Supplying the council

East Suffolk Council currently spends around £84 million each year and we are keen to encourage a diverse range of suppliers to do business with us, both large and small.

As a local council we are not just looking for the biggest companies to supply us, we want to encourage organisations of all sizes to bid on our tenders, including local suppliers. There is something for everyone and we are shaping procurements for all kinds of suppliers.

Why do business with East Suffolk Council?

We are governed by many different regulations which ensure that the way we work is fair, open and transparent. These regulations can mean that the process is more complex than in the private sector, but they do mean you can be sure you will be treated fairly and on the same terms as everyone else.

It is not all about money. We want the best value in our agreements and not simply the lowest price. Having delivered services for over 45 years, you can be sure that working with East Suffolk Council is a safe partner to do business with, paying 98% of our suppliers on time within 30 days.

There are many other benefits to doing business with the council:

- We are a reliable source of work as we will always have requirements that will need to be supplied.
- Our requirements are suitable for companies of all sizes.
- The regulations that the Council are governed by mean that the process is binding and will ensure that you are protected throughout the contract life cycle.
