PSQ Explainer for suppliers

- 1. Public procurement is governed by regulations to ensure that procurement delivers value for money, competition, transparency and integrity.
- 2. The Procurement Specific Questionnaire (PSQ) has been designed to help contracting authorities ensure that suppliers share the right information when participating in a procurement. This is separate from the formal tender submission (on how the supplier proposes to meet the tender requirements). The PSQ consists of three parts:
- 3. Part 1 confirmation of core supplier information: suppliers participating in procurements will now be expected to register on a central digital platform (CDP). Suppliers can submit their core supplier information and, where a procurement opportunity arises, share this information with the contracting authority via the CDP. It is free to use and will mean suppliers should no longer have to re-enter this information for each public procurement but simply ensure it is up to date and subsequently shared. The CDP is available at https://www.gov.uk/find-tender. Part 1 provides confirmation that suppliers have taken these steps.
- 4. Part 2 additional exclusions information: procurement legislation provides for an 'exclusion regime' and a published 'debarment' list to safeguard procurement from suppliers who may pose a risk (for example, due to misconduct or poor performance). Suppliers must submit their own (and their connected persons¹) exclusions information via the CDP. This includes self-declarations as to whether any exclusion grounds apply to them and, if so, details about the event or conviction and what steps have been taken to prevent such circumstances from occurring again.
- 5. As part of a procurement, a supplier will need to also share additional exclusions information for any suppliers that they are relying on to meet the procurement's conditions of participation. These could either be consortium members or key sub-contractors (but excludes any guarantors). These suppliers are 'associated persons' and their exclusions information must be shared with the contracting authority. We

¹ Connected persons are persons who exercise (or have a right to exercise) significant influence or control over the supplier and those over which the supplier exercises (or has the right to exercise) significant influence or control. This includes majority shareholders, directors and shadow directors, parent and subsidiary companies and predecessor companies. The majority of the exclusion grounds state that they apply to the supplier or a connected person of the supplier.

recommend this is done by ensuring that associated persons register, submit and share their information via the CDP (like the prime/main supplier).

- 6. In addition to the sub-contractors who are being relied on to meet the conditions of participation (who are associated persons), suppliers will need to share an exhaustive list of all their intended sub-contractors, which will be checked against the debarment list.
- 7. If a sub-contractor is unknown at the start of the procurement (or brought in during it), this should be made clear by the supplier and relevant details of the sub-contractor should be provided once their identity and role is confirmed. This information should be shared with the contracting authority as soon as possible and at least by final tenders.
- 8. **Part 3 conditions of participation**: contracting authorities may set conditions of participation which a supplier must satisfy in order to be awarded a public contract. They can relate to the supplier's legal and financial capacity or their technical ability.
- 9. Some of the information requested in the PSQ will be for information purposes only. Other information will be assessed by the contracting authority. This might include a pass or fail mechanism, or a threshold which the supplier must meet. Under certain procurement processes, a contracting authority might use the information shared via the PSQ as part of a selection process to limit the number of participating suppliers. For example, inviting the five suppliers that submitted the highest scoring responses. Where this is the case, the contracting authority will outline the maximum number of suppliers, and the criteria used to select the limited number of suppliers, in their tender notice (section 20(4)(a) of the Procurement Act and regulation 19(2)(d) of the Procurement Regulations 2024).
- 10. Suppliers should note that contracting authorities have legislative duties to publish certain information which relate to the supplier in their contract award notices. This information includes, but is not limited to:
 - details of the winning supplier's associated persons
 - details of the winning supplier's connected person information
 - for certain procurements over £5 million, details of unsuccessful bidders
- 11. Where a supplier is unsure or requires any clarification, they should check with the contracting authority.
- 12. Ensure you read the accompanying guidance document provided by the Contracting Authority before completing the PSQ.

This sample PSQ document is for training purposes only and does not constitute a genuine requirement or Invitation to Tender
