internal Audit (both in partnership with Ipswich Borough Council), Coastal Management (through the Coastal Partnership East), and Revenues and Benefits (through the Anglia Revenues Partnership).

3. Operating Model

The way in which the Council operates, deploying and consuming available resources – both human and financial – ultimately determines the outcomes achieved for residents through the services it provides. It is a dynamic model that changes over time, and adapting to changes in the supply of, and demand for, resources is a major challenge in an era of ‘austerity’ and a changing society.

Human Resources

As at 31 March 2021, there were 784 full-time equivalent staff employed by East Suffolk; a wide range of professional teams, delivering a diverse range of services.

Corporate Values: ‘how’ the work is done.

Each staff member is expected to demonstrate a set of core behaviours which define ‘how’ – as employees – they should approach their work. The behaviours sit alongside ‘what’ they do and are designed to encourage every member of staff to reach their potential, reflecting our five corporate values below.

Performance and Development

The Council recognises that developing the capability of its People, its Leaders and its Culture is vital to the achievement of organisational priorities.

To this end, the East Suffolk People Strategy includes a new approach to managing performance and personal development called “My Conversation”. My Conversation allows the Council to constantly gauge progress against Service Plans and the Strategic Plans, ensuring that staff can develop the skills and behaviours required to undertake their roles and successfully meet future challenges. The approach can be distinguished from the traditional annual appraisal system and is about continuous and ongoing performance management, providing regular feedback, recognition and personal development.

The system is supported by real investment in training and development whereby a number of options are offered ranging from on the job coaching (including an in-house apprenticeship scheme) through to external courses.

The breadth of the Council services means that training and development has to be carefully tailored. Professionals from many different fields are employed, for example Accountancy, Legal, Human Resources, Environmental Services and Planning. Professional staff are required to complete continuous professional development, which needs to be factored in alongside personal and organisational development. The workforce also includes large teams of customer facing staff including Customer Service Advisors and with our service delivery partners, Leisure Assistants and Refuse Workers.

4. Council's Performance

The Council's [Annual Report](#) has been produced on its YouTube channel which reports on outcomes and key achievements in the financial year. This report was presented at the Strategic Plan Delivery Board and Full Council and is also available on the Council's website. To support this the Council published its Performance Report capturing how the Council performed in 2020/21 against priorities within the East Suffolk Strategic Plan, Key Performance Indicators (KPIs), corporate risks and performance of partners. Achievements in 2020/21 to highlight include:

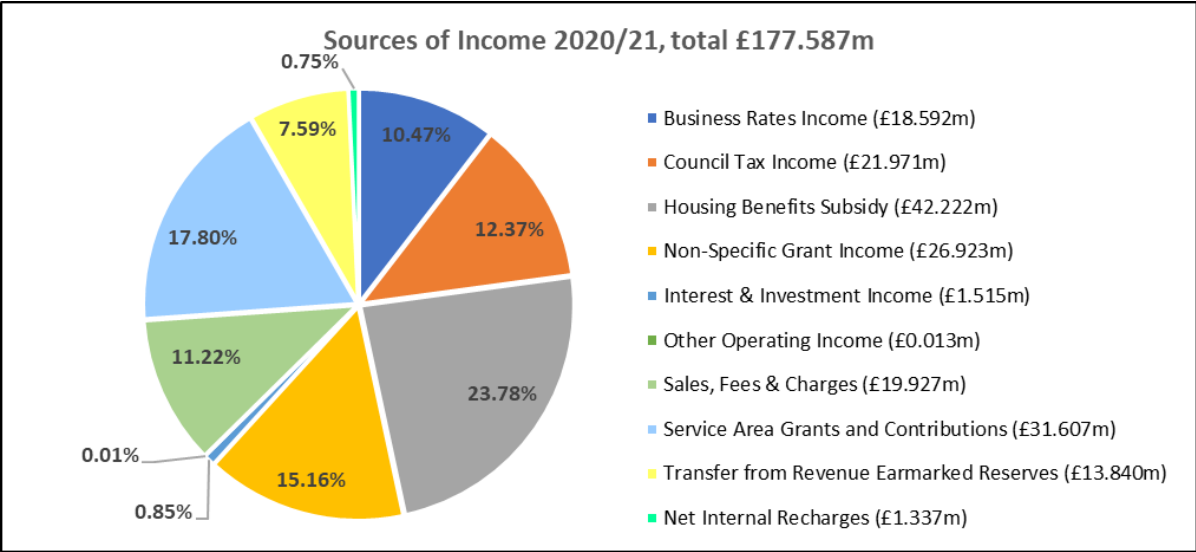

- **Lowestoft Investment Plan** - In March 2021 the Council's bid to the government's Towns Fund was successful. Lowestoft was offered £24.9 million to invest in the regeneration of the town, driving economic growth and acting as a catalyst for future investment.
- **Town Revitalisation Programme** - ESC worked closely the 12 main town centres to identify challenges/opportunities to enhance high streets and address retail decline. As part of the 'Reopening High Streets Safely Fund' ESC was allocated over £200,000 for a Shop Local Stay Safe Campaign which included producing 12 videos, one for each town, and social media campaign.
- **Smart Towns** - Project was awarded £200,000 by the NALEP Innovative Projects Fund and £250,000 from Getting Building Fund. From November 2020 to March 2021, a taster programme of the Digital Advice Service was piloted, supporting over 100 businesses with expert digital help including web audits, skills workshops and 1-2-1 digital advice. Early installation plans are expected to be in place by May 2021.
- **Felixstowe Development** - Transformation of the South Seafront area of Felixstowe through significant investment in new tourism assets proceeded. Phase 3 of the scheme is up and running with the new beach village and activity park project approved in January 2021. Other planning underway included public realm improvements and the Martello Tower development as a visitor destination. The building of a new cafe on the south seafront is well advanced with completion due 2021/22.
- **Flood barrier** - ESC awarded over £43 million by Government to deliver tidal flood walls and a tidal barrier to protect and safeguard the future of Lowestoft. This was the largest single award to any scheme in the country, as part of a £170 million pot for national flood protection projects. Construction of tidal flood walls is underway as part of the wider project which, when completed will protect 1,500 homes and 800 businesses.
- **East Suffolk Community Partnerships** – ESC allocated funding to Community Partnerships to focus on specific neighbourhood issues. In 2020/21 a range of issues were targeted and addressed including:
 - £75,818 allocated across the eight Community Partnership to tackle local priorities.
 - £100,000 provided for a Bounce Back Fund to help reduce the impact of Covid-19. 60 community projects benefited from the fund.
 - £90,000 allocated to the relaunch of ESC's Hidden Needs Programme.
 - In Kesgrave, Martlesham, Rushmere St Andrew, Carlford and Fynn Valley, allocated £5,000 to deliver two Mental Health First Aid Awareness training sessions.
 - In Felixstowe Peninsula education was identified as a key priority and £5,000 was allocated to a library project at Felixstowe School.
 - Beccles, Bungay, Halesworth and Villages Community Partnership allocated £3,250 to Bungay Town Council for a project to reclaim its old cemetery.
- **Housing**
 - Set up Independent Living East Suffolk and worked closely with Suffolk local authorities to develop outstanding services for those living with a disability.

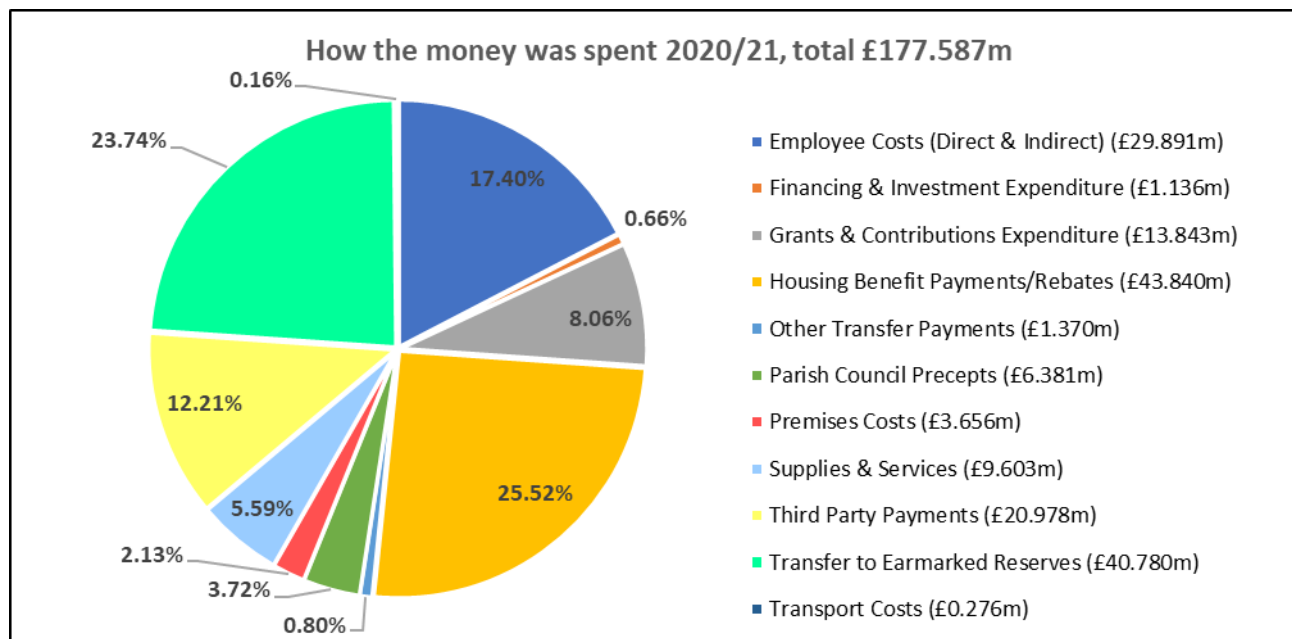

- Rent arrears as a percentage of the debit was 3.45% for 2020/21 exceeding its target of 4.40%. Due to predictive analytics software in place, and work of rents team to support tenants, we continued to reduce rent arrears profile to lowest level for 4 years.
 - 624 net dwellings were completed for the year including 126 affordable homes. Covid-19 restrictions reduced the number of anticipated completions, but 799 dwellings, including 150 affordable units were under construction at the end of Quarter 4.
 - The Council published two new Local Plans running until 2036, one covering the former Waveney area, and the other covering the former Suffolk Coastal area.
 - 286 homeless preventions were achieved under the Preventions Duty for the year. 65 applications were in temporary accommodation at the end of Quarter 4 and 238 were in temporary accommodation during the year.
- **Food Hygiene Rating** - (percentage at 3-5 rating i.e. rated 'generally satisfactory' or 'better') exceeded its target of 95% with performance achieving 99% for the year.
 - **Leisure** - Project to improve Waveney Valley Leisure Centre, costing £3.4 million, was completed in October 2020. The £1 million refurbishment at Waterlane Leisure Centre concluded in February 2021.
 - **Financial** - In 2021/22 committed to spending £129 million on delivering essential services to residents, businesses and communities. ESC froze its element of council tax for 2021/22.
 - **Housing Benefit** new claims and changes continued to exceed targets throughout the year with overall performance at 4.14 days, and the number of local authority overpayments was better than the target of 0.35% at 0.16.%.
 - **Digital** - ESC website had over 3.4 million page views, more than 141,000 automated internet payment transactions and over 116,000 e-forms submitted. Twitter followers hit 10,000 for the first time and increased by around 6%. Facebook followers topped 8,000 with an increase of around 22%. Instagram had over 2,000 followers, increasing by 26% and LinkedIn up to nearly 3,000, 30% increase in followers.
 - **Waste and Recycling Services** - continues to put the environment first with 99% going to energy reproduction and recycling - not landfill. Household waste sent for reuse, recycling and composting was 39.73% for 2020/21, below its target of 44.62%. Residential waste per household performance was 508.93kg also below target.
 - **Economic Development** – engaged with 6,346 businesses, high level of engagements undertaken through Covid related activities. Figure strengthened through Digital Advice Service project and engagement through Ambassador programme. 2,716 businesses received direct support.
 - **Planning** - Performance for all planning applications determined consistency exceeded targets through 2020/21 with overall performance at:
 - Minor planning applications – 80% determined in 8 weeks.
 - Major planning applications – 82% determined in 13 weeks.
 - Other planning applications - 90% determined in year.

5. Financial Performance

5.1 General Fund Revenue Income and Expenditure

The following two charts show the sources of income to the Council during the year and how the income has been spent (excluding accounting adjustments required by Internal Financial Reporting Standards).

5.1 General Fund Revenue Outturn

Within the Net Cost of Service, the total by Service Area will differ to those shown in the EFA in Note 7 of the Financial Statement. This is due to The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) which defines proper accounting practices for local authorities, and some transactions must be analysed differently in the Financial Statement than when they are reported in the budget and for the purpose of internal financial management reporting.

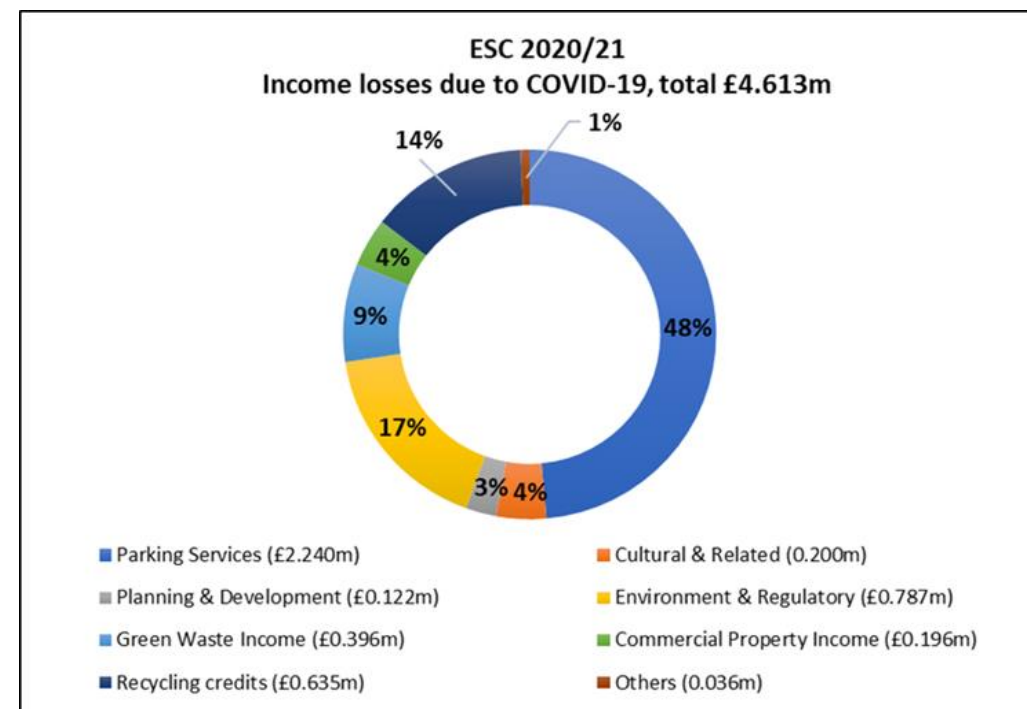

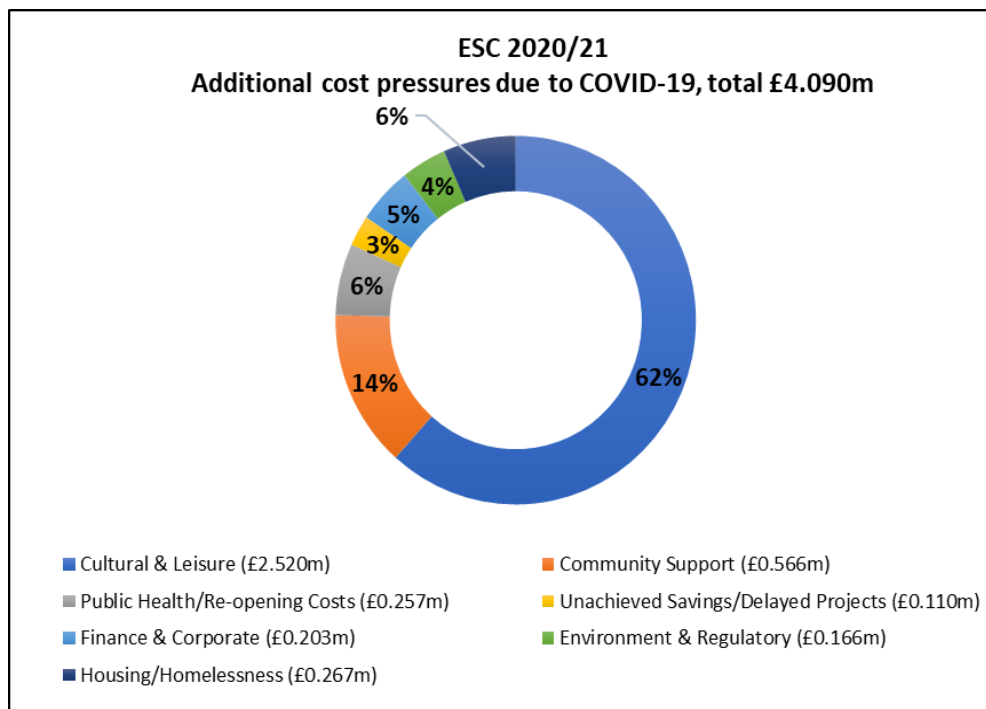

As at the 2020/21 year end, the Council was in a position to increase its Earmarked Reserves by £1.1m due to a favourable outturn position. This has been added to the Transformation Reserve to provide financial support for the delivery of the Strategic Plan. The table below provides the General Fund revenue outturn position for the Council for 2020/21, compared to the revised budget position. There are some significant variances shown in cost of service, which are largely due to Covid. Further analysis of the outturn position will be reported in the Outturn Report to Cabinet in July 2021.

	Original Budget 2020/21 £'000	Revised Budget 2020/21 £'000	Actual Outturn 2020/21 £'000	Variance 2020/21 £'000
Service Area				
Senior and Corporate Management	2,582	2,698	2460	(238)

Financed By:				
Council Tax Income (District Council)	(15,053)	(15,053)	(15,053)	0
Council Tax Income (Town & Parish Precepts)	(6,381)	(6,381)	(6,381)	0
Share of (Surplus)/Deficit on Collection Fund - Council Tax	(537)	(537)	(537)	0
Business Rates Income	(11,308)	(12,732)	(12,872)	(140)
Share of (Surplus)/Deficit on Collection Fund - Business Rates	(5,177)	(5,177)	(5,720)	(543)
Revenue Support Grant	(328)	(328)	(328)	0
Rural Services Delivery Grant	(248)	(248)	(248)	0
Total Financing	(39,032)	(40,456)	(41,139)	(683)

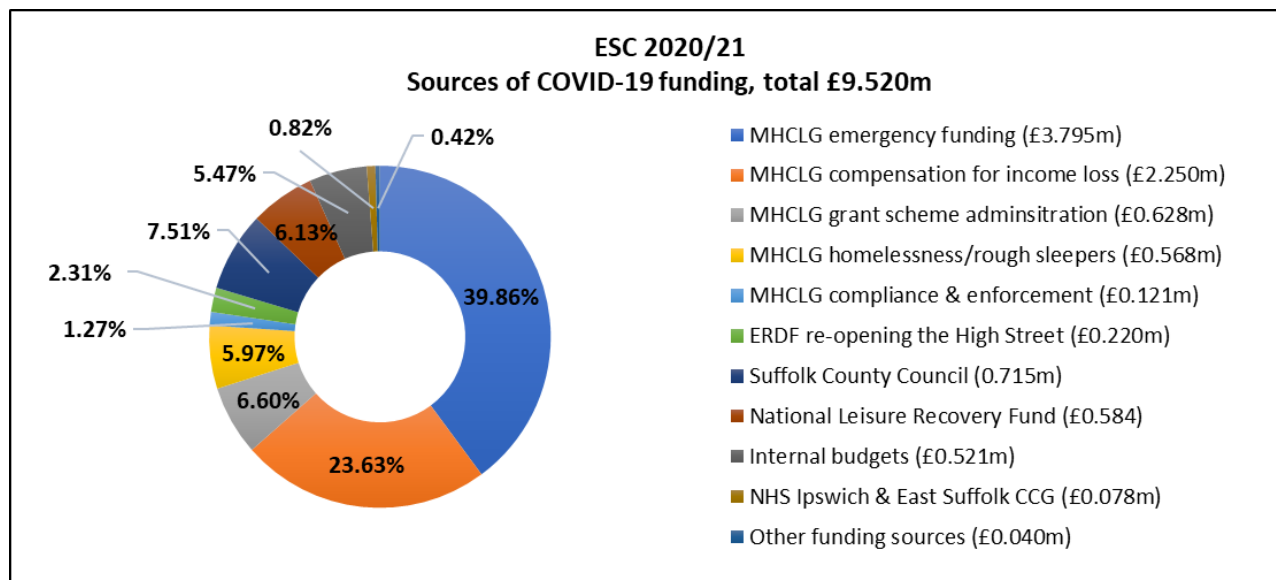

5.2 Impact of COVID-19 on financial performance

The following two charts outline the impact of Covid-19 on the Council's income and the additional cost pressures during the financial year. The Council also redeployed staff from business-as-usual work to assist with activities such as supporting communities and the administration and processing of business grant schemes. The value of this redeployed work is estimated to be in the region of £1m for 2020/21.

Over the course of the year, various funding streams have been made available to the Council from Central Government to support the financial pressures of Covid-19. The Council has received a total of £3.917m (£0.121m in March 2020) of Government emergency funding. Of this, £1.5m has been transferred to the Covid-19 Reserve for use in 2021/22. Over £0.620m of Government funding has been received towards the administration of the various grant schemes the Council has administered on behalf of Government. This is covered in further detail in Section 7.

A further £2.250m has been claimed from Government for compensation for the loss of income from Sales, Fees and Charges. This support is to continue for the first quarter of 2021/22. Funding was also received from other bodies, included Suffolk County Council and Ipswich and East Suffolk Clinical Commissioning Group (CCG). In total the Council received over £9.5m of funding which is illustrated in the chart below.

Of the above funding received in the year, £2.6m has been carried forward into 2021/22, by way of transfer to the Covid Earmarked Reserve or as a Receipt in Advance in the Income and Expenditure Statement (dependent on the required accounting treatment).

Savings of over £0.320m have been realised in 2020/21 due to Covid, with £0.293m arising from savings on staff and member mileage and travel costs.

Due to the level of funding that has been received, the financial net impact of the pandemic on the Council has been significantly reduced from original estimates in the first quarter of 2020/21, which was in the region of £8.6m. A summary of the overall impact of Covid-19 on the Council is set out in the table below and shows a net impact for the year of £1.461m.

Covid-19 Impact 2020/21	£'000
Covid funding received for cost and income pressures	(9,520)
Savings realised	(322)
Income loss due to Covid	4,613
Additional expenditure due to Covid	4,090
Covid ring-fenced funding carried forward to 2021/22	2,600
Total net impact on the General Fund	1,461

Details of the grant schemes administered by Council is covered in Section 7.1.

5.3 Housing Revenue Account (HRA)

The HRA is a ring-fenced account, containing solely the costs arising from the provision and management of the Council's housing stock, offset by tenant rents, service charges and other income. The Self-Financing regime was introduced in April 2012 and the Council had to take on a significant amount of debt (£68m) in exchange for not paying future Housing Subsidy. The total debt for the Council's HRA is currently at £76m (£68m from the self-financing settlement and £8m pre-Self-Financing).

The Council's housing stock totalled 4,459 dwellings as of 31 March 2021 (4,460 as of 31 March 2020). During 2020/21 the Council added 13 properties to its housing stock and sold 14 properties through the Right to Buy Scheme.

Total Rent arrears as of 31 March 2021 was £1.162m (£0.973m as of 31 March 2020) and represented 5.8% of the HRA's gross collectable income up from 4.9% due in part to the impact of Covid-19. As illustrated in the table to the right, and in the HRA section of the Statement of Accounts, the in-year movement on the HRA working balance was a surplus position of £0.786m. The outturn figure for Service Charges income of £0.842m includes a Service Charge Provision for 2020/21 of £0.400m. Further details in respect of this are provided in Note 20 to the Statement of Accounts.

The HRA working balance as of 31 March 2021 is £4.575m. The HRA also holds Earmarked Reserves which are set out in Note 10 to the Statement of Accounts. As of 31 March 2021, the total balance on the HRA Earmarked Reserves was £17.302m. £10.187m of this relates to the HRA Debt Repayment Reserve which is to provide funding for future liabilities for repaying the self-financing debt. The HRA working balance and Earmarked Reserves as at 31 March 2021 have been restated, due to prior period adjustments in respect of the Service

Charge Provision. Note 33 to the Statement of Accounts provides further information.

The HRA capital programme consists of capital budgets for housing repairs, project development and the housing development programme. In 2020/21 the HRA capital spend totalled £4.151m, which consisted of £2.099m for the new build programme, £0.860m on the Housing Project Development and £1.574m for housing repairs and improvements. The HRA spending plans, including its capital investment programme, are currently fully funded from existing resources, with no requirement for additional borrowing during 2020/21.

Housing Revenue Account Outturn Summary				
	2020/21 Original Budget £'000	2020/21 Revised Budget £'000	2020/21 Outturn £'000	2020/21 Variance £'000
Income				
Dwelling rent	(19,157)	(19,237)	(19,284)	(47)
Non-dwelling rents	(175)	(178)	(183)	(5)

5.4 General Fund Capital Programme

The successful delivery of many of the Council services also relies on the acquisition and maintenance of fixed assets such as land, buildings, and equipment. Acquisitions and expenditure which enhance the value of assets is funded through capital expenditure, whereas maintenance (which maintains, rather than adds value) is funded through (General Fund) revenue expenditure.

Capital budgets are approved for the life of the project which can span more than one financial year. Any capital budgets for a project that remain unspent at the end of the financial year are carried forward to the following year. Similarly, with projects that are ahead of the original profile, budgets can be brought forward.

The table in this Section summarises the General Fund Capital Programme outturn for the year. The variance at the end of the year of £5.051m is due to projects being rephased to 2021/22 and the budgets will be carried forward accordingly.

Unlike the revenue expenditure, the impact of the Covid-19 pandemic on capital programme delivery was limited. Delays at the beginning of the pandemic were offset during the year as the project teams were able to accelerate other projects to take advantage of lower footfall that resulted from lockdown. For example, the Lowestoft beach hut programme and other leisure refurbishments were brought forward.

The outturn report to Cabinet will provide further information on the Capital Programme performance in 2020/21.

General Fund Capital Programme Outturn				
Service Area	2020/21 Original Budget £'000	2020/21 Revised Budget £'000	2020/21 Outturn £'000	2020/21 Variance £'000

Total General Fund Capital Financing	41,568	27,162	22,111	(5,051)

5.5 Reserves and Balances

The careful management of reserves and balances sits at the heart of the Council's strategic financial planning process. The Council has a policy of maintaining the level of General Fund balance at around 3% to 5% of its budgeted gross expenditure and has determined in the Medium-Term Financial Strategy to maintain this balance at £6m, taking account of the strategic, operational, and financial risks facing the Council.

The Council holds several Earmarked Revenue Reserves which have been established to meet known or predicted liabilities and to hold balances of grants and external funding which is committed to future year spend. The Council reviews these reserves to ensure the levels continue to be appropriate and if no longer required, are returned to the General Fund. As of 31 March 2021, the total balance on the General Fund Earmarked Reserves stood at £73.8m. This is an increase of £27.3m on the position as of March 2020. 2020/21 was an exceptional year due to Covid-19 and over £15m of the total reserves held is related to Covid funding, the majority of which will be released in 2021/22 and 2022/23. Earmarked Reserves to highlight include:

- **COVID-19 Response Reserve (£15.733m)** – Mainly consisting of Section 31 Grants to fund Covid related Business Rate Reliefs, Covid emergency funding, delivery of grant schemes and various community support funding streams. This reserve will be utilised in 2021/22 to deal with accounting timing differences related to the pandemic, and to fund the ongoing impact of Covid and recovery initiatives.
- **Business Rates Equalisation Reserve (£13.389m)** – This is income from Business Rates which is set aside to equalise the fluctuations in recognising Business Rate income due to timing differences, in relation to Business Rates appeals and for year-end surpluses/deficits. An additional £7.372m was added to the reserve this year. The contribution to the reserve this year has been assisted by the further delay to the reform of the Business Rate system.
- **In-Year Savings Reserve (£4.320m)** – This is in-year savings set-aside to support future year budget pressures. No transfer was made to this reserve in 2020/21.
- **Business Rate Pilot Reserve (£2.194m)** – In 2018/19, Suffolk was successful with its bid to pilot 100% Business Rates Retention Scheme. This income has been transferred to this reserve and is used to provide funding for agreed projects. Use of the reserve is made when the project spend is incurred, and £0.479m was drawn down in 2020/21, mainly for the Felixstowe south beach & Martello Café project.
- **Capital Reserve (£6.012m)** – This reserve provides a source of funding for capital investment projects. £2.543m was used from this reserve in 2020/21.
- **New Homes Bonus Reserve (£6.064m)** – This reserve established from New Homes Bonus (NHB) income is used to support community initiatives, which are detailed in the February 2021 budget report. The Council received £2.303m of NHB income in the year and £1.681m was used to fund projects.
- **Port Health (£5.597m)** – This reserve provides a source of finance to support the future investment and development of the authority's infrastructure at the Port of Felixstowe.
- **Transformation Reserve (£3.217m)** – This reserve has been established to support the delivery of the Council's Strategic Plan, with £1.683m used during the year to fund projects. £3.763m was added to the reserve to provide the financial support for the Strategic Plan going forward. This included the outturn position for the year of over £1m.

Movements on all Earmarked Reserves are set out in Note 10 to the Statement of Accounts.

5.6 Interests in Companies and Other Entities

In 2008/09 Waveney District Council entered an arrangement with Norse Commercial Services Limited (NCS) for the provision of a package of services including refuse, cleansing and maintenance. East Suffolk Council holds a 19.9% share of Waveney Norse Limited (Ltd). Payments made to Waveney Norse Ltd in respect of the services provided are included within the Cost of Services in the Comprehensive Income and Expenditure Statement of the Council's Statement of Accounts. Total payments to Waveney Norse Ltd were £8.183m in 2020/21 (£7.439m in 2019/20).

East Suffolk holds a 20% share of Suffolk Coastal Norse Limited (Ltd) held by Suffolk Coastal District Council since 1 April 2009. Suffolk Coastal Norse Ltd provides a package of services including refuse, cleansing and maintenance. Payments made to Suffolk Coastal Norse Ltd in respect of the services provided are included within the Cost of Services in the Comprehensive Income and Expenditure Statement of the Council's Statement of Accounts. Total payments to Suffolk Coastal Norse Ltd were £9.793m in 2020/21 (£8.936m in 2019/20).

East Suffolk Holdings Limited is wholly owned by the Council and was incorporated on 24 October 2019. East Suffolk Holdings is the sole shareholder of East Suffolk Construction Services Limited, East Suffolk Property Developments Limited, and East Suffolk Property Investments Limited, all of which were incorporated on 26 November 2019. All these companies were dormant in 2020/21 and are intended to commence trading in future years.

5.7 Pension Liabilities

The Council participates in the Local Government Pension Scheme, administered locally by Suffolk County Council - this is a funded defined benefit scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.

The Pensions Liability in the Balance Sheet reflects the underlying commitments that the Council has in the long term to pay retirement benefits. The impact of the net pension liability on overall reserves amounts to £84.267m in 2020/21 (£53.445m for 2019/20). Statutory arrangements for funding the deficit mean the financial position of the Council is not affected by this movement.

The latest triennial actuarial valuation of the assets and liabilities of the Suffolk County Pension Fund was completed on 31 March 2019. The Council has been advised that its share of the pension fund was 98% fully funded at this date. The employers pension contribution rate for 2020/21 is 34% and proposed at 33% and 32% for 2021/22 and 2022/23 respectively.

5.8 Provisions and Contingencies

National Non-Domestic Rates

Through the National Non-Domestic Rates (NNDR1) return, the Council has to estimate the business rates income expected to be received in the coming year based on a number of assumptions. The most significant assumption is in relation to the provision for appeals. The Council has reviewed the methodology for appeals in relation to the new check, challenge, appeal process, which has seen a significant reduction in appeals. As a result, the provision significantly decreased for both predecessor authorities in 2018/19. As a result of the Covid-19 pandemic, the national business rates

revaluation planned to take effect in April 2021 has been postponed, and the 2017 valuation list will apply for at least another year. Appeals will consequently continue to be potentially made against this list limiting the scope for further reductions to the provision. However, the Government has introduced legislation to restrict appeals arising from the pandemic itself, and the business rates outturn position for 2020/21 indicated in the NNDR3 return is now significantly better than that estimated in the 2021/22 NNDR1 return. The provision for Business Rates appeals is shown in the Collection Fund Note to the Financial Statements. The economic impact of the Covid-19 pandemic and the potential ability for debts to be recovered has also been reflected in increased provisions for doubtful debts in respect of business rates, council tax, housing benefit overpayments, and sundry debtors.

HRA Service Charge Provision

The Council identified that additional charges were being added to multiple rent accounts in previous years to cover the servicing costs associated with heating. These charges initially formed part of the service charges and then, in or around 2018, were re-defined as "de-pooled rental charges". These "de-pooled rental charges" have been charged in addition to the core rent, however, these additional charges relate to services which the Council, as landlord, should not be re-charging to tenants. The Gas Safety (Installation and Use) Regulations 1998 places a number of statutory duties on a landlord of domestic tenancies granted for a term of less than seven years. The main duties are to:

- Ensure the gas fittings and flues are maintained in a safe condition;
- Ensure an annual safety check is carried out on each gas appliances/flue; and
- Keep records of the gas safety checks.

Under Section 11 of the Landlord and Tenant Act 1985, a landlord of residential tenancies granted for a term of less than seven years has implied repair duties. This includes the statutory duties to keep in repair and proper working order the installations in the dwelling-house for the supply of gas and space heating and heating water. This extends to cover gas pipes and boilers. Therefore, the Council should not have been re-charging its tenants, outside the core rent, for costs associated with it complying with its statutory duties.

Based on the information above, the Council will need to reimburse tenants for the additional service charge costs included within their rent since 2010/11, and therefore a provision has been provided for this. A prior period provision adjustment of £3.357m has been made in the Statement of Accounts (See Note 33 in the Statement of Accounts) and a further £0.400m provision has been made in 2020/21.

6. Risks and Opportunities

The Council's approach to risk management is to embed risk management into the organisation so that it is the responsibility of all managers and teams. A detailed review of corporate risks is undertaken by Corporate Management Team to manage, monitor and consider risks including management of the risk process. All corporate risks, significant for the Council, are reported to Audit and Governance Committee. The high-level details as at 31 March 2021 are:

Corporate Risk	Current rating	Target rating	Projected Direction to meet target
Covid-19 (impact on Council) (impact on Communities)	Red	Amber	↑
	Red	Amber	↑
Flood risk	Red	Amber	➔
Coastal erosion	Red	Amber	➔
Loss of properties from coastal erosion and wider blight of communities	Red	Amber	➔

Climate Change	Amber	Green	➔
Mental wellbeing/ill health (internally)	Amber	Green	n/a

Action plans are in place to continue to improve mitigation for cyber threats and risks.

Opportunities

As outlined in the following section, the impact of the Covid-19 pandemic represented an unprecedented challenge to the Council and the area. However, East Suffolk is well placed to take advantage of a range of opportunities and ensure sustainable economic recovery – ensuring value for money for residents and become more financially resilient.

East Suffolk is recognised by many as an economic powerhouse area, with many major sites located in the district such as Felixstowe Port, BT’s global Research and Development Head Quarters, offshore wind sector and nuclear energy (Sizewell Power Plant). Developments likely to bring significant economic and employment opportunities for the district include:

- The Port of Felixstowe, which is now the largest container port in the UK, will form part of Freeport East and further expansion (especially in supporting infrastructure) is planned; and
- Sizewell Power Plant major expansion – development of ‘Sizewell C’, a third Nuclear Power Station on the site.

Lowestoft, along with neighbouring Great Yarmouth Borough Council, is one of only six locations in England that have been designated as a Centre of Offshore Renewable Engineering (CORE) status by the Government. CORE status is awarded through recognising the existing port infrastructure, skills, supply chain and Local Government support to enable rapid growth within the offshore wind sector.

Tourism is an important part of the Council’s economy. Visitors are attracted by the character, culture, festivals, music, art, food, drink, clean beaches and spectacular coastline, with areas of the district designated as Areas of Outstanding Natural Beauty (AONB).

The Council will also be able to increase its ability to extend social housing, with the Housing Revenue Account now being able to operate in the whole East Suffolk district.

7. Covid-19 and Forward Look

7.1 Covid-19

During 2020/21 significant work was undertaken to ensure the Council continued to deliver essential services to residents, businesses and communities, and those most vulnerable received support. Some functions and services impacted by Covid-19 required resource reallocation. This included the implementation of systems and processes for administering the business grant payments by Corporate Fraud, Economic Development, Finance, Internal Audit and IT Teams, and also the Community Team supporting residents and the most vulnerable in the district. Council meetings were held remotely to continue ordinary council business and homeworking for staff was enabled, supported by packages for flexible working and mental health and wellbeing. The Economic Development programme is currently being refreshed to reflect the economic impact of Covid and the Council will be monitoring the impact of the transition to long term recovery. Below are some of the ways in which the Council has responded to the pandemic;

Helping our communities

- Worked with volunteers, businesses and local organisations to support the most vulnerable members of our communities during the pandemic. Supported over 500 residents who were clinically extremely vulnerable.
- Introduced Grandpad Loan Scheme - specially designed tablets for older people to use.
- As part of the Suffolk-wide Home But Not Alone scheme, dealt with 2,172 requests during the first lockdown, including 750 urgent food or medicine needs.
- Created an ESC hardship fund for community funding to new and existing groups of £130,000.
- Grants of between £50 and £1,000 were given to local groups.
- Suffolk Family Focus team supported families experiencing complex and long-standing difficulties, such as domestic violence, drug and alcohol dependency, and financial issues.
- ESC converted a property to house rough sleepers during the first lockdown. ESC also secured extra funding to help support rough sleepers.
- £389,482 received in 2020/21 was in addition to the £93,312 awarded in September 2020 as part of the Government's Next Steps Accommodation Programme to help rough sleepers during the pandemic. The funding helped deliver a scheme offering a "higher level" of support to those who need it before living independently.

Health & Safety

- Environmental Services teams responded to 100% of referrals from SCC's Contact & Trace Service and 100% of notifications (cases/clusters/outbreaks) from SCC's Public Health Specialist COVID-19 Co-ordination Centre Duty Team.
- Received and responded to over 1,100 Covid-19 enquiries including social distancing issues. Dealt with a 28% increase in noise complaints, mainly under restricted lockdown periods.

Digital

- Enabled 750 staff and councillors to work from home. Reduced travel by 84% due to working from home and better use of technology. Deployed tablets to staff in Housing and Building Control Teams.
- Boosted capacity resulting in continuous improvement of infrastructure, networks and business systems, including rollout of technology such as Zoom, Teams and SharePoint.
- Enabled council meetings to take place remotely, broadcast on our YouTube channel. Implemented new online services including a streamlined business grants process for administering and delivering covid-related funding.

Financial

During the year the Council was responsible for the administration of various grants and relief to business and individuals on behalf of Central Government. For some grant schemes the Council was acting as Agent, this means the Council was acting at a distribution point for grants and had no control over the amount allocated to recipients. The transactions for such schemes do not appear in the Comprehensive Income and Expenditure Statement (CIES). For other grant schemes the Council did have control over the distribution of funding. For these schemes the Council was acting as Principal and the related transactions for these schemes do appear in the CEIS. Following the closure of grant schemes where the Council has acted as Agent, any unused funding awarded is returned to Central Government following a reconciliation process. Similarly, if the Council has paid out more than it received the Council will be compensated by Government. The below table provides an overall summary of the schemes and the role of the Council in their administration.

Grant Scheme	Purpose of Grant Scheme	Council Acting as Agent or Principal	2020/21 Grant Awarded £	2020/21 Total Paid Out £
Test and Trace Support Main Scheme*	To support people on low incomes who are unable to work from home if they are told to self-isolate by the NHS Test and Trace system	Agent	(198,500)	116,500
Small Business Grants, Retail Hospitality & Leisure & Discretionary Grants*	To support eligible businesses due to the March 2020 national lockdown	Agent	(97,659,750)	62,475,000
Discretionary Grants*	To support eligible businesses due to the March 2020 national lockdown	Principal	(3,866,250)	3,866,250
Local Restrictions Support Grant (Closed)*	Support to eligible businesses required to close under Tier restrictions	Agent	(26,679,109)	18,499,177
Local Restrictions Support Grant (Open)*	Support to eligible businesses that were still open but severely impacted by Tier restrictions	Agent	(2,166,345)	1,538,612
Local Restrictions Christmas Support Package*	Christmas Support Package for Wet Led Pubs who were severely impacted by local restrictions in December 2020	Agent	(153,600)	78,000
Local Restrictions Support Grant (Sector)*	Support to eligible businesses that were required to close on a national basis since 23 March 2020	Agent	0	533
Closedown Business Lockdown*	One off payments for businesses required to close from 5 January 2021 due to the national lockdown	Agent	(18,009,000)	12,588,000
Additional Restrictions Grant*	To provide additional funding for direct business grants and wider business support	Principal	(7,205,195)	6,749,617
Test and Trace Support Discretionary Scheme	To support people on low incomes who are unable to work from home if they are told to self-isolate by the NHS Test and Trace system	Principal	(208,000)	60,000
Council Tax Hardship Fund Grant	To reduce the council tax liability of working age Local Council Tax Reduction Scheme (LCTRS) claimants	Principal	(1,916,615)	1,487,388
		Total	(158,062,364)	107,459,077
* Differences between the total funding awarded and the total paid out have/will be returned to Government or paid by Government following the end of the scheme.				

During 2020/21 to date the Financial impact of Covid on the Council's costs and income has been monitored and reported regularly – internally to officers and members, to central Government via monthly returns and information sharing with other Suffolk Local Authorities. The financial impact of Covid-19 during 2020/21 was detailed in Section 5.2.

The Housing Revenue Account (HRA) is generally less exposed to the financial impacts of the pandemic than the General Fund, although rent income has been affected to a degree as previously mentioned in Section 5.3.

7.2 Forward Look

The financial impact of Covid-19 was taken into consideration for updating the MTFs and the 2021/22 and 2022/23 budgets approved by Full Council in February 2021 and 2022 respectively. The area of expected pressure for 2021/22 is the loss of income from sales, fees and charges, in particular car parking income and also leisure services. The Business Rate Retention and Fair Funding reforms have been delayed further until 2025/26 at the earliest. East Suffolk is in an advantageous position under the current Business Rates Retention system and deferral of the reforms will enable the Council to benefit from another year of the current regime. This is estimated to constitute an annual financial benefit of over £3 million to the Council. The Council finds itself with pressures and uncertainties of the medium term, and the underlying budget gap that needs to be addressed. It is important that the Council's policy towards its reserves and balances seeks to provide some contingency against these future pressures and recovery from the pandemic, whilst continuing valuable community programmes and initiatives - particularly those currently funded from NHB. The table below shows the MTFs project budget gap as at February 2023. However, it should be noted that the Council achieved an improved year end position for 2020/21, enabling the Council to sustain a robust reserve position going forward.

MTFS Projected Budget Gap	2022/23 £'000	2023/24 £'000	2024/25 £'000	2025/26 £'000	2026/27 £'000
As at February 2023	0	0	3,511	6,008	6,405

A summary of the Earmarked Reserves position for the Council over the MTFs period to 2026/27 (February 2023) is set out below, along with the actual position as at 31 March 2022. As referred to previously, Covid-19 related funding held at 31 March 2021, has been earmarked to a separate reserve. This is shown separately and stood at over £15m at year end. The Covid Reserve consists of funding to;

- support the Council's own cost pressures and the Collection Fund deficit spread over the next three years,
- deliver grant schemes the Council administered as Principal, and
- provide support to communities.

	Actual Apr-22 £'000	MTFS Apr-23 £'000	MTFS Apr-24 £'000	MTFS Apr-25 £'000	MTFS Apr-26 £'000	MTFS Apr-27 £'000
General Fund Revenue Reserves						
General Fund	6,000	6,000	6,000	6,000	6,000	6,000
General Earmarked Reserves						
Earmarked Reserves (excluding Covid related)	56,000	41,240	36,417	33,973	32,574	31,589
Earmarked Reserves (Covid related only)	5,882	1,186	32	-	-	-
Total Earmarked	61,882	42,426	36,449	33,973	32,574	31,589

8. Capital Programme

The Covid-19 pandemic had limited impact on the delivery of the Council's Capital Programme in 2020/21. Project teams reviewed our commitments, rephased projects bringing some forward and delaying others to reflect circumstances across our communities.

The Capital Programme was compiled taking account of the following main principles, to:

- maintain an affordable four-year rolling capital programme;
- ensure capital resources are aligned with the Council's Strategic Plan;
- maximise available resources by actively seeking external funding and disposal of surplus assets; and
- not to anticipate receipts from disposals until they are realised.

In January 2021, a General Fund capital programme of £162.281m was approved for East Suffolk Council for the period 2021/22 to 2024/25. A further £0.500m was approved in March 2021 following the Council's successful bid of £24.9m from the Towns Fund, bringing the General Fund capital programme value to £162.781m. The key capital projects in 2021/22 are:

- **Public Convenience Programme (£1.050m)** - upgrade and refurbishment of district wide public conveniences.
- **Lowestoft Flood Risk Management, Tidal Gate (£17.359m)** - a vital project to future proof Lowestoft sea front and town centre. The project has also benefited from significant external grant funding.
- **Former Deben High School Felixstowe (£2.600m)** - development of sustainable housing in the old school premises.
- **Lowestoft Beach Hut Replacement (£1.500m)** - replacement of beach huts along with the demolition, reconstruction and enhancement of the adjoining café and amenity block.
- **New Beach Hut Sites, Felixstowe (£0.900m)** - proposed investment in additional beach hut sites.
- **Southwold Harbour Fender (£1.100m)** - Southwold Harbour Fender works following damage to the fender as set out in the Cabinet Report on 3 November 2020.

The HRA capital programme totals £60.417m over the period 2021/22 to 2024/25 and includes £40.210m allocated to the New Build Programme.

Statement of Responsibilities

The Council's Responsibilities

The Council is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Chief Finance Officer.
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- approve the Statement of Accounts.

Councillor Owen Grey

Chairman of Audit & Governance Committee, East Suffolk Council

The Chief Finance Officer's Responsibilities

The Chief Finance Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 (the Code). In preparing this Statement of Accounts, the Chief Finance Officer has:

- selected suitable accounting policies and then applied them consistently.
- made judgements and estimates that were reasonable and prudent; and
- compiled with the local authority Code. The Chief Finance Officer has also:
- kept proper accounting records which were up to date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate by the Chief Finance Officer

I certify that this Statement of Accounts has been prepared in accordance with proper accounting practices and presents a true and fair view of the financial position of the Council at 31 March 2021 and its income and expenditure for the year ending on that date.

Lorraine Rogers

(FCCA) Chief Finance Officer and S151 Officer, East Suffolk Council

Comprehensive Income & Expenditure Statement (CIES)

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Councils raise taxation to cover expenditure in accordance with statutory regulations; this may be different from the accounting cost. The taxation position is shown in the Expenditure and Funding Analysis and the Movement in Reserves Statement. The Group includes the Council's share of the Suffolk Coastal Norse Ltd and Waveney Norse Ltd profits and tax expenses.

Movement in Reserves Statement (MIRS)

This statement shows the movement in the year on the different reserves held by the Council and the Group (i.e. including Suffolk Coastal Norse Ltd and Waveney Norse Ltd), analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The (Surplus) or Deficit on the Provision of Services line shows the true economic cost of providing the Group's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. This is different from the statutory amounts required to be charged to the General Fund Balance for council tax setting purposes. The Net (Increase) / Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the council.

Balance Sheet

The Balance Sheet below shows the value of the assets and liabilities recognised by the Council and the Group at the Balance Sheet date, which is 31 March each year. The net assets (assets less liabilities) are matched by the Group's reserves, reported in two categories. Details of the Usable Reserves can be found at the bottom of this Balance Sheet and Unusable Reserves held by the Group are contained within Note 22 to the Council's Core Financial Statements.

Lorraine Rogers (ACCA) Chief Finance Officer and Section 151 Officer 11th December 2023

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council and Group during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the authority.

	2020/21 £'000	2019/20 £'000
Net (surplus) or deficit on the provision of services	(16,926)	(8,482)
Adjust net surplus or deficit on the provision of services for non cash movements:		
- Depreciation and Amortisation of Non Current Assets	(8,622)	(8,791)
- Impairment and Downward valuations	(3,327)	(1,040)
Impairment for Bad Debts	(304)	(323)

Sub-Total - Cash and Cash Equivalents	25,453	19,718
Cash and cash equivalents at the end of the reporting period	25,453	19,718
The cashflows for operating activities include the following items:		
- Interest received	(2,581)	(938)
- Interest paid	2,965	3,060
- Dividends received	(589)	(267)

Notes to the Core Financial Statements

1. Accounting Policies

a) General Principles

The Statement of Accounts summarises the Council's transactions for the 2020/21 financial year and its position at the year-end of 31 March 2021. The Council is required to prepare an annual Statement of Accounts, by the Accounts and Audit Regulations 2015, which are required to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments. Preparer's materiality has been set at £2.650m and only accounting policies and disclosures that exceed this materiality level have been provided, with the exception of politically sensitive areas of the Statement of Accounts, such as Members Allowance (Note 23) and Officers Remuneration (Note 26).

Going Concern

The accounts are prepared on a going concern basis; that is, on the assumption that the functions of the Council will continue in operational existence for a period to 31 March 2025.

As mentioned in the Narrative report (Section 7.2), the Covid-19 pandemic has had a negative financial impact on East Suffolk Council in 2020/21, and in particular the loss of income from sales, fees and charges. It is also likely to impact in future years as the economy recovers. The Medium-Term Financial Strategy shows that from 2021/22 there is an underlying budget gap in the medium term that needs to be addressed.

As at 31 March 2023, the Council had the following Earmarked Reserves available to largely enable it to absorb any shock to its income streams in the short to medium term:

- In Year Savings Reserve £3.710m
- Business Rates Equalisation Reserve £15.213m

However, a prolonged and sustained recession, combined with the need to close the already forecast budget gap over the MTFs period could put pressure on other earmarked reserves and Council projects and services.

The Housing Revenue Account (HRA) is generally less exposed to the financial impacts of the pandemic than the General Fund, although rent income will be affected to a degree.

The Council has considered the impacts of the Covid-19 pandemic on its financial position, liquidity and performance during 2021/22 and beyond including scenarios of:

- Reductions in income
- Increased expenditure
- Cashflow and liquidity
- General fund balances and reserves

The Council has also considered known and expected government funding and determined that it has sufficient liquidity from its ability to access short-term investments and sufficient general fund balances and reserves to continue to deliver services. The Medium-Term Financial Strategy projects that the General Fund balance will be £6m at 31 March 2025 and usable reserves will be £33.97m. Cash and cash equivalents are projected to be £52m at 31 March 2025. As a result, the Council is satisfied that it can prepare its accounts on a going concern basis.

Note 1 Accounting Policies (Continued)

The Council has also considered the impact as an event after the balance sheet date in Note 6 to the accounts.

b) Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed - where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are

received rather than when payments are made.

- Interest payable on borrowings and receivable on investments is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument, rather than the cash flows fixed or determined by the contract. Accrued interest is accounted for in the Balance Sheet as part of the carrying value of the financial instrument.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded on the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Where payments have been received in advance of obligations being performed, they have been recognised as a liability on the Balance Sheet.
- Works are charged as expenditure when they are completed before which they are carried as works in progress with inventories on the Balance Sheet.
- In calculating the accrual for major grant claims including Housing Benefit Subsidy, the sum receivable has been estimated using the latest information

available from the Housing Benefit system.

- Where the Council is acting as an agent for another party (e.g., in the collection of non-domestic rates (NDR) and council tax), income and expenditure are recognised only to the extent that commission is receivable by the Council for the agency services rendered or the Council incurs expenses directly on its own behalf in rendering the services.

c) Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in seven days or less from the date of acquisition and that are readily convertible to known amounts of cash without penalty and with insignificant risk of change in value. In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management process. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors. Prior period adjustments may arise due to a change in accounting policies or to correct a material error.

Note 1 Accounting Policies (Continued)

Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

d) Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service;
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the

Revaluation Reserve against which the losses can be written off; and
• amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance. Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance (known as a Minimum Revenue Provision (MRP)), by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

e) Employee Benefits

Benefits payable during employment

Short-term employee benefits are those that fall due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees and are recognised as an expense for services in the year in which

employees render service to the Council. An accrual is only made where the cost of untaken holiday entitlements and other leave carried forward into the next financial year is material. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The material accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

Termination benefits

Termination benefits are amounts payable due to a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits. They are charged on an accruals basis to the appropriate service area or, where applicable to a corporate service area, at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

Note 1 Accounting Policies (Continued)

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund Balance to be

charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to

the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-employment benefits

Employees of the Council are members of the Local Government Pension Scheme, administered by Suffolk County Council, to provide defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council.

The Local Government Pension Scheme is accounted for as a defined benefits scheme:

- The liabilities of the Suffolk County Council pension fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method - i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees,

based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees.

- Liabilities are discounted to their value at current prices. The discount rate employed for the 2020/21 accounts is 2.00% which is derived by reference to market yields on high quality corporate bonds at the reporting date using a corporate bond yield curve constructed based on the constituents of the iBoxx AA corporate bond index. The currency and term of the high-quality corporate bonds used to set the discount rate is consistent with the currency and term of the liabilities.
- The assets of the Suffolk County Council pension fund attributable to the Council are included in the Balance Sheet at their fair value:
 - quoted securities - current bid price;
 - unquoted securities - professional estimate;
 - unitised securities - current bid price; and
 - property - market value.
- The change in the net pensions liability is analysed into the following components:
 - Service cost comprising:
 - current service cost - the increase in liabilities as a result of years of service earned this year - allocated in the

- Comprehensive Income and Expenditure Statement to the services for which the employees worked;
- past service cost - the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years - debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Financial Services, Corporate Performance and Risk Management; and
- net interest on the net defined benefit liability, i.e. net interest expense for the Council – the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the

Note 1 Accounting Policies (Continued)

period to the net defined benefit liability at the beginning of the period – taking into account any changes in the net defined benefit liability during the

period as a result of contribution and benefit payments.

- Re-measurements comprising:
- the return on plan assets – excluding amounts included in net interest on the net defined benefit liability – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure; and
- actuarial gains and losses - changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions - charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- Contributions paid to the Suffolk County Council Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and

credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact on the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

f) Events After the Reporting Period

Events after the reporting period are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period - the Statement of

Accounts is adjusted to reflect such events.

- those that are indicative of conditions that arose after the reporting period - the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts

g) Financial Instruments

Financial liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes party to the contractual provisions of a financial instrument and are initially measured at fair value and carried at their amortised cost.

Note 1 Accounting Policies (Continued)

Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the

rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement. Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be

spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement

Financial assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- amortised cost;
- fair value through profit or loss; and
- fair value through other comprehensive income.

The Council's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure

Note 1 Accounting Policies (Continued)

Statement is the amount receivable for the year in the loan agreement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost, either on a 12-month or lifetime basis.

The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the authority. Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Financial Assets Measured at Fair Value through Profit or Loss

Financial assets that are measured at Fair Value through Profit or Loss are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the authority can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

h) Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third-party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments; and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, [Note 1 Accounting Policies \(Continued\)](#)

or future economic benefit or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which any conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income and Expenditure (non-ringfenced

revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement. Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet

to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Account. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Account are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Community Infrastructure Levy

The Council has elected to charge a Community Infrastructure Levy (CIL). The levy will be charged on new builds (chargeable developments for the Council) with appropriate planning consent. The Council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund a number of infrastructure projects (these include transport, flood defences and schools) to support the development of the area. CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with

the accounting policy for government grants and contributions set out above. CIL charges will be largely used to fund capital expenditure. However, a small proportion of the charges may be used to fund revenue expenditure.

i) Interests in Companies and Other Entities

In May 2008, Waveney District Council signed an agreement with Norse Commercial Services Limited (NCS). A new company, Waveney Norse Limited was incorporated on 23 May 2008 and began trading on 1 July 2008. The Council transferred the responsibility for the delivery of the refuse, cleansing and maintenance services to Waveney Norse Limited. East Suffolk Council has a 19.9% share in the Company. Profits and losses are shared 50%/50% with NCS.

On 1 April 2009, Suffolk Coastal District Council entered into a service contract with Suffolk Coastal Services Limited (now Suffolk Coastal Norse Limited) for the provision of a range of services including waste management and grounds and buildings maintenance. East Suffolk Council has 20% of the shares of Suffolk Coastal Norse which is a subsidiary of the Norse Group of companies which is itself a wholly owned subsidiary of Norfolk County Council. Profits and losses are shared 50%/50% with Suffolk Coastal Norse.

Following a review of the Group Accounting requirements in the 2018/19 Code of Practice on Local Authority Accounting (the Code), the councils' accounting relationships with both Waveney Norse Limited and Suffolk Coastal Norse Limited companies were determined to be Associates. In the Council's own single-entity accounts, the interests in Waveney Norse Limited and Suffolk Coastal Norse Limited are recorded as a financial asset at cost, less any provision for losses.

The Group Accounting information for Waveney Norse Limited and Suffolk Coastal Norse Limited is based on their financial results at their accounting date of 1 April 2021. Further detailed information regarding the agreement is set out in the Notes to the Core [Note 1 Accounting Policies \(Continued\)](#)

Financial Statements (Interests in Companies and Other Entities).

East Suffolk Holdings Limited is wholly owned by the Council and was incorporated on 24 October 2019. East Suffolk Holdings is the sole shareholder of East Suffolk Construction Services Limited, East Suffolk Property Developments Limited, and East Suffolk Property Investments Limited, all of which were incorporated on 26 November 2019. All of these companies have been dormant since this date, and it is intended to commence trading in 2021/22.

j) Investment Properties

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, being the price that would be received to sell such an

asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest and best use. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out

of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

k) Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee – Finance leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset.

Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the years in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment - applied to write down the lease liability; and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Note 1 Accounting Policies (Continued)

Property, plant and equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore

substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

The Council as Lessor – Operating leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other

Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

l) Overheads and Support Services

The costs of overheads and support services are charged to service segments in accordance with the Council's arrangement for accountability and financial performance.

m) Fair Value Measurement

The Council measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments such as Public Work Loans Board borrowing at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data

is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or

Note 1 Accounting Policies (Continued)

- liabilities that the Council can access at the measurement date;
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; or
- Level 3 – unobservable inputs for the asset or liability.

n) Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as property, plant and equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of property, plant and equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains

but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance), and expenditure below a de-minimis level of

£10,000, is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price;
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase (for example exchange for non-monetary asset) is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction - depreciated historical cost;
- dwellings – current value, determined using the basis of existing use value for social housing (EUV-SH);
- surplus assets – the current value measurement base is fair value, estimated at highest and best use from a market participant's perspective; or
- all other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value - EUV).

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value. Where non-property assets have short useful

lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the Balance Sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year-end, but as a minimum every five

Note 1 Accounting Policies (Continued)

years. The effective date of revaluation of those assets revalued in 2020/21 is:

- 31 December 2020 for assets measured at current value;
- 31 December 2020 for assets measured at fair value and those assets at risk of material movements in their valuation during the year; and
- 31 March 2021 for assets measured at social housing discount.

Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Surplus or Deficit on the Provision of Services where they arise from the reversal of a revaluation or impairment loss previously charged to a service. Where decreases in value are identified, the revaluation loss is accounted for as follows:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- where there is no or insufficient balance in the Revaluation Reserve, the carrying amount of the asset is written down against the relevant service line(s) in

the Comprehensive Income and Expenditure Statement for the amount not covered by any Revaluation Reserve balance for that asset.

The Revaluation Reserve contains revaluation gains recognised since 1st April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall. Where

impairment losses are identified they are accounted for as follows:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- where there is no or insufficient balance in the Revaluation Reserve, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement for the amount not covered by any Revaluation Reserve balance for that asset.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all property, plant and equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain community

assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

Note 1 Accounting Policies (Continued)

- dwellings and other buildings - straight-line allocation over the useful life of the property as estimated by the valuer;
- vehicles, plant, furniture and equipment - straight line allocation over the useful life of the asset, as advised by a suitably qualified officer; or
- infrastructure - straight-line allocation over 40 to 60 years.

Where an item of property, plant and equipment asset has major components whose cost is significant in relation to the total cost of the item, and whose life is materially different to that of the main asset, the components are depreciated separately. This will generally apply where the cost of the potential component exceeds 25% of the total cost of the asset, and where the life of that component is less than 50% of the expected life of the main asset. Below those de minimis levels, it is unlikely that a failure to account separately for components would have a material impact on depreciation charges, using the Council's capital expenditure de minimis level of £10,000 as a guide for material impact.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account. Disposals and non-current assets held for sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an asset held for sale. Irrespective of the timing of any decision an asset is surplus; the accounting treatment will apply from 1 April in that year. The asset is revalued immediately

before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously recognised losses in the Surplus or Deficit on Provision of Services. Depreciation is not charged on assets held for sale.

If assets no longer meet the criteria to be classified as assets held for sale, they are reclassified back to non-current assets and

valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as held for sale, and their recoverable amount at the date of the decision to sell.

Assets that are to be abandoned or scrapped are not reclassified as assets held for sale

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether property, plant and equipment or assets held for sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals are payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only

be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the Capital Financing Requirement).

Note 1 Accounting Policies (Continued)

Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

o) Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties. Where the obligation is expected to be settled within 12 months of the Balance

Sheet date the provision is recognised as a Current Liability in the Balance Sheet. Other provisions are recognised as Long-Term Liabilities.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year - where it

becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

The Council makes specific provision in the Collection Fund for doubtful debts in relation to receipt of council tax and business rates, and in the Comprehensive Income and Expenditure Statement for doubtful debts in relation to other service debtors. These provisions are based on the age profile of the debts outstanding at the end of the financial year, reflecting historical collection patterns, and are included in the Balance Sheet as an adjustment to Debtors.

Contingent liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required, or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed

Note 1 Accounting Policies (Continued)

by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

p) Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance or Housing Revenue Account in the Movement in Reserves Statement. When expenditure to be financed from a reserve, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance or Housing Revenue Account in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure. Certain reserves are kept in relation to non-current assets, financial instruments, retirement and employee benefits and therefore do not represent usable resources for the Council - these Unusable Reserves are

explained elsewhere in the relevant accounting policies.

q) Council Tax and Non-Domestic Rates

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

Accounting for council tax and NDR

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the authority's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement. The Balance Sheet includes the Council's share of the end of year balances in respect of council tax and NDR relating to arrears,

impairment allowances for doubtful debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood arising from a past event that payments due under the statutory arrangements will not be made (fixed or determinable payments), the asset is written down and a charge made to the Collection Fund. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

r) VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

2. Accounting Standards that have been issued but not yet been adopted

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the Code:

- IFRS 16 Leases will require local authorities that are lessees to recognise most leases on their balance sheets as right-of-use assets with corresponding lease liabilities (there is recognition for low-value and short-term leases). CIPFA/LASAAC have deferred implementation of IFRS16 for local government to 1 April 2022 in light of Covid-19 pressures.

- Definition of a Business: Amendments to IFRS 3 Business Combinations will clarify the definition of a business, with the aim of helping entities to determine whether a transaction should be accounted for as an asset acquisition or a business combination. This will take effect for asset acquisitions after 1st April 2021. This is likely to have minimal or no impact on East Suffolk Council.
- Interest Rate Benchmark Reform: Amendments to IFRS 9, IAS 39 and IFRS 7, and Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16, will provide certain reliefs in connection with interest rate benchmark reform and will be included within the 2021/22 CIPFA Code. The changes are not expected to have a material impact on the Council's single entity statements or group statements.

3. Critical judgements in applying accounting policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- The Council has examined its leases and classified them as either operational or finance leases. In some cases, the lease transaction is not always conclusive, and the Council uses judgement in determining whether the lease is a finance lease arrangement that transfers substantially all the risks and rewards incidental to ownership. In reassessing the lease, the Council has estimated the implied interest rate within the lease to calculate interest and principal payments.
- Suffolk Coastal Norse Limited and Waveney Norse Limited are recognised as Associates in the Council's financial statements and Group Accounts have been prepared in 2020/21. The Council's arrangement for leisure services provision with Sentinel Leisure Trust which commenced in 2011/12 and which was terminated in 2020/21 has been assessed as not requiring Group Accounting, following a review against the guidance in the Code. East Suffolk Holdings Limited is wholly owned by the Council and was incorporated on 24 October 2019. East Suffolk Holdings is the sole shareholder of East Suffolk Construction Services Limited, East Suffolk Property Developments Limited, and East Suffolk Property Investments Limited, all of which were incorporated on 26 November 2019. All these companies were dormant in 2020/21 and are intended to commence trading in 2021/22. Consequently, these companies have been assessed as not requiring Group Accounting in 2020/21. The position will be reviewed annually and other areas potentially requiring Group Accounts will be kept under review.

Note 3 Critical judgements in applying accounting policies (Continued)

- The nature of the accounting treatment in respect of the use of the Council's assets by Waveney Norse Limited has not been considered an embedded lease under IFRIC 4 as the Council retains ultimate control over those assets.
- Any potential legal claims by or against the Council are not adjusted in the accounts but are disclosed as part of Contingent Liabilities or Assets as required under the CIPFA Code.
- As part of the National Non-Domestic Rates (NNDR1) return in January 2020, the Council had to estimate the business rates income expected to be received in 2020/21 based on several assumptions. The most significant assumption was in relation to the provision for appeals. There are two separate

provisions, one relating to the 2010 Valuation list and the other to the 2017 Valuation list. The 2010 provision was based on Government guidance and trend analysis in respect of appeals that had been lodged with the Valuation Office, backdated to 1 April 2010 where an appeal was lodged before 31 March 2015 or backdated to 1 April 2015 where the appeal was lodged after this date but before 31 March 2017. The relevant percentage used because of this was 4.04%.

- The 2017 Valuation list provision methodology has been amended with effect from the 2018/19 NNDR3 year-end return. With the new check, challenge, appeal process, there has been a significant reduction in appeals in respect of bills issued since 2017/18. As well as provision for actual challenges lodged based on the proposed reductions, a provision of 2.7% has been calculated for the two large hereditaments within the Council's valuation list and then for the remaining liabilities, this has been based on all remaining unchallenged assessments. Provision has been calculated by taking the rateable value of the unchallenged assessments, multiplying this by the business rates multiplier to get the income due, applying the 2.7% trend analysis referred to above and then finally taking 8.78% of the value as the provision based on the number of challenges lodged to date. This percentage has reduced from 25% in 2019/20 as once Covid Material Change in Circumstances (MCC) appeals were excluded the volume of appeals relating to the 2017 valuation list is less than originally expected. The government has stated that Covid MMC appeals will not be allowed and will compensate businesses through a business rate relief scheme instead.

4. Assumptions made about the future and other major sources of estimation uncertainty

The preparation of Statement of Accounts requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for the income and expenditure during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. The key judgements and estimation uncertainty that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, plant & equipment	<p>Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets.</p> <p>Uncertainty regarding public finances and local government finance makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, potentially bringing into doubt the useful lives assigned to assets.</p>	<p>If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls.</p> <p>It is estimated that the annual depreciation charge for buildings would increase by £615k for non-housing properties and £76k for council dwellings for every year that useful lives had to be reduced. Whilst this risk is inherent in the valuation process, any change to the useful lives of assets and the subsequent depreciation charge will not impact on the Council's usable reserve balances, as depreciation charges do not fall on the taxpayer and are removed in the Movement in Reserves Statement.</p>
Pension's liability	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.</p>	<p>Whilst the effects on the net pension's liability of changes in individual assumptions can be measured, they are complex and inter-related. Any change in estimates can have a material impact on the Council's Accounts. It is important to note, however, that the impact of pension costs is protected in the short to medium term under national pension arrangements.</p>
Arrears and Provisions for Doubtful Debts	<p>In the light of the economic impacts of the Covid-19 pandemic on business and household finances, the impairment allowances for doubtful debts have been reviewed. Provisions for doubtful debts have been increased in respect of council tax, business rates; housing benefit overpayments; and sundry debtors.</p>	<p>If collection rates were to deteriorate an increase in the amount of the impairment of the doubtful debts would be required. If necessary, such a sum could be met from reserves and balances in the short term. Monitoring of the Council's debt will be intensified in the light of the Covid-19 pandemic.</p>

Note 4 Assumptions made about the future and other major sources of estimation uncertainty (Continued)

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Housing benefit subsidy	In preparing the accounts for the year the Council has submitted a grant claim to the Department for Work and Pensions in relation to Housing Benefit paid in the year to the value of £36.5 million. The grant claim is subject to detailed audit and the accounts have been prepared on the basis that all entries on the claim have been correctly stated.	If the auditor identifies errors or system weakness within the grant claim there is a risk the grant income shown within the accounts is over-stated. If this were to be the case, any shortfall would reduce the General Fund balance.
Business rates appeals	<p>Under the Business Rates Retention scheme, which came into operation in April 2013, the Council as Billing Authority collects all Non-Domestic Rates from local business and distributes these to Central Government (50%), Suffolk County Council (10%) and Suffolk Coastal District Council (40%).</p> <p>Changes have been made by the Government in several areas since the introduction of the system, such as the imposition of a time limit for backdating appeals and the capping of year-on-year increases in rates bills. In general, the Council assumes that there will be no further significant in-year changes and fundamental changes to the system in the medium term.</p> <p>The Council must make assumptions in the returns to Government required under the system. These include estimates of growth or contraction in the rates base; the value of outstanding appeals; the value of reliefs to be awarded; and the value of doubtful debts. Methodologies for the estimation of these variables have been continually refined since April 2013.</p>	If there are in-year changes to the system and there are actual variances from the assumptions on key variables included in Government returns, these will be reflected in changes in the Collection Fund surpluses or deficits attributable to Central Government, Suffolk County Council and East Suffolk Council in future years based on their distribution proportions.

Note 4 Assumptions made about the future and other major sources of estimation uncertainty (Continued)

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Fair value measurements	<p>When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (i.e. Level 1 inputs), their fair value is measured using valuation techniques (e.g. quoted prices for <i>similar</i> assets or liabilities in active markets or the discounted cash flow (DCF) model).</p> <p>Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk.</p> <p>However, changes in the assumptions used could affect the fair value of the Council's assets and liabilities.</p> <p>Where Level 1 inputs are not available, the Council employs relevant experts to identify the most appropriate valuation techniques to determine fair value (for example for investment properties, the Council's chief valuation officer and external valuer).</p> <p>Information about the valuation techniques and inputs used in determining the fair value of the authority's assets and liabilities is disclosed in notes 14 and 15 below.</p>	The fair value for all surplus assets has been based on the market approach using current market conditions and recent sales prices and other relevant information for similar assets in the authority's area.
Covid-19 Pandemic	Assumptions in the MTFS based on the current assessment of the Covid-19 pandemic and economic impact.	This could have potential further adverse or positive impact on the Councils income streams depending on how the economy recovers.

5. Comprehensive Income & Expenditure Statement: Material items of income and expenditure

When items of income and expenditure are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

For 2020/21, there is one item to disclose:

Active Suffolk

The Council is the lead authority hosting Active Suffolk – The County Sports Partnership for Suffolk. As Active Suffolk is not a legal entity, all income and expenditure goes through the Statement of Accounts for the Council but is identifiable within its own department codes. Active Suffolk has its own independent Board made up of 12 individuals who shall direct the affairs of Active Suffolk (previously named Suffolk Sport) in accordance with its objectives and Rules. It will be responsible for maintaining the focus of Active Suffolk and driving the business forward. Active Suffolk is funded through grant funding provided by Sports England and contributions from each of the Suffolk Local Authorities. The Council does not make any decisions on how this funding is spent; it is the responsibility of the Active Suffolk Board. The Income and Expenditure in relation to Active Suffolk is as follows:

Active Suffolk	2020/21 £,000	2019/20 £,000
Income:		
Educational Courses	(4)	(24)
Leisure Activity Fees	(4)	(34)
Contributions from Local Authorities	(100)	(125)
Contributions from NHS	(6)	(15)
Contributions from other entities	(813)	(843)
	(927)	(1,041)
Expenditure:		
Employee expenses	803	725
Transport costs	-	4
Supplies and services	84	152
Grants and subscriptions	116	56
	1,003	937
(Surplus) transferred to earmarked reserves	76	(104)

6. Events after the Balance Sheet date

The Statement of Accounts was authorised for issue by the Chief Finance Officer on 28 June 2021. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2020, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information. Where events taking place before this date did not relate to conditions at the Balance Sheet date but provided information that is relevant to an understanding of the Council's financial position, these events are disclosed as part of this note. There are four non-adjusted Post Balance Sheet Events to disclose as follows:

Covid-19 Impacts

Since the removal of all Covid restrictions in England on 19 July 2021, Covid has continued to make an impact. At the end of November another variant, Omicron, was discovered and has since then become the dominant variant in the UK. A booster vaccination programme was quickly established; however, impacts have still been felt with Covid cases rising rapidly again. Self-Isolation payments have continued with £658,000 paid out from April 2021 to the end of January 2022. The Council also received in January 2022, a further £6.939m in business grant funding to be paid out by the end of March 2022.

Suffolk Coastal Norse Limited and Waveney Norse Limited

In December 2021, the Council gave notice to Norse Commercial Services Limited that it intends to terminate the joint venture arrangements for provision of services through Suffolk Coastal Norse Limited and Waveney Norse Limited with effect from July 2023. The council intends to establish a local authority trading company for the provision of these services.

Freeport East

In December 2021 Freeport East was legally designated a Freeport under the Designation of Freeport Tax Sites (Freeport East) Regulations 2021. Freeport East includes Tax Sites at Felixstowe (East Suffolk Council), Harwich (Tendring District Council), and Gateway 14 (Mid Suffolk District Council). East Suffolk Council is the accountable body for Freeport East, which will entail the receipt and distribution of significant amounts of Government seed funding and retained rates income.

Energy Rebate

In February 2022 HM Treasury announced all households in Council Tax Bands A-D will receive £150 rebate as a one-off payment paid by Local Authorities from April 2022. The Council will receive grant funding in March 2022 to cover the payments. In addition, there is a discretionary fund to provide support to vulnerable people and individuals on low incomes that do not pay council tax or pay council tax for properties in Bands E-H. This will again be covered by grant funding received in March 2022.

7. Expenditure and Funding Analysis

This analysis shows how annual expenditure is used and funded from resources (government grants, council tax and business rates) by Councils in comparison with those resources consumed or earned by the council in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the council's services. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Net Expenditure in the Comprehensive Income & Expenditure Statement £'000	2020/21 (Note 9)				Net Expenditure Chargeable to GF & HRA Balances £'000	**See Note 33 for details of the restatement	Net Expenditure in the Comprehensive Income & Expenditure £'000	2019/20 (Restated**) (Note 9)				Net Expenditure Chargeable to GF & HRA Balances £'000

**See Note 33 for details of the restatement

* For a split of this balance between the General Fund and the HRA - see Movement in Reserves Statement

Note 7 Expenditure and Funding Analysis (Continued)

The following paragraphs explain the adjustments made to the Comprehensive Income and Expenditure Statement to arrive at the Expenditure and Funding Analysis Note:

Adjustments for capital purposes

This column adds in depreciation and impairment and revaluation gains and losses in the services line, and for Other operating expenditure and adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets. For financing and investment income and expenditure, the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices. Within taxation and non-specific grant income and expenditure capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non-Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Net change for the pension's adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income. For services this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs. For Financing and investment income and expenditure the net interest on the defined benefit liability is charged to the CIES.

Other Differences

This includes other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute. For Financing and investment income and expenditure the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts. The charge under Taxation and non-specific grant income and expenditure represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

8. Expenditure and Income analysed by nature

The Councils Expenditure and Income is analysed by type in the table below:

	2020/21 £'000	2019/20 (Restated) £'000
Expenditure		
Employee benefits expenses	32,564	33,218
Other service expenses	103,199	89,935
Dereciation, amortisation, impairment	13,055	9,813
Interest payments	4,178	5,022
Net (gains)/losses on financial assets at fair value through profit and loss	(281)	1,164
Impairment Losses including Reversals of Impairment Losses or Impairment Gains	304	323
Precepts and levies	6,633	6,302
Payments to Government in respect of the Housing Capital Receipts Pool	288	430
Business rates tariff payment and levy	27,640	27,250
Gain or loss on the disposal of assets	945	(646)
Total expenditure	188,525	172,811
Income		
Fees, Charges and other service income	(117,498)	(98,898)
Interest and investment income	(1,151)	(1,760)
Income from council tax, non-domestic rates, district rate income	(48,076)	(60,093)
Government grants and contributions	(38,327)	(20,129)
Total income	(205,052)	(180,880)
Surplus or deficit on the provision of services	(16,527)	(8,069)

9. Adjustments between accounting basis and funding basis under regulation

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure. The following sets out a description of the reserves that the adjustments are made against:

General Fund Balance

The General Fund is the statutory fund into which all the receipts of the Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year. However, the balance is not available to be applied to funding HRA services.

Housing Revenue Account Balance

The Housing Revenue Account Balance reflects the statutory obligation to maintain a revenue account for local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the Council's landlord function or (where in deficit) that is required to be recovered from tenants in future years.

Major Repairs Reserve

The Council is required to maintain the Major Repairs Reserve, which controls an element of the capital resources limited to being used on capital expenditure on HRA assets or the financing of historical capital expenditure by the HRA. The balance shows the capital resources that have yet to be applied at the year-end.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

Capital Grants Unapplied Account

The Capital Grants Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies, but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

Note 9 Adjustments between accounting basis and funding basis under regulation (Continued)

2020/21	Usable Reserves						
	General	Housing	Major	Capital	Capital Grants	Total	Movement
	Fund	Revenue	Repairs	Receipts	Unapplied	Usable	in Unusable
	Balance	Account	Reserve	Reserve	Account	Reserves	Reserves
	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Adjustments Involving the Capital Adjustment Account:							
<u>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:</u>							
- Charges for depreciation and impairment of non current assets	(5,111)	-	(3,423)	-	-	(8,534)	8,534
- Revaluation losses on Property, Plant and Equipment	(4,911)	1,584	-	-	-	(3,327)	3,327
- Movements in the market value of Investment Properties	(1,106)	-	-	-	-	(1,106)	1,106
- Amortisation of intangible assets	(71)	-	(17)	-	-	(88)	88
Finance Lease capital payments	-	-	-	-	-	-	-
Expenditure capitalised under Approvals:							
- Capital grants and contributions that have been applied to capital financing	376	446	-	-	-	822	(822)
- Revenue expenditure funded from capital under statute	(3,785)	-	-	-	-	(3,785)	3,785

Note 14 Property, Plant & Equipment (Continued)

Depreciation

Depreciation is charged on a straight-line basis over the estimated useful life of each depreciating asset. The estimated useful life of each category of asset is as follows:

Estimated Life (Years)	Estimated Life (Years)
Council dwellings	35 to 60
Other land and buildings	30 to 60
HRA garages	10 to 25
Vehicles, plant and equipment	5 to 20
Infrastructure assets	40 to 60
Community assets	60
Other depreciating assets	40 to 60

Fair Value Measurement of Surplus Asset

Fair Value Hierarchy - All the Councils' surplus assets have been assessed as having level 2 inputs as at 31 March 2021. Valuation Techniques used to determine Level 2 Fair Values for Surplus Assets are Significant Observable Inputs (Level 2). The fair value for all surplus assets has been based on the market approach using current market conditions and recent sales prices and other relevant information for similar assets in the Council area. The fair value of surplus assets as at 31 March 2021 was £6.546 million (value as at 31 March 2020 was £6.474 million).

Capital commitments

At 31 March 2021, the Council had contractual commitments of £21.6 million relating to the Lowestoft Flood Risk Management Project.

Effects of changes in estimates

There were no material changes to accounting estimates for property, plant and equipment in 2020/21.

Revaluations

The following statement shows the progress of the Council's programme of revaluation of property, plant and equipment. The Council carries out a rolling programme that ensures that all property, plant and equipment required to be measured at current value is revalued at least every five years. All valuations, with the exception of Council dwellings were carried out by the Council's in-house valuers. NPS Property Services Ltd carried out the beacon valuations of Council Dwellings. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The basis for valuation of non-current assets is set out in the Statement of Accounting

Note 14 Property, Plant & Equipment (Continued)

Policies. There were no significant assumptions made by the valuer in the year. The effective date of revaluation of those assets revalued during 2020/21 was:

- 31 December 2020 for assets measured at current value, fair value and those assets at risk of material movements in their valuation during the year; and
- 31 March 2021 for assets measured at social housing discount.

	Council Dwellings £'000	Other Land and Buildings £'000	Vehicles, Plant & £'000	Infrastructure Assets £'000	Community Assets £'000	Surplus Assets £'000	Assets Under Construction £'000	Land £'000	Total PPE £'000
Carried at historical cost			16,302	57,942	1,674	-	10,281	3,641	89,840
Value at current value as at:									
31 March 2021	222,560	43,131	-	-	-	6,522	-	-	272,213
31 March 2020		15,605	-	-	-	13	-	-	15,618
31 March 2019		11,735	-	-	-	-	-	-	11,735

31 March 2017		10,867	-	-	-	11	-	-	10,878
Total Cost or Valuation	222,560	99,705	16,302	57,942	1,674	6,546	10,281	3,641	418,651

15. Assets held for sale

	Current Assets	
	2020/21 £'000	2019/20 £'000
Balance outstanding at start of year	4	2,148
Assets declassified as held for sale:		
- Property, Plant and Equipment	-	(2,144)
Balance outstanding at year-end	4	4

16. Investment Properties

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	2020/21	2019/20
	£'000	£'000
Rental income from investment properties	364	282
Direct operating expenses arising from investment properties	(114)	(120)
Net gain/(loss)	250	162

There are no restrictions on the Council's ability to realise the value inherent in its investment properties or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance, or enhancement. The following table summarises the movement in the fair value of investment properties over the year:

	2020/21	2019/20
	£'000	£'000
Balance at 1 April	2,900	2,882
Additions:		
- Purchases	3,206	-
Net gains/losses from fair value adjustments	(1,106)	18
Balance at 31 March	5,000	2,900

Fair Value Measurement of Investment Properties

Fair Value Hierarchy - all the Council's investment properties have been assessed as having level 2 inputs as at 31 December 2020. Valuation Techniques used to determine Level 2 Fair Values for Surplus Assets are Significant Observable Inputs (Level 2). The fair value for all surplus assets has been based on the market approach using current market conditions and recent sales prices and other relevant information for similar assets in the authority's area.

17. Financial Instruments

Classifications

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Non-exchange transactions, such as those relating to taxes, benefits and government grants, do not give rise to financial instruments.

Financial Assets

A financial asset is a right to future economic benefits controlled by the Council that is represented by cash, equity instruments or a contractual right to receive cash or other financial assets or a right to exchange financial assets and liabilities with another entity that is potentially favourable to the Council. The financial assets held by the Council during the year are accounted for under the following two classifications:

- Amortised cost (where cash flows are solely payments of principal and interest and the Council's business model is to collect those cash flow) comprising:
 - cash in hand;
 - bank current and deposit accounts with Lloyds, Barclays and Santander banks;
 - fixed term deposits with banks and building societies;
 - loans to other local authorities;
 - lease receivables; and
 - trade receivables for goods and services provided.

- Fair value through profit and loss (all other financial assets) comprising pooled property fund and diversified income fund managed by CCLA fund managers.

Financial assets held at amortised cost are shown net of a loss allowance reflecting the statistical likelihood that the borrower or debtor will be unable to meet their contractual commitments to the Council.

Financial Liabilities

A financial liability is an obligation to transfer economic benefits controlled by the Council and can be represented by a contractual obligation to deliver cash or financial assets or an obligation to exchange financial assets and liabilities with another entity that is potentially unfavourable to the Council.

All of the Council's financial liabilities held during the year are measured at amortised cost and comprised:

- long-term loans from the Public Works Loan Board;
- short-term loans from other local authorities;
- overdraft with Lloyds bank;
- lease payables; and
- trade payables for goods and services received.

Note 17 Financial Instruments (Continued)

Balances

The financial liabilities disclosed in the Balance Sheet are analysed across the following categories:

Financial Liabilities	Long-term	Short-term	Long-term	Short-term
	2020/21	2020/21	2019/20	2019/20
	£'000	£'000	£'000	£'000
Loans at amortised cost:				
Principle sum borrowed	65,967	11,286	77,413	-
Total Borrowing	65,967	11,286	77,413	-
Liabilities at amortised cost:				
Creditors	15	4,468	7	7,118
Finance Leases	5,779	300	6,079	280
Financial Liabilities in Creditors	5,794	4,768	6,086	7,398
Non Financial Liabilities	92,048	51,844	59,666	31,047
Total Financial Liabilities	163,809	67,898	143,165	38,445

The financial assets disclosed in the Balance Sheet are analysed across the following categories:

Financial Assets	Long-term	Short-term	Long-term	Short-term
	2020/21	2020/21	2019/20	2019/20
	£'000	£'000	£'000	£'000
At amortised cost:				
Principle	-	71,000	-	84,000

Non Financial Assets	1,789	38,037	1,152	14,110
Total Assets	36,046	140,014	20,068	123,508

Note 17 Financial Instruments (Continued)

Offsetting Financial Assets and Liabilities

Financial assets and liabilities are set off against each other where the Council has a legally enforceable right to set off and it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. The table below shows those instruments that have been offset on the balance sheet.

		31-Mar-21 (Liabilities)	Net		31-Mar-20 (Liabilities)	Net	
	Gross Assets (Liabilities)	assets set off	Position on Balance		Gross Assets (Liabilities)	assets set off	Position on
	£'000	£'000	£'000		£'000	£'000	£'000
Bank accounts in credit	20,221		20,221		18,675	-	18,675
Bank overdrafts		(9,771)	(9,771)		-	(5,958)	(5,958)
Total Financial Assets (Liabilities)			10,450				12,717

Note 17 Financial Instruments (Continued)

Gains and Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments consist of the following:

	2020/21			2019/20		
	Amortised	Fair Value through Profit and Loss	Total	Amortised	Fair Value through Profit and Loss	Total
	cost			cost		
	£'000	£'000	£'000	£'000	£'000	£'000
Interest expense	2,864	-	2,864	3,016	-	3,016
Losses from change in fair value	-	(281)	(281)	-	1,164	1,164
Impairment losses	304	-	304	323	-	323
Interest payable and similar charges	3,168	(281)	2,887	3,339	1,164	4,503
Interest income	(569)	-	(569)	(1,071)	-	(1,071)
Interest and investment income	(569)	-	(569)	(1,071)	-	(1,071)
Net gain / (loss) for the year	2,599	(281)	2,318	2,268	1,164	3,432

Fair Values

Financial instruments, except those classified at amortised cost, are carried in the Balance Sheet at fair value. For most assets, including pooled property funds, the fair value is taken from the market price.

Financial instruments classified at amortised cost are carried in the Balance Sheet at amortised cost. Their fair values have been estimated by calculating the net present value of the remaining contractual cash flows at 31 March 2021, using the following methods and assumptions:

- Loans borrowed by the Council have been valued by discounting the contractual cash flows over the whole life of the instrument at the appropriate market rate for local authority loans.
- The fair values of finance lease assets and liabilities have been calculated by discounting the contractual cash flows (excluding service charge elements) at the appropriate AA-rated corporate bond yield.
- No early repayment or impairment is recognised for any financial instrument.

Note 17 Financial Instruments (Continued)

- The fair value of short-term instruments, including trade payables and receivables, is assumed to approximate to the carrying amount given the low and stable interest rate environment.

Fair values are shown in the table below, split by their level in the fair value hierarchy:

- Level 1: fair value is only derived from quoted prices in active markets for identical assets or liabilities, e.g. bond prices
- Level 2: fair value is calculated from inputs other than quoted prices that are observable for the asset or liability, e.g. interest rates or yields for similar instruments
- Level 3: fair value is determined using unobservable inputs, e.g. non-market data such as cash flow forecasts or estimated creditworthiness

	31-Mar-21		31-Mar-20	
	Carrying Amount £000s	Fair Value £000s	Carrying Amount £000s	Fair Value £000s
PWLB Loans (Level 2)	77,253	91,370	77,413	91,738

The fair value of financial liabilities held at amortised cost is higher than their balance sheet carrying amount because the authority's portfolio of loans includes a number of loans where the interest rate payable is higher than the current rates available for similar loans as at the Balance Sheet date.

Recurring Fair Value Measurement	Input level in Fair Value Hierarchy	Valuation technique used to measure Fair Value	31-Mar-21 Fair Value £000s	31-Mar-20 Fair Value £000s
Fair Value through Profit & Loss				
CCLA Property Fund	1	Unadjusted quotes prices in active markets for identical shares	9,203	9,270
CCLA Diversified Income Fund	1	Unadjusted quotes prices in active markets for identical shares	4,774	4,404
Ninety One Diversified Income Fund	1	Unadjusted quotes prices in active markets for identical shares	4,976	-

Note 17 Financial Instruments (Continued)

Risks

The Council complies with CIPFA's Code of Practice on Treasury Management and Prudential Code for Capital Finance in Local Authorities, both revised in December 2017.

In line with the Treasury Management Code, the Council approves a Treasury Management Strategy before the commencement of each financial year. The Strategy sets out the parameters for the management of risks associated with financial instruments. The Council also produces Treasury Management Practices specifying the practical arrangements to be followed to manage these risks.

The Treasury Management Strategy includes an Investment Strategy in compliance with the Ministry for Housing, Communities and Local Government Guidance on Local Government Investments. This Guidance emphasises that priority is to be given to security and liquidity, rather than yield. The Council's Treasury Management Strategy and its Treasury Management Practices seek to achieve a suitable balance between risk and return or cost.

The main risks covered are:

- Credit Risk: The possibility that the counterparty to a financial asset will fail to meet its contractual obligations, causing a loss to the Council.
- Liquidity Risk: The possibility that the Council might not have the cash available to make contracted payments on time.
- Market Risk: The possibility that an unplanned financial loss will materialise because of changes in market variables such as interest rates or equity prices.

Credit Risk: Treasury Investments

The Council manages credit risk by ensuring that treasury investments are only placed with organisations of high credit quality as set out in the Treasury Management Strategy. These include commercial entities with a minimum long-term credit rating of A-, the UK government, other local authorities, and organisations without credit ratings upon which the Council has received independent investment advice. Recognising that credit ratings are imperfect predictors of default, the Council has regard to other measures including credit default swap and equity prices when selecting commercial entities for investment.

A limit of £25m of the total portfolio is placed on the amount of money that can be invested with a single counterparty (other than the UK government). For unsecured investments in banks, building societies and companies, a smaller limit of £20m applies. The Council also sets limits on investments in certain sectors. No more than £20m in total can be invested for a period longer than one year.

Note 17 Financial Instruments (Continued)

The table summarises the credit risk exposures of the Council's treasury investment portfolio by credit rating and remaining time to maturity:

Credit Rating	31-Mar-21		31-Mar-20	
	Long Term £000s	Short Term £000s	Long Term £000s	Short Term £000s
Local Authorities - AAA	15,074	71,102	18,676	84,000
AAA				
AA+				
AA				
AA-				
A+				
A				
A-				
BBB+				
Unrated Pooled Funds	18,957			
Total Investments	34,031	71,102	18,676	84,000

Credit Risk: Trade and Lease Receivables and Contract Assets

The Council's credit risk on lease receivables is mitigated by its legal ownership of the assets leased, which can be repossessed if the debtor defaults on the lease contract. The following analysis summarises the Council's trade receivables, by due date. Only those receivables meeting the definition of a financial asset are included.

	2020/21 £,000	2019/20 £,000
Less than three months	3,924	4,827
Three to six months	203	340
Six months to one year	264	39
More than one year	732	433
	5,123	5,639

Note 17 Financial Instruments (Continued)

Loss allowances on trade receivables have been calculated by reference to the Council's historic experience of default. Receivables are determined to have suffered a significant increase in credit risk where they are 90 or more days past due and they are determined to be credit-impaired where they are 365 or more days past due. Receivables are collectively assessed for credit risk in the following groupings:

	Range of allowances set aside	Gross Receivables £'000	Loss Allowance £'000
Trade Receivables 31-Mar-21	4%-100%	3,578	(774)
Trade Receivables 31-Mar-20	4%-100%	2,877	(653)

Receivables are written off to the Surplus or Deficit on the Provision of Services when they are three years past due and all recovery action has been taken.

Liquidity Risk

The Council has ready access to borrowing at favourable rates from the Public Works Loan Board and other local authorities, and at higher rates from banks and building societies. There is no perceived risk that the Council will be unable to raise finance to meet its commitments. It is however exposed to the risk that it will need to refinance a significant proportion of its borrowing at a time of unfavourably high interest rates. This risk is managed by maintaining a spread of fixed rate loans and ensuring that no more than 50% of the Council's borrowing matures in any one financial year. The maturity analysis of financial instruments is as follows:

Note 17 Financial Instruments (Continued)

		2020/21 £'000	2019/20 £'000
Analysis by Lender:			
	Public Works Loan Board	77,253	77,413
Analysis by Maturity:			
	Repayable within:		
	Less than 1 year (short term)	11,286	-
	1 to 2 years	-	11,286
	2 to 5 years	2,000	2,000
	5 to 10 years	10,007	10,007
	over 10 years	53,960	54,120
		77,253	77,413
Fair Value of PWLB Loans at the year-end		91,370	91,643

Maturity of Fixed Rate Debt:	Upper Limit	Lower Limit	Actual 31-Mar-21	Actual 31-Mar-20
	%	%	%	%
Under 12 months (see note below)	50%	0%	2%	0%
12 months and within 24 months	50%	0%	0%	2%
24 months and within 5 years	75%	0%	3%	3%
5 years and within 10 years	75%	0%	15%	15%
10 years and within 20 years	75%	0%	64%	49%
20 years and above	100%	0%	16%	31%

Market Risks: Interest Rate Risk

The Council is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the authority. For instance, a rise in interest rates would have the following effects:

Note 17 Financial Instruments (Continued)

- borrowings at variable rates – the interest expense will rise
- borrowings at fixed rates – the fair value of the liabilities will fall
- investments at variable rates – the interest income will rise
- investments at fixed rates – the fair value of the assets will fall.

Investments measured at amortised cost and loans borrowed are not carried at fair value, so changes in their fair value will have no impact on the Comprehensive Income and Expenditure Statement. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services. Movements in the fair value of fixed rate investments measured at fair value will be reflected in Other Comprehensive Income or the Surplus or Deficit on the Provision of Services as appropriate.

The Treasury Management Strategy aims to mitigate these risks by setting upper limits on its net exposures to fixed and variable interest rates. At 31 March 2021, £6.63m of net principal borrowed (i.e. borrowing net of investments) was exposed to fixed rates. If all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

	31-Mar-21	31-Mar-20
	£'000	£'000
Increase in interest payable on variable rate borrowings	103	52
Increase in interest receivable on variable rate investments	(6)	(5)
Increase in government grant receivable for financing costs	(86)	(91)
Impact on Surplus or Deficit on the Provision of Services	11	(44)
Share of overall impact debited to the HRA	5	(21)

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Market Risks: Price Risk

The Council's investment in a pooled property fund is subject to the risk of falling commercial property prices. This risk is limited by the Council's maximum exposure to property investments of £9.20m. A 5% fall in commercial property prices at 31st March 2021 would result in a £0.460m charge to Other Comprehensive Income and Expenditure / the Surplus or Deficit on the Provision of Services which is then transferred to the Pooled Investment Funds Adjustment Account. The Council's investment in a diversified income fund is subject to the risk of falling rental and commercial property prices. This risk is limited by the Council's maximum exposure to property investments of £9.75m. A 5% fall in commercial property prices at 31st March 2021 would result in a £0.488m charge to Other Comprehensive Income and Expenditure / the Surplus or Deficit on the Provision of Services which is then transferred to the Pooled Investment Funds Adjustment Account.

18. Debtors

Short term Debtors:

	2020/21	2019/20

Total	49,331	25,710
less Bad Debt Impairment Provisions:		
Council Taxpayers	(1,208)	(1,121)
Other service debtors	(5,866)	(5,297)
Total	42,257	19,292

The large variance in Central Government bodies debtors is due to an Non-Domestic Rate (NDR) debtor for prior overpayments due from DCLG for £15.175 million. Debtors for local taxation - The past due but not impaired amount for local taxation (council tax and non-domestic rates) can be analysed by age as follows:

	2020/21	2019/20
	£'000	£'000
Less than 12 months	1,639	1,540
More than one year	2,897	2,467
	4,536	4,007

Long term Debtors:

	2020/21	2019/20
	£'000	£'000
Other Local Authorities	196	214
Finance Leases	4	4
Prepayments	-	230
Other entities and individuals	1,815	944
	2,015	1,392

19. Creditors

HRA Service Charge Provision (* See Note 33 for details of the restatement)

The Council identified that additional charges were being added to multiple rent accounts in previous years to cover the servicing costs associated with heating. These charges initially formed part of the service charges and then, in or around 2018, were re-defined as "de-pooled rental charges". These "de-pooled rental charges" have been charged in addition to the core rent, however, these additional charges relate to services which the Council, as landlord, should not be re-charging to tenants.

The Gas Safety (Installation and Use) Regulations 1998 places a number of statutory duties on a landlord of domestic tenancies granted for a term of less than seven years. The main duties are to:

- Ensure the gas fittings are flues are maintained in a safe condition;
- Ensure an annual safety check is carried out on each gas appliances/flue; and
- Keep records of the gas safety checks.

Under Section 11 of the Landlord and Tenant Act 1985, a landlord of residential tenancies granted for a term of less than seven years has implied repair duties. This includes the statutory duties to keep in repair and proper working order the installations in the dwelling-house for the supply of gas and space heating and heating water. This extends to cover gas pipes and boilers. Therefore, the Council should not have been re-charging its tenants, outside the core rent, for costs associated with it complying with its statutory duties.

Based on the information above, the Council will need to reimburse tenants for the additional service charge costs included within their rent since 2010/11, and therefore a provision has been provided for this.

National Non-Domestic Rates

As part of the National Non-Domestic Rates (NNDR1) return in January 2020, the Council had to estimate the business rates income expected to be received in 2020/21 based on several assumptions. The most significant assumption was in relation to the provision for appeals. There are two separate provisions, one relating to the 2010 Valuation list and the other to the 2017 Valuation list. The 2010 provision was based on Government guidance and trend analysis in respect of appeals that had been lodged with the Valuation Office, backdated to 1 April 2010 where an appeal was lodged before 31 March 2015 or backdated to 1 April 2015 where the appeal was lodged after this date but before 31 March 2017. The relevant percentage used because of this was 4.04%.

The 2017 Valuation list provision methodology has been amended with effect from the 2018/19 NNDR3 year-end return. With the new check, challenge, appeal process, there has been a significant reduction in appeals in respect of bills issued since 2017/18. As well as provision for actual challenges lodged based on the proposed reductions, a provision of 2.7% has been calculated for the two large hereditaments within the Council's valuation list and then for the remaining liabilities, this has been based on all remaining unchallenged assessments. Provision has been calculated by taking the rateable value of the unchallenged assessments, multiplying this by the business rates multiplier to get the income due, applying the 2.7% trend analysis referred to above and then finally taking 8.78% of the value as the provision based on the number of challenges lodged to date. This percentage has reduced from 25% in 2019/20 as once Covid Material Change in Circumstances (MCC) appeals were excluded the volume of appeals relating to the 2017 valuation list is less than originally expected. The government has stated that Covid MMC appeals will not be allowed and will compensate businesses through a business rate relief scheme instead.

21. Grant Income

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement:

	2020/21 £'000	2019/20 £'000
Credited to Taxation and Non Specific Grant Income		
<u>Non-ringfenced grants:</u>		
Revenue Support Grant	(328)	(322)
New Homes Bonus	(2,303)	(2,408)
Business Rates Reliefs	(17,144)	(4,686)
Covid19 Government Grant Schemes	(6,399)	-
Other Non-ringfenced grants	(451)	(435)
<u>Capital grants and contributions:</u>		
Coastal Management/ Protection	(4,890)	(7,741)
HRA Developments	(579)	(308)
Community Infrastructure Levy	(5,519)	(3,971)
s106 contributions	(382)	(248)
Covid19 Government Grant Schemes	(74)	-
Leisure Development	(258)	-
Other capital grants and contributions	(1)	(10)
Total	(38,328)	(20,129)
Credited to Services		
Housing Benefits Subsidy	(42,222)	(45,158)
Benefits Administration Grant	(883)	(870)
Disabled Facilities Grants	(2,725)	(2,255)
Discretionary Housing Payments Grant	(441)	(429)
Homelessness Grants	(1,212)	(783)
Covid19 Government Grant Schemes	(13,736)	-
European Union Exit Grants	(1,124)	(356)
Regeneration of Coastal Communities	(1,605)	-
Other Grants	342	(1,169)
Total	(63,605)	(51,020)

The Council has received several grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned if certain conditions on their use are not met. The balances at the year-end are as follows:

	2020/21 £'000	2019/20 £'000
Capital Grants Receipts in Advance (Short-Term)		
s106 Contributions	66	151
Total	66	151
Capital Grants Receipts in Advance (Long-Term)		
Other grants	25	26
s106 Contributions	3,979	3,580
Total	4,004	3,606

22. Unusable Reserves

	2020/21	2019/20
	£'000	£'000
Revaluation Reserve	(71,570)	(61,351)
Capital Adjustment Account	(189,555)	(189,951)
Financial Instruments Adjustment Account	682	703
Pooled Investment Funds Adjustment Account	1,028	1,309
Deferred Capital Receipts Reserve	(4)	(4)
Pensions Reserve	84,267	52,899
Collection Fund Adjustment Account	13,778	(6,499)
Total Unusable Reserves	(161,374)	(202,894)

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

Note 22 Unusable Reserves (Continued)

	2020/21	2019/20
	£'000	£'000
Balance at 1 April	(61,351)	(52,620)
Upward revaluation of assets	(14,729)	(12,945)
Downward revaluation of assets and impairment losses not charged to the Surplus / Deficit on the Provision of Services	2,976	2,910
Surplus or deficit on revaluation of non-current assets posted to the Surplus or Deficit on the Provision of Services	(11,753)	(10,035)
Difference between fair value depreciation and historical cost depreciation	1,344	1,225
Accumulated gains on assets sold or scrapped	190	79
Amount written off to the Capital Adjustment Account	1,534	1,304
Balance at 31 March	(71,570)	(61,351)

Pooled Investment Funds Adjustment Account

With the adoption of accounting standard IFRS 9 Financial Instruments, the 'Available for Sale Financial Instruments Reserve' category is no longer available and has been replaced with the 'Pooled Investment Funds Adjustment Account'. The new standard requires that where the relevant criteria are met for fair value gains and losses on a pooled investment fund, the charge must be applied to an account established, charged and used solely for the purpose of recognising fair value gains and losses, this being the 'Pooled Investment Funds Adjustment Account'.

	2020/21	2019/20
	£'000	£'000
Balance at 1 April	1,309	145
Transfer in from Financial Instruments Available for Sale Reserve	-	-
Financial Instruments held under Fair Value through Profit and Loss subject to MHCLG statutory over-ride	(281)	1,164
Balance at 31 March	1,028	1,309

Note 22 Unusable Reserves (Continued)

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction, or additions of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or subsequent costs as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert current and fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction, and subsequent costs. The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains. Note 9 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

	2020/21 £'000	2019/20 £'000
Balance at 1 April	(189,951)	(187,653)
<u>Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:</u>		
- Charges for depreciation and impairment of non current assets	8,534	8,608
- Revaluation losses on Property, Plant and Equipment	3,327	1,040
- Amortisation of intangible assets	88	183
- Revenue expenditure funded from capital under statute	3,785	2,419
- Revenue expenditure funded from section 106 receipts	274	218
- Revenue expenditure funded from community infrastructure levies	607	504
- Amounts of non current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	2,564	1,581
<u>Adjusting amounts written out of the Revaluation Reserve:</u>		
- Difference between fair value depreciation and historical cost depreciation in Revaluation Reserve	(1,344)	(1,225)
- Amounts written out on disposal of assets	(190)	(79)
Net written out amount of the cost of non current assets consumed in the year	17,645	13,249
<u>Capital financing applied in the year:</u>		
- Use of Capital Receipts Reserve to finance new capital expenditure	(1,180)	(52)
- Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	(734)	-
- Application of grants to capital financing from the Capital Grants Unapplied Account	(7,816)	(8,468)
- Application of grants to capital financing from Receipts in Advance	(88)	(663)
- Statutory provision for the financing of capital investment charged against the General Fund and and HRA balances	(820)	(815)
- Use of Major Repairs Reserve to finance new capital expenditure	(1,798)	(2,158)
- Capital expenditure charged against the General Fund and HRA balances	(5,919)	(3,373)
Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement	1,106	(18)
Balance at 31 March	(189,555)	(189,951)

Note 22 Unusable Reserves (Continued)

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions.

	2020/21	2019/20
	£'000	£'000
Balance at 1 April	703	724
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	(21)	(21)
Balance at 31 March	682	703

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2020/21	2019/20
	£'000	£'000
Balance at 1 April	52,899	75,393
Remeasurements of the net defined benefit liability / (asset)	31,529	(27,686)
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	9,039	12,543
Employer's pensions contributions and direct payments to pensioners payable in the year	(9,200)	(7,351)
Balance at 31 March	84,267	52,899

Note

22 Unusable Reserves (Continued)

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax-payers and business rates payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	2020/21	2019/20
	£'000	£'000
Balance at 1 April	(6,499)	(5,255)
Amount by which council tax and non-domestic rates income credited to the Comprehensive Income and Expenditure Statement is different from council tax and non-domestic rates income calculated for the year in accordance with statutory requirements.	20,277	(1,244)
Balance at 31 March	13,778	(6,499)

23. Members Allowances

The Council was governed by 55 councillors, covering 29 wards. The Council paid the following amounts to elected Members during the year.

	2020/21	2019/20
	£'000	£'000
Basic, Attendance and Special Responsibility Allowances	621	595
Subsistence and Expenses	2	38
Total	623	633

24. External Audit costs

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors.

	2020/21 £'000	2019/20 £'000
Fees payable to the Ernst and Young LLP with regard to external audit services carried out by the appointed auditor for the year	70	60
Additional fees payable to the Ernst and Young LLP with regard to external audit services carried out by the appointed auditor for the previous year	24	64
Fees payable to the Ernst and Young LLP for the certification of grant claims and returns for the year	41	41
Additional fees payable to the Ernst and Young LLP for the certification of grant claims and returns for the previous year	(9)	26
Total	125	190

25. Related Parties

The Council is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government

Central Government has significant influence over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many transactions that the Council has with other parties (e.g. council tax bills, business rates and housing benefits). Grants received from Government departments and grants receipts outstanding at 31 March 2020 are shown in Note 20.

Note 25 Related Parties (Continued)

Suffolk County Council

Transactions include income and expenditure, precept payments and Business Rates pooling (Collection Fund statement), pension payments (Note 28), and funding of partnership arrangements. Income relating to Waste Recycling Credits totalled £1.845m (2019/20 £1.702m) with a year-end debtor of £0.206m (2019/20 £0.220m).

Members and Chief Officers

Members and Chief Officers of the Council have direct control over the Council's financial and operating policies. The total of Members' allowances paid in 2020/21 is shown in note 23. The Council made payments in 2020/21 totalling £0.715m (2019/20 £0.438m) with a year-end creditor of £0.000m (2019/20 £0.119m) to other organisations in which Members had an interest. The Council also received income from other organisations totalling £0.038m (2020/21 £0.046m) with a year-end debtor of £0.000m (2019/20 £0.003m) in which members had an interest. Any contracts were entered into in full compliance with the Council's standing orders, and any grants were made with proper consideration of declarations of interest. The relevant members did not take part in any discussion or decision relating to awarding of the contract or grant.

Levies Paid to other Authorities

Rivers and Drainage Authorities £0.252m (2019/20 £0.235m) as shown in note 11.

Waveney Norse Ltd

As part of the contract with Waveney Norse Ltd, two Council employees, Andrew Jarvis (Strategic Director) and Kerry Blair (Head of Operations), are named as Directors of Waveney Norse Ltd due to their representation of the Council's interests through the Partnership Board.

Suffolk Coastal Norse Ltd

As part of the contract with Suffolk Coastal Norse Ltd, one Council employee, Andrew Jarvis (Strategic Director), along with a Cabinet Member, Stephen Burroughes, (Cabinet Member with responsibilities for Operational Partnerships) are named as Directors of Suffolk Coastal Norse Ltd due to their representation of the Council's interests through the Partnership Board.

East Suffolk Holdings Limited

East Suffolk Holdings Limited is wholly owned by the Council and was incorporated on 24 October 2019. Three Council employees, Stephen Baker (Chief Executive), Andrew Jarvis (Strategic Director) and Nicholas Khan (Strategic Director) are named as Directors of East Suffolk Holdings Limited.

Note 25 Related Parties (Continued)

East Suffolk Construction Services Limited / East Suffolk Property Developments Limited / East Suffolk Property Investments Limited

East Suffolk Holdings Limited is the sole shareholder of East Suffolk Construction Services Limited, East Suffolk Property Developments Limited, and East Suffolk Property Investments Limited, all of which were incorporated on 26 November 2019. Two Council employees, Andrew Jarvis (Strategic Director) and Nicholas Khan (Strategic Director) are named as Directors of all three of these companies.

26. Officer's remuneration and exit packages

The remuneration paid to senior employees is set out in the table below. No bonuses were paid in 2020/21. The Council's other employees receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) were paid the following amounts:

		Salary, Fees and Allowances	Benefits in Kind (e.g. Car Allowances)	Total Excluding Pension Contributions	Employer's Pension Contribution	Total including Pension Contributions

Note 26 Officers Remuneration (Continued)

* postholder - Ill Health Retirement 31st October 2020

** postholder - left Councils employment January 2021

*** postholder - DIS January 2021

The table below shows employees remuneration by band over £50,000 in £5k increments. The numbers include officers who were made redundant voluntarily during the 2020/21 financial year, and whose remuneration may not have normally been included within the limits of the above table, but who had received a redundancy payment which increased their earnings to over the minimum of £50k. An additional column in the Table above shows leavers. In addition, other transactions are disclosed in Note 25, Related Parties.

Note 26 Officers Remuneration (Continued)

Exit Packages

The number of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below:

Exit Package cost band (including special payments)	Number of Compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band	
	2020/21	2019/20	2020/21	2019/20	2020/21	2019/20	2020/21	2019/20
£								£
0 to 20,000	2	4	-	2	2	6	36,352	25,185
20,001 to 40,000	-	-	1	-	1	-	21,715	-
40,001 to 60,000	-	1	-	-	-	1	-	50,099
60,001 to 80,000	-	-	-	-	-	-	-	-
80,001 to 100,000	-	-	-	-	-	-	-	-
Total	2	5	1	2	3	7	58,067	75,284

The total cost in the above table covers exit packages (also known as termination benefits) that have been agreed, accrued for and charged to the Council's Comprehensive Income and Expenditure Statement for the disclosed financial year. The figures exclude payments made for ill-health retirements, of which there were costs of £1,818,086 as they are not discretionary and do not therefore meet the definition of termination benefits under the CIPFA Code of Practice.

27. Capital expenditure and capital financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

	2020/21	2019/20
	£'000	£'000
Opening Capital Financing Requirement	114,737	115,553
<i>Capital investment</i>		
Property, Plant and Equipment*	16,737	11,597
Investment Properties*	3,206	-
Intangible Assets	72	-
Heritage Assets	-	12
Payment in advance	4,147	-
Revenue Expenditure Funded from Capital under Statute	4,666	3,141
Property, Plant and Equipment written out to Revenue	(14)	-
Total Capital Investment	28,814	14,750
<i>Sources of finance</i>		
Capital receipts	1,180	52
Government grants and other contributions	8,638	9,131
Sums set aside from revenue:		
Direct revenue contributions	5,919	3,373
Minimum Revenue Provision	820	815
Release of Payment in Advance	935	37
Major Repairs Reserve	1,798	2,158
Closing Capital Financing Requirement	124,261	114,737
<i>Explanation of movements in year</i>		
Increase in underlying need to borrowing (unsupported by government financial	9,524	(816)
Increase/(decrease) in Capital Financing Requirement	9,524	(816)

*These figures match to the Additions lines in Note 14 detailing movements on the non-current assets.

28. Leases

Disclosures as Lessee

Finance Leases

No assets under finance leases were acquired by the Council in the year. Assets acquired under finance leases prior to 1st April 2020 are carried as property, plant and equipment in the Balance Sheet at the net amount of £11.000m. The Council is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired by the Council, and finance costs that will be payable by the Council in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	2020/21	2019/20
	£'000	£'000
Finance lease liabilities (net present value of minimum lease payments):		
- current	300	280
- non current	5,779	6,079
Finance costs payable in future years	3,419	3,869
Minimum lease payments	9,498	10,228

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	2020/21	2019/20	2020/21	2019/20
	£'000	£'000	£'000	£'000
Not later than one year	731	731	300	280
Later than one year and not later than five years	2,922	2,922	1,429	1,335
Later than five years	5,845	6,575	4,350	4,744
	9,498	10,228	6,079	6,359

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into. There were no material contingent rents payable by the Council under finance leases for 2020/21. In relation to one of the Council's finance leases, the Lessor had to secure financing to be able to fulfil the capital project it was undertaking for the Council. It was agreed between the Lessor and Santander, that as part of the Council's monthly lease payment, the Council would make direct payment to Santander to cover the cost of the Lessor's monthly repayment of the financing.

Note 28 Leases (Continued)

Operating Leases

The Council has the following material operating leases as a lessee:

	Other Land and Buildings	
	2020/21 £'000	2019/20 £'000
Not later than one year	94	97
Later than one year and not later than five years	225	149
Later than five years	321	328
	640	574

Disclosures as Lessor

Finance Leases

The Council has no material finance leases as a lessor.

Operating Leases

The Council leases out property under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services, etc.; or
- for economic development purposes to provide suitable affordable accommodation for local businesses.

The future minimum lease payments receivable under leases in future years are:

	2020/21 £'000	2019/20 £'000
Not later than one year	1,618	1,446
Later than one year and not later than five years	4,993	5,077
Later than five years	28,819	29,551
	35,430	36,074

The minimum lease payments receivable does not include rents that are contingent on events taking place after the lease was entered into.

There were no material contingent rents receivable by the Council under operating leases for 2020/21. All assets provided under operating lease assets by the Council are shown within the movements included within Property, Plant and Equipment (Note 14).

29. Pensions

Pension costs are accounted for in accordance with the accounting standard IAS19. The objectives of IAS19 are to ensure that the financial statements reflect at fair value the assets and liabilities arising from an employer's retirement benefit obligations and any related funding and that the operating costs of providing retirement benefits to employees are recognised in the accounting period in which the benefits are earned, and that the financial statements contain adequate disclosure of the cost of providing retirement benefits. IAS19 costs are not, however, chargeable to council tax, it is only the actual payments that impact on the accounts and are shown in the Movement in Reserves Statement.

The Pensions Liability in the Balance Sheet reflects the underlying commitments that the Council has in the long term to pay retirement benefits. The impact of the net pension liability on overall reserves amounts to £84.267m in 2020/21. However statutory arrangements for funding the deficit mean the financial position of the Council is not affected.

The latest triennial actuarial valuation of the assets and liabilities of the Suffolk County Pension Fund was completed on 31 March 2019. The Council has been advised that its share of the pension fund was 98% fully funded at this date. The proposed

employers pension contribution rate for 2021/22 and 2022/23 is 33% and 32%.

Participation in the pension scheme

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in the Local Government Pension Scheme, administered locally by Suffolk County Council - this is a funded defined benefit scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.

The Suffolk Pension Fund scheme is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the pensions committee of Suffolk County Council. Policy is determined in accordance with the Pensions Fund Regulations. The investment managers of the fund are appointed by the committee and consist of the

Head of Finance (S151 Officer) of Suffolk County Council and Investment Fund managers. The principal risks to the Council of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund and Housing Revenue Account the amounts required by statute as described in the accounting policies note.

Transactions relating to post-employment benefits

Retirement benefits are reported in the Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge made against Council Tax is based on the cash payable in the year, so the real cost of post-employment / retirement benefits is reversed out of the General Fund and Housing Revenue Account via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

Note 29 Pensions (Continued)

	Local Government Pension Scheme

Note 29 Pensions (Continued)

Basis for estimating assets and liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The liabilities have been assessed by Hymans Robertson, an independent firm of actuaries, based on the roll forward from the 2019 formal valuation.

The significant assumptions used by the actuary have been:

	Local Government Pension Scheme	
	2020/21	2019/20
Mortality assumptions:		
Longevity at 65 for current pensioners:		
- Men	22.1	21.9
- Women	24.5	24.1
Longevity at 65 for future pensioners:		
- Men	23.2	22.7
- Women	26.4	25.6
Rate of inflation	2.85%	1.90%
Rate of increase in salaries	3.55%	2.60%
Rate of increase in pensions	2.85%	1.90%
Rate for discounting scheme liabilities	2.00%	2.30%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Note 29 Pensions (Continued)

Sensitivity Analysis

The sensitivities regarding the principal assumption used to measure the scheme liabilities are set out below:

Change in assumptions at 31 March 2021	Approx. increase in Employers Liability	Approx. amount £'000
0.5% decrease in Real Discount Rate	10%	34,462
0.5% increase in the Salary Increase Rate	1%	3,233
0.5% increase in the Pension Increase Rate	9%	30,506

A one year increase in life expectancy would approximately increase the Employer's Defined Benefit Obligation by around 3-5%. In practice the actual cost of a one-year increase in life expectancy will depend on the structure of the revised assumption (i.e. if improvements to survival rates predominantly apply at younger or older ages).

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at a constant rate as far as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over 20 years. Funding levels are monitored on an annual basis. The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31st March 2015. The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants. The Council anticipates paying £7.405m in contributions to the scheme in 2021/22.

30. Contingent Assets & Liabilities

As at 31 March 2021, the Council had no material contingencies.

31. Interests in companies and other entities

Local Authorities must consider all their interests in entities and prepare a full set of group financial statements where they have material interests in subsidiaries, associates or joint ventures. Before group accounts can be produced the following actions need to be carried out:

- Determine whether the Council has any form of interest in an entity.
- Assess the nature of the relationship between the Council and the entity.
- Determine the grounds of materiality whether group accounts should be prepared.

Having considered the accounting requirements and the Council's involvement with all companies and organisations, Group Accounts have been prepared. These incorporate only the results of Waveney Norse Limited, an Associate of which the Council owns a 19.9% share, and Suffolk Coastal Norse Limited, an Associate of which the Council owns a 20% share.

Waveney Norse Limited and Suffolk Coastal Norse Limited

In 2008/09, Waveney District Council entered into an arrangement with Norse Commercial Services Limited (NCS) for the provision of a package of services including Refuse, Cleansing and Maintenance. A new company, Waveney Norse Ltd, was formed to deliver this service. Suffolk Coastal District Council had held a 20% share of Suffolk Coastal Norse Limited (Ltd) since 1st April 2009. Suffolk Coastal Norse Ltd provides a package of services including Refuse, Cleansing and Maintenance.

Group Accounts have been prepared as East Suffolk Council has the 'power' to participate in operating decisions and because transactions between both these companies and East Suffolk Council are material. The Group Accounts incorporate East Suffolk Council's share of the net assets and surpluses of Waveney Norse Ltd and Suffolk Coastal Norse Ltd as Associates, using the Equity method.

The Group Accounts are included in this document as additional columns to East Suffolk Council's Primary Statements, showing the extent of the Council's 19.9% interest in Waveney Norse Ltd and 20% interest in Suffolk Coastal Norse Ltd.

In addition to the Group Accounts, the following information has been disclosed to aid an understanding of the nature of the group relationship and the impact of the arrangements East Suffolk Council's Statement of Accounts.

Note 31 Interests in Companies & other entities (Continued)

- a) The registered names of the Companies are Waveney Norse Limited and Suffolk Coastal Norse Limited;
- b) Nature of the business - the principal activities of Waveney Norse Ltd and Suffolk Coastal Norse Limited are refuse, cleansing and maintenance services;
- c) The immediate parent undertaking is Norse Commercial Services Limited;
- d) The ultimate parent undertaking is Norse Group Limited;
- e) The ultimate controlling party is Norfolk County Council, by virtue of them owning 100% of the ordinary share of Norse Group Limited;
- f) East Suffolk Council holds fully paid Ordinary Share capital of £2, in Waveney Norse Ltd with no special rights or constraints. It has a 19.9% share and also receives a 50-50 profit / loss share at year-end;
- g) East Suffolk Council holds fully paid Ordinary Share capital of £2, in Suffolk Coastal Norse Ltd with no special rights or constraints. It has a 20% share and also receives a 50-50 profit / loss share at year-end;
- h) Both companies' contributions to their pension schemes are treated as if they are contributions to a defined contribution scheme. Set contributions are paid over the life of the Agreement, with any increase or decrease in funding being met by the Council.
- i) Payments made to Waveney Norse Limited in respect of refuse, cleansing and maintenance services are included within the Cost of Services in the Comprehensive Income and Expenditure Statement. Total payments to Waveney Norse Ltd were £8.183m in 2020/21 and included in the Accounting Statements as follows:

	2020/21	2019/20
	£'000	£'000
Housing Operations and Landlord Services	685	669
Legal and Democratic Services	9	9
Operations	7,448	6,762

Note 31 Interests in Companies & other entities (Continued)

Sentinel Leisure Trust

With effect from 1 April 2011, Waveney District Council transferred the management and operation of its leisure operations to the newly formed Sentinel Leisure Trust. Seven volunteers were initially appointed as Trustees and Directors of the new Trust and were joined by two Council representatives on the Board. The Council has a 15-year partnership management agreement with Sentinel. The facilities and equipment remain the property of the Council throughout the Partnership, with the Trust operating under a lease. The Council gave Sentinel 12 months' notice in October 2019, and the contract terminated in October 2020.

32. Long term investments

As at 31 March 2021, East Suffolk Council had long term investment balances of £34.031m of which £15.074 was held with other local authorities and £18.917m was held in a mix of Property Funds and Diversified Income Funds and £40k in Anglia Revenues Partnership (ARP). The Council has invested in these funds for the long term and therefore expect any downturn in fund values due to Covid19 will be mitigated over time.

	2020/21	2019/20
	£'000	£'000
Other Local Authorities	15,074	5,000
Other Entities	18,957	13,676
	34,031	18,676

During 2020/201 the Council has received dividends on the investments and the principal invested in the Property Fund has depreciated in value, by £66k and the diversified income fund had appreciated by £347k resulting in a net adjustment of £281k. This was charged to Financing and Investment Income and Expenditure within the Comprehensive Income and Expenditure Statement and added to the long-term investment balance resulting in the balance decreasing to £9.166m for the Property Fund and £9.751m for the Diversified Income Fund.

33. Prior period adjustments

The Council identified that additional charges were being added to multiple rent accounts in previous years to cover the servicing costs associated with heating. These charges initially formed part of the service charges and then, in or around 2018, were re-defined as "de-pooled rental charges". These "de-pooled rental charges" have been charged in addition to the core rent, however, these additional charges relate to services which the Council, as landlord, should not be re-charging to tenants. See Note 20 for further details regarding the Service Charge Provision.

The Council will need to reimburse tenants for the additional service charge costs included within their rent since 2010/11, and therefore a prior year adjustment in the form of a provision needs to be provided for this. As East Suffolk Council was formed in 2019/20, no third balance sheet will be presented as this was the first year of accounts for the Council. However, the balances brought forward as at 1st April 2019 have been adjusted to reflect the provision from 2010/11 to 2018/19, and then a prior year adjustment for 2019/20 has been included. A full audit of all rent accounts has been completed, and estimates the provision needed by year as follows:

Year £'000	Provision for Service Charge £'000
Prior to 2019/20	2,944
2019/ 20	413
Total	3,357

The impact of this provision on each primary statement and accompanying notes is shown below:

Prior Period Adjustments

Housing Revenue Account Service Charge Provision

The effects of the restatement are as follows:

Housing Revenue Account Income & Expenditure Statement

The Housing Revenue Account (HRA) Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with the legislative framework; this may be different from the accounting cost. The increase or decrease in the year, on the basis on which rents are raised, is shown in the Movement on the Housing Revenue Account Statement.

Movement on the Housing Revenue Account Statement

The overall objectives for the Movement on the HRA Statement and the general principles for its construction are the same as those generally for the Movement in Reserves Statement, into which it is consolidated. The statement takes the outturn on the HRA Income and Expenditure Statement and reconciles it to the surplus or deficit for the year on the HRA Balance, calculated in accordance with the requirements of the Local Government and Housing Act 1989.

		2020/21	2019/20 (Re-stated)
		£'000	£'000
Movement on the HRA Statement			
HRA balance brought forward		(3,788)	(3,415)
(Surplus) or deficit for the year on the HRA Income and Expenditure Statement	(7,512)	(7,635)	
Adjustments between accounting basis and funding basis under statute (Note 9 to the Core Statements)	3,824	3,681	
Net (increase) or decrease before transfers to or from reserves	(3,688)	(3,954)	
Transfers (from) or to HRA Earmarked Reserves (Note 10 to the Core Statements)	2,900	3,581	
(Increase) or decrease in year on the HRA		(788)	(373)
Balance on the HRA at the end of the year		(4,576)	(3,788)

*For details of the restatement please see Note 33

Notes to the Housing Revenue Account

1. Dwelling Rents and Charges for Services and Facilities

The account shows the rent and charges for services and facilities due in the year after allowing for voids and other losses in collection. 2020/21 is a 52-week rent year. Charges for Services and Facilities relate to heating, warden and other communal services provided to residents in sheltered accommodation.

	2020/21	2019/20
Average dwelling rent per week (£)	83.26	81.43
Arrears at 31 March (£'000)	1,162	973
Arrears at 31 March as % of the gross income collectable	5.8%	4.9%
Provision for bad debts at 31 March (£'000)	850	661

2. Major Repairs Reserve (MRR)

	2020/21 £'000	2019/20 £'000
The movement on the Major Repairs Reserve (MRR) for the financial year is analysed below:		
MRR opening balance	20,802	19,629
Amounts transferred to/(from) the MRR during the year	3,440	3,331
Debits to the MRR during the year in respect of HRA capital expenditure	(1,798)	(2,158)
MRR closing balance	22,444	20,802

Under Self-Financing accumulated depreciation is transferred into the MRR where it is ring-fenced to be used to repay the principal elements of HRA debt as well as to finance new capital expenditure. Movements and balances on the MRR are also detailed in the Movement in Reserves Statement and Note 10 to the Core Statements.

3. Capital Receipts – Disposal of Council Dwellings

	2020/21	2019/20
Capital receipts from sales of council houses (Right to Buys) can be summarised as follows:		
- Number of disposals under Right to Buy	11	28
- Value of disposals under Right to Buy (£'000)	750	2,090
Value of capital receipts from the disposal of other HRA land, houses and property	930	256

4. Capital Related Charges

	2020/21	2019/20
	£'000	£'000
Depreciation charge	3,440	3,331
Debt management expenses	22	21
Interest payable	2,169	2,247
Premium charges for early repayment of debt	10	10
Transfer to Capital Financing Account via MRR	1,799	2,158
Interest income on notional cash balances	(201)	(183)

5. Housing Stock

	2020/21	2019/20
The stock of dwellings has changed as follows:		
Opening stock of dwellings	4,460	4,446
Add: new build/purchases/additions	13	44
Less: sales	(14)	(30)
Closing stock of dwellings	4,459	4,460
Analysis of closing stock numbers:		
Houses	2,013	2,014
Bungalows	1,188	1,210
Flats	1,258	1,236
	4,459	4,460

6. Capital Expenditure

	2020/21	2019/20
	£'000	£'000
Dwellings	1,789	2,179
Dwelling acquisitions	1,360	176
Other Land and Buildings	191	47
Assets Under Construction	811	725
Capital Prepayment	-	3
	4,151	3,130
Financed by:		
Usable capital receipts	986	53
Revenue contributions	1,159	612
Grants and contributions	207	307
Major Repairs Reserve	1,799	2,158
	4,151	3,130

7. Non-Current Assets

The Balance Sheet value of land, dwellings and other property within the HRA as at 1 April 2020 in the financial year and the closing Balance Sheet value as at 31 March 2021 is included within Note 14 to the Core Statements. The Balance Sheet values of HRA non-current assets are disclosed below:

	2020/21	2019/20
	£'000	£'000
Council dwellings	222,560	215,452
Other land and buildings	1,715	1,911
Vehicles, plant, furniture and equipment	205	289
Assets under construction	1,904	1,779
Land Awaiting Development	3,097	1,835
Assets held for sale	4	4
Total Balance Sheet value of HRA non-current assets (PPE)	229,485	221,270
Intangibles	13	30
Total Balance Sheet value of HRA non-current assets	229,498	221,300
Dwellings - Vacant Possession Value	585,685	566,979

Vacant possession value and Balance Sheet value of council dwellings within the HRA show the economic cost to Government of providing council housing at less than market rents.

8. Depreciation

The depreciation charge for the year, for all of the HRA's non-current assets are disclosed as follows:

	2020/21	2019/20
	£'000	£'000
Council dwellings	3,267	3,133
Other land and buildings	73	73
Vehicles, plant, furniture and equipment	74	102
Total charge for depreciation within the HRA (PPE)	3,414	3,308
Intangibles	17	23
Total charge for depreciation within the HRA	3,431	3,331

9. Revaluation and Impairment Charges

The 2020/21 financial results include £1.584m credit for Revaluation Gains or Losses against HRA Assets charged to the Comprehensive Income and Expenditure Statement.

Collection Fund Income & Expenditure Statement

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and local businesses and the distribution to local authorities and Central Government of council tax and non-domestic rates.

	Notes	2020/21		2019/20

Balance carry forward - (surplus) / deficit		34,131	1,498	(6,866)	(3,405)

Notes to the Collection Fund

1. Income from council tax

Council tax is set to meet the demands of Suffolk County Council, The Police and Crime Commissioner for Suffolk, East Suffolk Council and Parish/Town Councils. The tax is set by dividing these demands by the tax base, which is the number of chargeable dwellings in each valuation band expressed as an equivalent number of Band D dwellings.

In 2020/21 central government created a Hardship Fund to provide council tax relief to vulnerable people and households to help those affected most by coronavirus. This relief was granted under S13A discretionary reliefs as shown in the table above and East Suffolk was given a Hardship Grant to compensate for the relief granted.

	2020/21	2019/20
	£	£
The average Band D Council Tax set was:	1,810.23	1,741.13
The Council estimated its Tax Base for 2020/21 as follows:	Chargeable dwellings	Band D Equivalents
Valuation Band		
A	23,514	15,676
B	27,282	21,219
C	20,741	18,436
D	16,687	16,687
E	10,488	12,819
F	4,987	7,204
G	2,718	4,530
H	192	383
	106,608	96,954
Less: local council tax reduction scheme		(8,595)
Provision for bad and doubtful debts (1.0%)		(886)
Add: Ministry of Defence properties		192
Additional Properties		224
Tax Base 2020/21 (Band D equivalents)		87,889

2. Business Rates

The Council collects business rates (non-domestic rates) in the district. The amount collected less an allowance for the cost of collection is shared between Central Government (50%), East Suffolk Council (40%) and Suffolk County Council (10%). As a member of the Suffolk Business Rates Pool, from the Council's share, a tariff payment is made to Suffolk County Council to distribute excess business rates income above the Council's baseline funding need set by Central Government. These transactions are shown in the Comprehensive Income and Expenditure Statement under Taxation and Non-Specific Grants. The valuation list was revised in April 2005 and April 2010, and the latest revaluation of all business properties was completed on 1 April 2017.

In response to the coronavirus pandemic, in the Budget on 11 March 2020 the government announced that it would increase the Business Rates Retail Discount to 100% and extend it to include the leisure and hospitality sectors. In addition, on 18 March 2020, in response to the coronavirus, the government announced that many childcare providers would pay no business rates in 2020 to 2021. Billing authorities would be compensated by S31 grant. This has resulted in significant reduction in the Business Rates income collected. The additional S31 grant due to East Suffolk is shown in note 21 under Business Rate Reliefs.

	2020/21	2019/20
The rateable value at 31 March was	£232.9m	£232.2m
The multiplier was	51.2p	50.4p

3. Collection Fund Balances

The Collection Fund in year (surplus) / deficit comprises the following:		
	2020/21	2019/20
(Surplus) / Deficit relating to:	£'000	£'000
<u>Council Tax</u>		
Suffolk County Council	3,640	(344)
Police and Crime Commissioner for Suffolk	600	(84)
East Suffolk Council	663	(68)
Total Council Tax	4,903	(496)
<u>Business Rates</u>		
Central Government	17,846	(1,856)
Suffolk County Council	4,630	84
East Suffolk Council	18,521	334
Total Business Rates	40,997	(1,438)

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF EAST SUFFOLK COUNCIL

Opinion

We have audited the financial statements of East Suffolk Council 'the Council' and its subsidiaries (the 'Group') for the year ended 31 March 2021 under the Local Audit and Accountability Act 2014. The financial statements comprise the:

- East Suffolk Council and Group Comprehensive Income and Expenditure Statement,
- East Suffolk Council and Group Movement in Reserves Statement,
- East Suffolk Council and Group Balance Sheet,
- East Suffolk Council and Group Cash Flow Statement,
- the related notes 1 to 33,
- Housing Revenue Account Income and Expenditure Statement, the Movement on the Housing Revenue Account Statement, and the related notes 1 to 9,
- Collection Fund and the related notes 1 to 3.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022).

In our opinion the financial statements:

- give a true and fair view of the financial position of East Suffolk Council and the Group as at 31 March 2021 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Council and Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Comptroller and Auditor General's AGN01, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Chief Financial Officer's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Group and the Council's ability to continue as a going concern for a period to 31 March 2025.

Our responsibilities and the responsibilities of the Chief Financial Officer with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to East Suffolk Council and the Group's ability to continue as a going concern.

Other information

The other information comprises the information included in the Statement of Accounts set out on pages 1 to 131, other than the financial statements and our auditor's report thereon. The Chief Financial Officer is responsible for the other information contained within the Statement of Accounts.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we report by exception

We report to you if:

- in our opinion the annual governance statement is misleading or inconsistent with other information forthcoming from the audit or our knowledge of East Suffolk Council and the Group
- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

In respect of the following, we have matters to report by exception:

- Report on the Council and the Group's proper arrangements for securing economy, efficiency, and effectiveness in the use of resources.

We report to you, if we are not satisfied that the Council and the Group has put in place proper arrangements to secure economy, efficiency, and effectiveness in its use of resources for the year ended 31 March 2021.

On the basis of our work, having regard to the Code of Audit Practice 2020 and the guidance issued by the Comptroller and Auditor General in April 2021, we have identified the following significant weakness in the Council's arrangements for the year ended 31 March 2021.

Significant weakness in arrangements

During 2019/20, the Council identified a possible breach of regulations the conversion of rental charges on its social housing from social to affordable rent. The Council obtained legal advice which it received in February 2020, and which recommended the Council self-referred to the Social Housing Regulator. No action was taken by the Council to progress the matter between March 2020 and November 2021 and neither internal, nor external audit were made aware of the issue until December 2021. This weakness left the Council exposed to financial losses as a result of overcharging of rent and service charges the need to repay such sums and compensate tenants for the overcharging, along with the costs associated with investigating the issue and quantifying the sums due for repayment, as well as reputational damage.

In forming our assessment, we have considered and reviewed:

- The legal advice obtained by the Council in February 2020 regarding the continued conversion of properties from social to affordable rents;
- The February 2022 report from external consultants on their review of the Council's approach to rent setting against the Regulator of Social Housing Rent Standard which was commissioned by the Council;
- Further legal advice obtained by the Council in March 2022 to provide a second opinion in relation to the regulatory compliance issues and also in relation to whether or not some of the charges that have been levied have been properly charged, whether as rent or service charges;
- The output from forensic review of rent charges commissioned by the Council from external consultants to ensure that any overpayments were returned to affected tenants;
- The Council's calculation of the estimated provision required in relation to overcharged service charges included in the 2020/21 accounts based on the external consultants' forensic review; and
- The June 2023 report from the Governance Review of Housing Services which was commissioned by the Council.

Following the identification of the issue in December 2021, the Council has taken action to remedy the situation and has included provision of £3.8 million in its 2020/21 financial statements in relation to the repayments it has calculated as being due to housing tenants in relation to overcharging of services charges, which it has a legal obligation to repay. It has also restated the comparator figures in the accounts to reflect a provision of £3.6 million as at 31 March 2020 in relation to this issue. In addition, the Council has concluded that it has a constructive obligation to repay overcharged rent as a result of incorrect conversion and will reflect a provision of £8.8667 million in its 2022/23 financial statements in relation to this issue.

We recommend the Council:

- Implement the recommendations from the external review of the governance arrangements in the housing department as a priority.
- Put arrangements in place to ensure that any suspected non-compliance of regulations from any department are reported to internal and external audit as soon as they are identified.
- Address any suspected non-compliance with regulations in a timely manner by reporting any such concerns to a suitable Committee of the Council, ensuring action plans to address any non-compliance are progressed in a timely manner.

This issue is evidence of weaknesses in proper arrangements for:

- how the body monitors and assesses risk and how the body gains assurance over the effective operation of internal controls, including arrangements to prevent and detect fraud;
- how the body ensures it makes properly informed decisions, supported by appropriate evidence and allowing for challenge and transparency;
- how the body monitors and ensures appropriate standards, such as meeting legislative/regulatory requirements.

Responsibility of the Chief Financial Officer

As explained more fully in the Statement of the Chief Financial Officer Responsibilities set out on page 26, the Chief Financial Officer is responsible for the preparation of the Statement of Accounts, which includes the Group and Council financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022), and for being satisfied that they give a true and fair view and for such internal control as the Chief Financial Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Chief Financial Officer is responsible for assessing East Suffolk Council and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the East Suffolk Council and the Group either intends to cease operations, or has no realistic alternative but to do so.

The Council is responsible for putting in place proper arrangements to secure economy, efficiency, and effectiveness in its use of resources, to ensure proper stewardship and governance, and to regularly review the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

We obtained an understanding of the legal and regulatory frameworks that are applicable to the East Suffolk Council and the Group and determined that the most significant are:

- Local Government Act 1972,
- Local Government and Housing Act 1989 (England and Wales),
- Local Government Finance Act 1988 (as amended by the Local Government Finance Act 1992),
- Local Government Act 2003,
- The Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 as amended in 2018, 2020 and 2021,

- Planning Act 2008 and the Community Infrastructure Levy Regulations 2010 (SI 2010/948),
- The Local Government Finance Act 2012,
- The Local Audit and Accountability Act 2014, and
- The Accounts and Audit Regulations 2015.

In addition, East Suffolk Council and the Group have to comply with laws and regulations in the areas of anti-bribery and corruption, data protection, employment Legislation, tax Legislation, general power of competence, procurement and health & safety.

We understood how East Suffolk Council and the Group is complying with those frameworks by understanding the incentive, opportunities and motives for non-compliance, including inquiring of management/head of internal audit/those charged with governance/the monitoring officer and obtaining and reading documentation relating to the procedures in place to identify, evaluate and comply with laws and regulations, and whether they are aware of instances of non-compliance. We corroborated this through our reading of the East Suffolk Council and the Group's committee minutes, through enquiry of employees to confirm East Suffolk Council and the Group policies, and through the inspection of other information. Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures had a focus on compliance with the accounting framework through obtaining sufficient audit evidence in line with the level of risk identified and with relevant legislation.

We obtained and read the legal advice obtained by the Council related to the incorrect conversion of rents and incorrect inclusion of service charges along with the work of specialists engaged by the Council to assess the resultant level of overcharging. We read the Governance Review of Housing Services commissioned by the Council issued in June 2023.

We assessed the susceptibility of the East Suffolk Council and the Group's financial statements to material misstatement, including how fraud might occur by understanding the potential incentives and pressures for management to manipulate the financial statements, and performed procedures to understand the areas in which this would most likely arise. Based on our risk assessment procedures, we identified inappropriate capitalisation of revenue expenditure, incorrect classification of expenditure as revenue expenditure financed from capital under statute (refcus) and management override of controls to be our fraud risks.

To address our fraud risk of inappropriate capitalisation of revenue expenditure, we tested East Suffolk Council and the Group's capitalised expenditure to ensure the capitalisation criteria were properly met and the expenditure was genuine.

To address our fraud risk of incorrect classification of expenditure as refcus, we tested refcus expenditure to ensure the expenditure meets the broad principle of allowable expenditure or is incurred under direction from the Secretary of State.

To address our fraud risk of management override of controls, we tested specific journal entries identified by applying risk criteria to the entire population of journals. For each journal selected, we tested specific transactions back to source documentation to confirm that the journals were authorised and accounted for appropriately.-We also assessed whether the judgements made in making accounting estimates are indicative of a potential bias and evaluated the business rationale of any identified significant transactions that were unusual or outside the normal course of business. These procedures were designed to provide reasonable assurance that the financial statements were free from fraud or error.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice 2020, having regard to the guidance on the specified reporting criteria issued by the Comptroller and Auditor General in April 2021, as to whether East Suffolk Council had proper arrangements for financial sustainability, governance and improving economy,

efficiency and effectiveness. The Comptroller and Auditor General determined these criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether East Suffolk Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2021.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, East Suffolk Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Certificate

We certify that we have completed the audit of the accounts of East Suffolk Council in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice issued by the National Audit Office.

Use of our report

This report is made solely to the members of East Suffolk Council, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Council and the East Suffolk Council members as a body, for our audit work, for this report, or for the opinions we have formed.

Glossary of Financial Terms

Accounting Period

The period covered by the Accounts, normally 12 months commencing on 1st April for local authorities.

Accounting Policies

The rules and practices adopted by the Council that determine how the transactions and events are reflected in the accounts.

Accruals

The concept that income and expenditure are recognised as they are earned or incurred, not as money is received or paid.

Business Rates (Non-Domestic Rates)

The system of local taxation on business properties also called Non-Domestic Rates (NDR).

Capital Adjustment Account

The Account absorbs the difference arising from the different rates at which non-current assets are accounted for as being consumed and at which resources are set aside to finance their acquisition.

Capital Charge

A charge to service accounts to reflect the cost of non-current assets used in the provision of services, usually comprising depreciation charges, impairment and any associated write down of capital grant financing.

Capital Expenditure

Expenditure on the acquisition of a non-current asset such as land and buildings, or expenditure that adds to and not merely maintains the value of an existing non-current asset.

Capital Receipts

Capital money received from the sale of land, dwellings, or other assets, which is available to finance other items of capital expenditure, or to repay debt on assets originally financed from loan.

Capital Receipts Reserve

This reserve holds the receipts generated from the disposal of non-current assets, which are restricted to being applied to finance new capital investment or reduce indebtedness.

CIPFA (Chartered Institute of Public Finance and Accounting)

CIPFA is the professional institute for accountants working in the public services. CIPFA publishes the Code, which defines proper accounting practice for local authorities.

Collection Fund

This Fund records the collection of the council tax and Non-Domestic Rates and its distribution.

Contingent Liabilities

Potential liabilities which are either dependent on a future event, or which cannot be reliably estimated.

Contingent Assets

Potential assets which are either dependent on a future event, or which cannot be reliably estimated.

Corporate and Democratic Core

This comprises all activities which local authorities engage in specifically because they are elected, multi-purpose organisations. The cost of these activities are over and above those which would be incurred by a series of independent, single purpose, nominated bodies managing the same services. It includes costs relating to the corporate management and democratic representation.

Council Tax

The system of local taxation on dwellings that replaced the community charge with effect from 1 April 1993.

Council Tax Base

The amount calculated for each billing authority from which the grant entitlement of its share is derived. The number of properties in each band is

multiplied by the relevant band proportion to calculate the number of Band D equivalent properties in the area. The calculation allows for exemptions, discounts, appeals, local council tax reduction scheme and a provision for non-collection.

Council Tax Benefit

A system of financial assistance towards council tax costs which takes account of the applicants' financial needs and incomes.

Creditors

An amount of money owed by the District Council at 31 March for goods or services supplied but not yet paid for.

Debt

Amounts borrowed to finance capital expenditure that are still to be repaid.

Debtors

An amount of money owed to the Council at 31 March. Long-term debtors include loans against mortgaged property and loans to other local authorities.

Deferred Capital Receipts

Capital receipts outstanding on Council houses sold on deferred terms and secured by a mortgage of the property.

Depreciation

The measure of the wearing out, consumption, or other reduction in the useful economic life of a non-current asset, whether arising from use or obsolescence through technological or other changes.

Direct Revenue Financing

A charge to revenue accounts for the direct financing of non-current assets and other capital expenditure.

Earmarked Reserves

Revenue reserves within the General Fund and the Housing Revenue Account set aside to finance specific future services.

General Fund

The main revenue fund of the District Council, to which the costs of the services are charged, (excluding the Housing Revenue Account (HRA) - see below).

Government Grants

Payments by Central Government towards the cost of local authority services. These are either for particular purposes or services (specific grants) or in aid of local services generally (general grants).

Heritage Assets

Heritage Assets are a distinct class of asset which is reported separately from property, plant & equipment. These assets would previously have been classified as community assets prior to 1st April 2011. The CIPFA Code defines a tangible heritage asset as: *a tangible asset with historical, artistic, scientific, technological, geophysical, or environmental qualities that is held and maintained principally for its contribution to knowledge and culture*. An intangible heritage asset is *'an intangible asset with cultural, environmental or historical significance'*.

Housing Advances

Loans by an authority to individuals towards the cost of acquiring or improving their homes.

Housing Benefit

A system of financial assistance towards housing costs which takes account of the applicants' financial needs and incomes. Assistance takes the form of rent rebates, council tax rebates and rent allowances.

Housing Revenue Account (HRA)

The statutory account to which are charged the revenue costs of providing, maintaining, and managing Council owned dwellings. These are financed by rents charged to tenants and subsidies received from the government. (See later paragraph on self-financing HRA).

Impairment

A material reduction in the value of a non-current asset during the accounting period. This can be caused by a consumption of economic

benefits (such as physical damage through fire or flood) or a fall in price of a specific asset. A general reduction in asset values is accounted for as an impairment through Valuation Loss.

Infrastructure Assets

Non-current assets that are inalienable, expenditure on which is recoverable only by continued use of the asset created. Examples of infrastructure assets are highway and coast protection work.

International Financial Reporting Standards

The Code of Practice on Local Authority Accounting was, for the first time in 2010/11, based on International Financial Reporting Standards (IFRS). However, these standards are primarily drafted for the commercial sector and are not wholly designed to address the accounting issues relevant to local government in the UK. The Code therefore prescribes a hierarchy of alternative standards on which the accounting treatment and disclosures should be based for all transactions.

Leasing or Leases

A method of acquiring capital expenditure where a rental charge is paid for an asset for a specified period. All leases are categorised as either finance leases or operating leases. A finance lease transfers substantially all the risks and rewards of ownership to the lessee. An operating lease, in contrast, is like a rental agreement in nature, and all operating lease rentals are treated as revenue.

Levies

Payments made to Internal Drainage Boards.

Minimum Revenue Provision

A prudent sum required by law to be set aside from revenue for the repayment of loan debt.

Net Book Value

The amount at which non-current assets are included in the Balance Sheet, i.e. their historical cost or current value less the cumulative amounts provided for depreciation and impairment.

Non-Current Assets

Assets that yield benefits to the local authority and the services it provides for a period of more than one year.

Net Realisable Value

The amount at which an asset could be sold after the deduction of any direct selling costs.

Operational assets

Non-current assets are held and occupied, used, or consumed by the Council in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Out-turn

Actual income and expenditure for the financial year.

Post Balance Sheet Events

Those events, both favourable and unfavourable, which occur between the Balance Sheet date and the date on which the Statement of Accounts are authorised for issue by the Section 151 Officer.

Precept

The net expenditure of a non-billing authority (e.g. County Council, Police Authority or Parish Council) which the billing authority must include when setting its Council Tax and then pay over to the precepting authority in agreed instalments.

Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods and services, for rental to others, or for administrative purposes, and expected to be used during more than one period. (See separate paragraph on Heritage Assets).

Provisions

A liability that is of uncertain timing or amount which is to be settled by transfer of economic benefits.

Public Works Loan Board

A Government agency which provides longer-term loans to local authorities at interest rates slightly higher than those at which the Government itself

can borrow. Local authorities can borrow a proportion of their requirements to finance capital expenditure from this source.

Rateable Value

A value assessed by the Valuation Office Agency for all properties subject to national non-domestic rates.

Reserves

Reserves are, reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

Revaluation Reserve

An "unusable reserve" recording accumulated gains arising from the revaluation of non-current assets until they are consumed by the authority or realised in a sale.

Revenue Expenditure

This is expenditure mainly on recurring items and consists principally of salaries and wages, capital charges and general running expenses. Revenue Expenditure Funded from Capital under Statute (REFCuS) Expenditure that is classified as capital for funding purposes which does not result in the expenditure being carried on the Balance Sheet as a non-current asset. Examples include improvement grants and capital grants to third parties.

Revenue Support Grant

A general grant paid by Central Government to local authorities in aid of revenues generally and not for specific services. It is paid to the General Fund.

Section 151 Officer

The officer with specific legal responsibility for the financial matters of a local authority.

Self-Financing for the HRA

The self-financing HRA commenced on 1 April 2012 and is based on authorities "buying" themselves out of a negative housing subsidy position. This involves the Council no longer paying into housing subsidy and in return the Council's debt is adjusted upwards to an appropriate level. It is a once and for all settlement between central and local Government, after which all responsibility for maintaining social housing will rest with the Council.

The Code

The Code incorporates guidance in line with IFRS, IPSAS and UK GAAP Accounting Standards. It sets out the proper accounting practice to be adopted for the Statement of Accounts to ensure they 'presents a true and fair view' of the financial position of the Council. The Code has statutory status via the provision of the Local Government Act 2003.

Trading Accounts

Trading accounts exist where the service manager is required to operate in a commercial environment and balance their budget by generating income from other parts of the authority or other organisations.

Usable Capital Receipts

Capital receipts that remain available to meet the cost of future capital expenditure.

UK GAAP

The accounting treatments that companies in the UK would generally be expected to apply in the preparation of their financial statements.

Valuation Loss

Impairment of an asset due to a general fall in prices, supported by a valuer's certificate. Valuation losses are charged initially to any balance in the Revaluation Reserve, and subsequently to the Comprehensive Income and Expenditure Account. Impairment charges do not, however, fall on the

taxpayer, and the impact is reversed in the Movement in Reserves Statement.

Value Added Tax (VAT)

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs (HMRC). VAT receivable is excluded from income.
